BAYONETS OR NO BAYONETS

We Will Carry the State By 20,000 Majority.
The following letter reads no explanation and makes good reading:
Raleigh, N. C., Oct. 25.

Wm. H. Bernard, Wilmington, N. C.
Nothing has happened or is likely to happen in North Carolina to justify calling for Federal troops. If they are asked for it will be for the purpose of intimidating the whites, emboldening the negroes, and aiding and protecting the desperate and panic-stricken fusionists by carrying out the scheme they are known to be hatching for stealing the election. These politicians fear the wrath of the people when their desperate methods of fraud are exposed, and they cry out for the army to awe them into submission. We are going to carry this election by peaceable methods, and we are not going to be intimidated by the threat of the bayonet. Ask nothing of McKinley. Send no committee to Washington. We need have no fears. The aroused and outraged manhood of the State will bury those who seek by intimidation and fraud to carry the State, under a majority of 20,000 votes, bayonets or no bayonets.

F. M. SIMMONS,
Chairman.

HE WAS DOWNED.

A Republican in Rowan County tried to put up a scarecrow in defence of the Fusion Administration, but had to take back water.

We notice in the Salisbury Sun that Mr. Joo. M. Julian, the Democratic county chairman there, had a little discussion some nights ago with a leading Republican out of the country. After Mr. Julian had finished his speech, the Republican asked Mr. Julian to answer a question for him. This course suited a Democratic speaker, as all questions can be answered. The Republican asked Mr. Julian if it was true that a Democrat sheriff in Wake county deputized a negro to arrest two white ladies. Mr. Julian quickly denied the statement. Then the Republican made the proposition that both he and Mr. Julian send a representative to Raleigh to search the records. If Mr. Julian's statement was true the other man was to bear all of the expenses and also vote the Democratic ticket, and if the Republican's statement was true Mr. Julian was to bear all expenses and vote the fusionist ticket. The agreement was made that night, but was to be written out the next morning. The Republican showed up but after talking awhile, the Republican asked that the rest of the day that the negro arrested black women. He charged the matter altogether, and the Republican found out that the scarecrow could not fool the people's eyes at all.

WINE OF CARDUI
For Mothers!
This delicate and fragrant food of health, intellectual and spiritual desecration, it might have been without merit, but the progress shown in ameliorating the conditions in various ways, by the wealthy and the poor, was the silver lining to the dark picture. The beautiful hospitals, schools, nurseries, etc., where but a few years ago was literally a hell on earth was calculated to give comfort to those who daily pray "Thy Kingdom Come, Thy Will be done."

Wine of Cardui
has also brought happiness to thousands of homes barren for years. A few doses often brings joy to loving hearts that long for a darling baby. No woman should neglect to try it for this trouble. It cures nine cases out of ten. All druggists sell Wine of Cardui. 50c per bottle.

COMMITTEES APPOINTED

To Solicit Subscriptions for the Barbecue to be Held on Saturday, Nov. 5. To be Known in Every Corner of the County—A Grand Time Expected.

Not in a while is there as large a crowd expected to be in Concord as on Saturday, Nov. 5th. Let everybody tell their neighbor, and let all bring their families, as this is to be a day to be remembered in Concord.

The following committees have been appointed in the different townships and wards for the purpose of soliciting contributions for the Democratic barbecue to be held in Concord on Saturday, the 5th day of November agst. At which time and place there will be a grand Democratic rally and speeches:

The foregoing named committees have the power to appoint sub-committees consisting of ladies and men, and it is hoped that they will canvass their respective townships and wards for meats, bread, and such other provisions as their people may see proper to donate, and in addition thereto, have as many as they can to bring baskets of edibles.

The Second Lecture.

The lecture by Rev. S. S. Bell in the court house Wednesday night was a success in every particular. He drew a large audience that we fear would have been nearly twice the number had he been in the city for a week. He was very successful in his presentation of the case against the fusionists, and his arguments were very good and with the finest lecture ever given in this county. He also gave some insight into human existence in the packed, equalized recesses of the great city that we breathe the free air of an open and empty region can scarcely conceive of.

Had the lecturer shown but the dark side and fed the pessimist only on the decaying and degenerating food of moral, intellectual and spiritual desecration, it might have been without merit, but the progress shown in ameliorating the conditions in various ways, by the wealthy and the poor, was the silver lining to the dark picture. The beautiful hospitals, schools, nurseries, etc., where but a few years ago was literally a hell on earth was calculated to give comfort to those who daily pray "Thy Kingdom Come, Thy Will be done."

