CROSSES OF HONOR.

We hope it will not be forgotten that those who have applied for Crosses of Honor are expected to be in Concord on next Saturday, the 10th, to receive them.

They will not be carelessly sent out and it is due to those who are giving them that they have the pleasure of pinning them on according to the original intent. No one should apply for the honor or who is not willing to make some sacrifice to come on the appointed day to receive it.

On May 20th the monument to the memory of Lieutenant William Shipp will be unveiled in Charlotte. On the 22nd is the grand centennial celebration of Salem Female College. That deservedly popular institution will have made a hundred years of educational history. These are occasions of decided interest that will be well attended.

It was feared that court and memorial day exercises would conflict on Saturday. This was groundless, however, as court adjourned today (Wednesday) to re-convene next Monday. Judge Starbuck, when applied to in the matter, gave the writer the prompt assurance that the court room would have been yielded in favor of the occasion if court had been in session. We can do no less than to express to His Honor the gratitude of Veterans and Daughters of the Confederacy especially for this considerate kindness.

The scientific American advises against biting at propositions to take stock in various schemes to promote wireless telegraphy. It thinks there will be good investments made on large scales by moneyed men in the formation of companies, but the efforts to induce men to make small investments mean fleecing them. This is like the 101 propositions to make big profits on small investments in Texas oil lands. Men of capacity for business can get all the money they need on safe enterprises and all the raking round for small investments with offers of stock for less than par with great prospects pictured for the near future are mere baits that do not even hide the hook from any but splendid "suckers."

There is a distinctive and resistless movement in Cabarrus for the improvement of roads that is an omen of upbuilding in the county the like of which we rarely ever observe in anything outside of probably a political upheaval. Strong, progressive, energetic men are throwing themselves into it, knowing that there is a long steady pull between us and the goal, yet they mean to lean into the harness and will get there with the burden. Let him draw back who will bring his pumpkin out of the bottom with a rock to balance the pumpkins but men of Cabarrus mean to have better roads.

"It is well to put off till tomorrow the unkind things you might do today."

FRIGHTFUL ACCIDENT.

Mr. Victor Brown is Dragged Half a Mile by a Mule.

As a result of a ghastly accident Mr. Victor Brown, of Sharon township, lies at death's door.

Mr. Brown lives close to Sharon church. He finished ploughing in a field about sunset and going home he rode a mule. The animal became frightened and ran away through the woods. Mr. Brown was struck by the limb of a tree and hurled from the mule, his leg being caught and held in the harness on the animal. With his head and side touching the ground the unfortunate man was dragged half a mile.

The animal stopped at Mr. Brown's home and members of his family came to his relief. He was unconscious and a telephone message from Sharon at 1 o'clock this morning states that he has not yet fully recovered consciousness. His face and head are frightfully lacerated, and his side is badly torn and bruised. Physicians are still with him, and they state that he is very seriously, if not fatally, injured.—Charlotte Observer.

REPRESENTATIVE SALMON DEAD.

Sad, Strange Coincidence—Three Days in Succession the House Adjourns.

Congressman, J. S. Salmon, of New Jersey, died suddenly of apoplexy Tuesday morning at his home. Congress adjourned out of respect to his memory. This was three successive days on which that body adjourned under such circumstances. Cumulatively, Otey, Salmon. Singularly enough, only a few days ago Congressman, Gilbert made a eulogy on Representative Stokes. Mr. Salmon sat near him and was much affected. He leaned forward and told Mr. Stokes that he wished Mr. Gilbert could say as much of him when he was dead.

REAR ADMIRAL SAMPSON DEAD.

Passes Away at 5 p. m. Tuesday of Cerebral Hemorrhage.

Rear Admiral Sampson died at his home in Washington at 5 o'clock Tuesday evening. The immediate cause of death was cerebral hemorrhage.

It is well-known that the Admiral was declining and that the end was near. He had been unconscious for several days.

Good Town Lot Farming.

Dr. N. D. Fetzer is one of our best farmers of the town lot grade. He now has a patch of rye and sand or hairy vetch that is the most luxurious crop we have seen this spring. It is about the height of a man. The vetch is a growth too slender for its own weight and must be sowed with oats or rye to hold it up and make it capable of mowing. A cow goes for it on all fours, eschewing all others and chewing this as her choice succulent. On this she yields choice butter, decidedly better in flavor than the clover butter.

