NO crop can grow without Every Potash. Every blade of Grass, every grain of Corn, all Fruits and Vegetables must have it. If enough is supplied you can count on a full crop - if too little, the growth will be "scrubby."

LOUISVILLE GETTING READY. "Falls City" Has a Grand Time in Store for the Wearers of the Gray. The following circular letter from Adjutant General of the Confederate Veterans Association, we think is pleasing enough to be inserted. It will be remembered, however, that Gen. Carr has announced that two men propose to entertain all North Carolina veterans who will accept their hospitality, and the Southern announces rates of \$11.20 for the round trip.

THE HAND OF THE CARPENTER. It Can Be Seen at All Times Within Our Boundaries - A Steady Increase of Buildings. If one could only see at one time the many houses that are constantly being built in our town they would realize the immense increase of buildings each year.

NO CHANGE IN THE STRIKE. Some Places Are Giving the Railroad Company Some Trouble, But Thus Far the Strike Has Failed to Accomplish Its Point. On this part of the Southern and at Concord especially we see no effects of the strike, though at some places there has been a change made by the strike of the telegraphers.

MY DEAR COMRADES. - The delay in answering your letters, communications, and attending to your requests and orders has been occasioned by my absence at Louisville for nearly a week. I went there at the invitation of the Reunion Committee to inspect their work, and advise with them. I found them a splendid body of Confederate Veterans; patriotic to the core, enthusiastic and painstaking even to the smallest details, and thoroughly imbued with the idea that they intend to make this Tenth Reunion the greatest of all.

At Forest Hill, in the direction of the oil mill, the Odell Manufacturing Co. has completed a number and have also built several over in another part of their property. On South Main street Mr. Luther Bost will soon have a beautiful new residence and just across the street the lumber is being placed for a nice residence for Mr. W. C. Correll.

ACCEPTS ANOTHER POSITION. M. L. Moore Resigns His Position at the Odell Mills to Superintend a Cotton Mill in Tennessee. We are sorry to learn that our townsman, Mr. M. L. Moore, who for many years has been with the Odell Manufacturing Co., but who until recently returned from Winston-Salem where he was superintendent of a cotton mill for some time, has resigned his position here to accept the superintendency of a cotton mill at Herriman, Tenn.

THE ASHEVILLE CITIZEN. The Asheville Citizen gives the following account of an instance near there which is somewhat similar to the case at Harrisburg: "A new agent was sent to Sylva yesterday, but was given to understand that it would not be a healthy place for him. He acted on the hint and left."

POPULISTS PUT OUT A FULL TICKET. The State Populist convention met in Raleigh Wednesday evening at midnight. The usual par between Harry Skinner and Marion Butler was on so far as Skinner was concerned, but Butler could not be drawn into contest.

A LARGE DEAL. W. G. Newman Sells the Controlling Interest of the Union Copper Mine to the Standard Oil Company. The recent rumor that the Standard Oil Company was trying to secure a controlling interest in the Union Copper Mine was not altogether an idle one, for now they own all the shares of stock except 100,000, retained by W. G. Newman.

How That Der "Society" Money. From an exchange that we can't pick up just now we recently saw that an ingenious boy in New York recently hit upon a plan to "make" money rapidly for his Sunday School companions. After the lesson was ended he said to them, you give me your money and I will pay you ten per cent per week on the investment.

Scarcely ever does one hear of a more awful suicide than was that of J. J. Newman near Gold Hill. He kept a diary and made notes in his book every few minutes before taking his life, saying that he was of sound mind but that the fates were against him. The last notation in his book at 3:38 o'clock that night read: "I tie five cartridges together and prepare to die by them." Short fuse. J. J. Newman. This was the last note he made before his life was ended. He requested that his body be buried without a coffin by the side of an oak tree in the old graveyard on Dutch creek. The remains were interred according to his request Wednesday evening.

Death of Miss Coleman. A letter was received by Mr. Ed McDonald Wednesday announcing the death of his niece, Miss Carrie McDonald Coleman, which occurred in a hospital in Philadelphia on the 16th inst. Miss Coleman was 26 years old and was the eldest daughter of Mr. McDonald's sister, Mrs. D. R. Coleman, of Belleville, Canada, who was born and educated in Charlotte and has a number of friends in this city. The letter stated that the remains were taken to Belleville for interment. - Charlotte Observer.

There is still some delay in the shipment of freight to small stations where no agents have been installed. "All wires are working as usual today." "J. F. Lay tells the Citizen there are 55 out on the Asheville division today, and that there are six "scabs" at work on the division, and 17 non-union men still working. "The boys are in the best of spirits, and determined to remain out until we win," he said. "Fourteen men have gone out in the last five days. During that time four scabs have become disgusted and left their jobs."

Public gifts amounting to \$32,750,000 in 1899 most of which went to schools, colleges, and libraries. And yet there are young people all around us who have no education and don't care for one. No one else has so many friends desiring to help them upward. The U. S. Supreme court the other day decided the case of grumbling against the city of Chicago involving the validity of the anti-cigarette ordinance of the city. May they soon be barred out.

Mr. Mebane Satisfied. The Newton Enterprise in referring to the spirited contest over the nomination of a Superintendent of Public Instruction, says: "Mr. Mebane is perfectly pleased with the result, will support the whole Democratic ticket, and is more convinced than ever that he was right in coming out for the amendment and casting his lot with the Democratic party."

Manila Not Safe for Women. The War department is still loath to permit the ladies of officers' families to reside in Manila. Following is a form of a letter which is being used by Secretary Root in response to all requests from army women for transportation to the Philippines: "General Otis has requested that the ladies of officers' families should not be permitted to go to Manila. The officers themselves are liable at any time to be ordered to distant parts of the islands, so that they are unable to furnish protection for their families, and Manila is not yet a place where it is probably that an American woman can live without protection. If a lady has male relatives living in Manila in whose family she will live and who will furnish her protection in the absence of the officer on whose account she asks transportation, the quarter-master-general is authorized to permit her passage on a transport."

Pointed Paragraphs. Experience never teaches fools anything. You can frequently judge a man by the fool friends he has. When a man sees the error of his ways he should change his route. All men are anxious for fame, but many are willing to accept money as a substitute. There is something wrong with the appetite of a small boy who can wait patiently for his dinner. No man is absolutely perfect, but one who acknowledges his faults is more than half way up the ladder. If a man is unlucky it worries him, and if he is lucky then he worries because he is afraid his luck will change. - Greensboro Patriot.

What Kind of Scales Have You? We note from the Greensboro Telegram that the agent of the Computing Scales Company, of Dayton, Ohio, has brought suit against a merchant of that city for using an infringement on their scale. It is called the National Computing Scale. The purchasers are being prosecuted because the company can't find the manufacturers of the infringement. Should there be any of the National Computing Scales in our town the owner would do well to look into the matter rather than be liable to the penalty.