A Good Meeting.

We are informed that the Populist candidate tried to hold a secret meeting at the Platt school house Wednesday night. The result was no Populist candidates present and plenty of Democrats, but not a Populist auditor. It was of course a good meeting with a pair of forlorn expectations.

Rally on the 5th, ye that want no more fusion government in North Carolina.
Let the White Government Union fast especially charged themselves with a lively interest in the grand rally on the 5th.

COUNTING SILVER COIN.

How the Work is Being Done at the Philadelphia Mint.
The nimble fingers of twenty pairs of feminine hands were set to work the other day at the subtreasury counting ten millions of silver dollars, which have been stored in the custom house vault. The task is not an easy one by any means, and 25 days, it is expected, will be consumed in its completion.

Jerome Wis. of the treasury department at Washington, has come up to superintendent it all. He is assisted by Miss Julia Best, of this city. The twenty women who are doing the work are all expert handlers of coin and have been employed in the mint here. The count is made to verify the accounts of ex-Assistant Treasurer Bizler.

In a room on the second floor, a long table, divided into 20 compartments, is placed behind a stout iron screen, high enough to keep out intruders and possibly covetous fingers. At this table sit the twenty counters and into each compartment is dumped 1,000 shining new dollars, the contents of a stout canvas bag in which they have been signed, sealed and stored away. Quickly and deftly the operator takes up a handful of the coins, and almost before you can say "Jack Robinson" she has stacked them up in little piles of ten each in a box which holds exactly 100 such piles.

Then a man comes along with another canvas bag, the counterpart of the first one, and 100 little \$10 piles are dumped into it. It is then tested, sealed and the name of the counter, written by herself on a tag, is attached to it. Then it is carried away to give place to a successor, and so goes again to the subtreasury vault from which it came.

The process pursued is a little different from that followed in other years, for then the money was merely weighed in the bags and if one of them showed "weakness" it was opened and the contents counted. This time indubitable proofs are to be had by the actual handling of every piece of coin.

The bank notes, which are always disposed of by actual count, have already been verified, as has nearly all the fractional coin, halves, quarters, dimes, nickels and pennies, to the amount of \$5,000,000 or more, and gold to the amount of over \$1,000,000. —Philadelphia Press.

His Hand Only is Out.

As was merely noted in Wednesday's edition, Mr. Ewer Parish, son of Mr. V. C. Parish, who lives near White Hall, had the misfortune to get his hand caught in a corn breaker that afternoon. The young man, about 18 years of age, had on gloves while feeding the machine. After his hand went between the rollers he almost instantaneously threw the machine out of gear with the other hand but it was too late. His hand was badly lacerated, and to add to the suffering of the young man, the rollers were as if locked and his hand was fast, until some of the bolts were loosened. Only his hand was torn off after all. The physician enjoined the wrist, not leaving such a bad wound to heal.

He is Now Making Fusionist Speeches.

It was well noted about that Mr. Jake Newell was to speak at Dewey, in No. 3 township, Wednesday night. The Populists had assembled there to hear this new speaker Attorney H. S. Puryear went up there from here and a led for a division, to which request Mr. Newell acceded. Each spoke forty minutes with a ten minute rejoinder. It is impossible to report Mr. Newell's speech. This was his first attempt in his new policy. Mr. Puryear was well equipped with data, which he stampt poured out to them in a most reasonable manner, and defied his statements to be honestly refuted.

Our dear noble women in the rural districts know full well,

and need only to remember that Democratic success means much for their safety and happiness.

Their Little Infant Dead.

The six-months-old child of Mr. and Mrs. George Mudd died Thursday night. The little child had never been in good health, having had a spinal affection. Only a week or more ago had little Charlie been christened. The remains were interred this (Friday) afternoon after the preaching of the funeral by Rev. O. B. Miller.

STATE FAIR A SUCCESS.

Col. Cunningham Re-elected President and F. B. Arendell Secretary—Capt. Benson Eulogies Ex-Governor Holt.

The North Carolina State Agricultural Society met in the hall of the House of Representatives Thursday evening and heard the address of Capt. Benson on the life and character of Ex-Governor Holt. The reorganization resulted in the election of Col. John S. Cunningham for president and Mr. F. B. Arendell as secretary, Mr. Nichols declining reelection.

The financial statement was enthusiastically received, as the proceeds this year will show a handsome profit and place the association in good shape.

Jake Newell Orates at Sossamon's School House.

