He Was a Good Young Man.

Died, Sept. 7th 1899, near White Hall, Capus Patterson Helms, youngest son of Daniel W. and May J. Helms, aged 18 years 2 months and 15 days.

He leaves an aged father and mother, one sister and five brothers to mourn his death. Though he was taken in young manhood, the loved ones are not left to mourn as those who have no hope. During the summer of 1896 he professed faith in Christ and connected himself with Rock Hill Baptist church and continued a member until death.

He was taken with typhoid fever about the middle of August. During the first three weeks there were no serious apprehensions as to the result but day after day he expressed himself as willing to go if the Master called him.

During the last four weeks his mind was often beclouded, but when his mind was clear he expressed the same confident hope and urged his friends to meet him in the better land.

His funeral was conducted at White Hall by his pastor, Rev B Lacy Hoge after which he was laid to rest until the morning of the resurrection. X.

TO CONCORD'S PRAISE.

Another Notes the Volume of Business and Rapid Progress Made by Our Town.

A correspondent to the Raleigh News and Observer from this place had the following in the Sunday's edition:

Concord needs two thousand more population in order to furnish sufficient help to run the new enterprises which have already been built, and those which now are in course of construction.

No town in this State has made anything like the progress which Concord has made in the last year, two very new mills have been erected, and are now about ready for labor, while hundreds of dwellings have been built. There is not a vacant house in the place, while the carpenters are all employed building new houses. Town lots and real estate are still very low, although considerable real estate has changed hands recently, while several large transactions are being negotiated.

Millions of brick have been made and placed in walls, and today the three brick yards are running their machines to full capacity, and can only furnish sufficient brick for the work that is being carried on, while there is enough building in sight for next year to consume as many bricks as were made this year. Hundreds of other houses will be built next year, every one of which will find a tenant waiting on its completion.

The cotton mills in the town under the management of J M Odell and J W Cannon have never known anything about depressions, but during all the time since their building have never ceased running, while during the greater part of the time they have had, and now have, both a night and day force of hands.

The Cabarrus Savings Bank has opened its branch at Albemarle. The Tuscarora Cotton Mill, which will be located at Mount Pleasant, has completed its organization. The plans have been perfected and lands purchased for the Gibson Mills to be located here. This will be one of the largest and most complete mills in the State, and as Concord already has more looms and spindles than any other place in the State, this last addition will place us far ahead of any other place.