Hon. R. L. Smith was sent to Sossamon's school house Thursday night to get a division of time with Mr. Jake Newell, who is now going about over the county making speeches in favor of the fusionists. Mr. Newell's speech, as reported to us by one whose word cannot be doubted, was devoid of argument, but full of abuse from beginning to end. The News and Observer, Charlotte Observer, Concord Times and STANDARD received a plenty of abuse from his lips. The latter two, he said, were all right except that brains was one of their unknown quantities. He said that he knew from much experience that brains were necessary to run a newspaper, else it would soon topple over. Every Democratic speaker, either of State or county renown, was deficient and incapable for anything. He was at the speaking in No. 10 township Thursday when Mr. Hartzell told the audience that his nomination for the Legislature was brought for, yet when Mr. Newell got to Sossamon's school house that night he said in his speech that Mr. Hartzell had worked dishonestly and untruthfully for the office.

Mr. Smith made a speech of forty-five minutes, not full of abuse for Mr. Newell, as he somewhat ignored his opponent, but spoke upon the issues now confronting us and which are the foundations of Democracy.

Relief at the County Home.

Superintendent Barahardt of the county home, tells us that he has relieved the home somewhat by taking Mary Lucky to the hospital at Goldsboro. Mrs. Talley also has been taken away by friends.

This Mrs. Talley is not altogether indigent nor really insane, but efforts are being made to get her into the hospital at Morganton. She is doubtless diseased, but it is chiefly hypochondriasis that makes life a burden to herself and those in contact with her. She is evidently a fit subject for the hospital care and treatment.

WANT GOOD GOVERNMENT.

Populists in Duplin Returning to the Democratic Party.
EDITOR STAR: I see the Concordian says that Populists who go to the Democratic party are bought out.

Now I wish to say that I am one who has left the party and am again in the Democratic party and to stay. I am glad that I am not alone in this movement. Others of my neighbors and quite a number of non-st. patriotic citizens of this, in the Hill township, are with me. We did not "come in at the back door," either. We are not bought out—we expect no reward except that which we believe will come to the whole people by good government brought about by the success of the Democratic party.

IRA T. YOUNG.

Doesn't Like the Pie-Hunting Gang Smithfield Special, 25th, to Raleigh Post.
Dr. G. J. Robinson, a prominent physician of this place, and brother of Judge Robinson, of the Superior Court, to-day authorized the following statement:

"I am and always have been a Republican, but I cannot support the pie-hunting gang who are aspirants for office in North Carolina. There seems to be but one issue. The negro has drawn the color line, and so long as such a state of affairs exists, I shall support the Democratic party, and earnestly wish all true Republicans may do the same." "G. J. ROBINSON."

SPINAL.

WILLIAMS' PINK PILLS FOR PALE PEOPLE
This is a wonderful medicine, and yet it is so simple and natural. Blood is the life of the body, and the blood in the veins makes PURE BLOOD.

Thanking Peals That it.

I do not hesitate to say this publicly that if a race war conflict occurs in North Carolina the very first man that ought to be held to account are the white leaders of the negroes who will be chiefly responsible for it, and the worst ought to begin at the top of the list. I soon to leave my doubt as to whom I mean by this phrase, I mean the Governor of this State, who is the engineer of all the devilry and mannae. I trust that no such day will be thrust upon us, but if it is, I trust that it will be rigidly and fearlessly performed. It is an abuse of language for such men to talk about the freedom of elections and the purity of the ballot. There never has been any freedom in the negro's exercise of the right of suffrage. They have invariably voted blindly and solidly as a race, against every interest of the white people among whom they live and on whom they depend for employment. It is a part of their religion to do so, and wherever there is an exception to this rule the offender is an object of hatred and persecution by them. The terrorist practices by them in this respect has no parallel in any free country, and yet their leaders talk to them about being "broadminded" by the white people! —A. M. Waddell at Wilmington

A Christian Turns Democrat.

Rev. Carey Wilkins, one of the most influential Christians in Robeson county, publishes the following in the Lumberton Reformer: "I, Rev. Carey Wilkins, one of the oldest Republicans in Robeson county, have been with that party ever since the reconstruction. Now, since they have fused with the Populists, I denounce them all and have come over to the Democratic party, which is the white man's party. And as I have lost confidence in all others, I expect to remain in the Democratic party."

Doesn't Know Who shot Him.

Paul Welch, of Waynesville, a student at the A. and M. College, was shot in the leg in Raleigh this (Friday) morning between 12 and 1 o'clock.

The young man was drinking and it is not known even by himself how it happened. He says he was on the special police force and had a difficulty with some fellows that he thinks did it.

The Old Man Remembers Him.

The Jacksonville correspondent to the Observer has the following: "Private R. P. Saunders ('Pop'), of Company L, while acting as a peace-maker in a little company argument last Friday night, was stabbed in the thigh, but is still in the rig, and walks around, with the help of a cane, and quotes Shakespeare with his accustomed ease."

THANKSGIVING PROCLAMATION.

The President Names Thursday the Twenty-Fourth.
President McKinley issued the following call Friday evening for a national Thanksgiving:

By the President of the United States: A Proclamation: The approaching November brings to mind the custom of our ancestors, hallowed by time and rooted in our most sacred traditions, of giving thanks to Almighty God for all the blessings He hath vouchsafed to us during the past year.

Few years in our history have afforded such cause for thanksgiving as this. We have been blessed by abundant harvests, our trade and commerce have been wonderfully increased, our public credit has been improved and strengthened, all sections of our common country have been brought together and knitted into closer bonds of national purpose and unity.

The skies have been for a time darkened by the cloud of war, but as we were compelled to take up the sword in the cause of humanity, we are permitted to rejoice that the conflict has been of brief duration and the losses we have had to mourn, though grievous and important, have been so few, considering the great results accomplished, as to inspire us with gratitude and praise to the Lord of Hosts. We may land and magnify His holy name that the cessation of hostilities came so soon as to spare both sides the countless sorrows and disasters that attend protracted war.

I do, therefore, invite all my fellow citizens, as well those, as those who may be at sea, or journeying in foreign lands, to set apart and observe Thursday the 24th day of November, as a day of national Thanksgiving, to come together in their several places of worship, for a service of praise and thanks to Almighty God for all the blessings of the year; for the mildness of the seasons and fruitfulness of the soil; for the continued prosperity of the people; for the devotedness and valor of our countrymen; for the glory of our victory; and the hope of a righteous peace; and to pray that the divine guidance which has brought us hitherto to safety and honor may be graciously continued in the years to come.

In witness whereof, etc.
(Signed) WILLIAM MCKINLEY, By the President,
JOHN HAY, Secretary of State.

AN APPEAL TAKEN.

Joe Jackson is Convicted of Assault and sentenced to be Hanged—His Attorneys Take an Appeal From the Decision.

It will be remembered that several weeks ago a negro, Joe Jackson, was accused of an assault on Minnie Brown in Mecklenburg county. Since that time the negro has been confined in jail, awaiting his destiny. A special term of court has been held and on Friday evening the jury returned a verdict of guilty after having been out only twenty minutes. The judge at once sentenced him to be hanged on the 20th day of December, but Jackson's attorneys made an appeal for another trial, which has been granted.

When the people of the community where the deed was committed found that he would not be punished yet and probably not at all, their avenging spirit became somewhat wrought up and they tried to get Jackson from the hands of the sheriff while they were on their way to jail.

The sheriff took the prisoner out of the city that night, in order to save his life in case a lynching crowd might organize. There was quite a crowd on the streets during the night but the prisoner's whereabouts were not known.

High Point Is Busy.

In a letter to the Manufacturers' Record Mr. E. M. Armfield, cashier of the National Bank of High Point, N. C., writes as follows: "Our local business has improved very materially during the past two months. Our furniture factories, of which we have ten, are all running on full time, and are getting more mail orders than they can fill. There are about 1,000 skilled white men employed here. All pay rolls are promptly paid in actual cash, which makes a good trade for the merchants all the year round. The farmers are in better condition than ever before, having raised two excellent wheat crops, almost all of them out of debt and many having good sums to their credit in bank. There is no cotton grown in this immediate section. What the South needs to make her blossom as the rose is a more intelligent class of farmers, for the greatest and best fertilizer ever applied to any land is the brain in the head of the man working it. If all the land of North Carolina could be brought up to the highest degree of its productive capacity towns and cities and railroads and banks and factories would spring up on every hand."

"That's all right. There is a movement on foot these days for Concord to have a furniture factory some of these days, and we hope that the plans will develop soon. Several parties for the last several years have been trying to start such a business but it seems that they can't get started."

His Presence Is Wanted.
It is our desire to have Mr. W. M. Weddington come out here next Friday night and meet his opponent, Mr. Luther Hartzell, as Mr. Weddington in his circular spoke considerably about not getting to meet his opponent. We want him to show up Friday night.