A Decline in Saloon Patronage.

A strong temperance lesson is taught by the experience of the Union Pacific railroad, which made a rule a few weeks ago that no man who frequented saloons, while either on or off duty, could remain in its service. A sudden decline in saloon patronage is now reported all along the Union Pacific lines, and at Choyenne, Wyo., a centre of railroad labor, twenty five drinking places are said to have gone out of business within two weeks.—Daily Reflector.

Mr. Claborn Misenheimer Dead.

Mr. Claborn Misenheimer died on last Sunday at his home near Misenheimer Springs at the age of about 70 years. His funeral was conducted by Rev. J. A. Linn at New Bethel where he was a consistent and most valuable member. Mr. Misenheimer was in every way a good man. He leaves a wife and four children to mourn his death.

THE COUNTY SCHOOL BOARD MEETS.

The Work of Consolidation Goes Vigorously and Commendably Forward.

At a meeting of the county school board on Monday, May 5th, the County Superintendent was authorized to sell at a fair valuation the Flint Hill school property which has been abandoned for years if he finds the title resting in the board's hands.

Messrs. C. E. Boger and W. F. Smith were appointed a committee to meet a similar committee from Mecklenburg with a view to union of school work for the interests of children living near the dividing line of the two said counties.

It was ordered that Stallings and Garmond school districts in No. 10 be and are hereby consolidated and that the Superintendent confer with Martin Little and F. P. Smith for the purpose of obtaining a suitable site of not less than two acres for the location of a house for said consolidated districts.

The superintendent was instructed to get additional information to that now in position of the board with regard to the consolidation of the Moose and Cruse districts in No. 6 township and the Gilwood and Smith districts in No. 3 township.

The Chapel Hill and Platt school districts were consolidated, subject to further information gained by visit of Superintendent.

It was ordered that Cold Springs district in No. 8 be and is hereby abolished and that the territory formerly embraced in this district be divided by some suitable line between the Frog Pond and Fink districts and that the personal pleasure of those living along this line be consulted as to which school they will attend. It was further ordered that a house suitable for the needs of the Frog Pond district be built on a site of not less than two acres somewhere near station 4 as shown on a survey of the ground.

The Superintendent was also ordered to inspect the Fink school house with a view to enlarging the same if found necessary.

Superintendent Boger and Mr. W. F. Smith as a committee were instructed to obtain information with regard to abolishing Bingham school district in No. 3.

Important to Mothers.

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade-mark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children.

Parents, and mother in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.—Phila. Bulletin.

TEMPERANCE ITEMS.

Called by M. E. McCartney.

"Hear me! I am going to die, but I shall not die in a saloon!" said a man in a New York saloon one day as delirium tremens took hold of him and he was pounding on the counter. He went out on the street and wandered into a mission. Jerry McAuley took charge of him and after a prayer, he arose free. He is Mr. S. H. Hadley, possibly the greatest rescue missionary in the world.

The Gillett-Lodge Bill passed the Senate Feb. 1st. The many friends of Dr. Paton will rejoice with him that his efforts for the heathen will not be counteracted by unprincipled American traders dealing out whiskey to the inhabitants of New Hebrides.

The excise board of Jersey City, N. J., has adopted a resolution instructing the city clerk to refuse all applications for liquor license within 200 feet of any church or public school.

At the close of a regular service in St. Peter's Catholic church, Crofton, Pa., on March 24th, the whole congregation, composed of over 500 men, women and children signed the pledge after an eloquent sermon on temperance.

The City Council of Danville, Va., has fixed the saloon license at \$200 and requires the removal of all screens at all hours. Also that bar counters shall be placed within 12 feet of the street.

All the employes of the Barnum & Bailey circus, now travelling in Europe, are total abstainers.

Life would be doubled in its results for good if men and women did not have to spend so much time in the maturity of their powers in simply unclasping the fingers of youth's folly.

The meeting at St. John's church on Sunday, we are happy to learn, resulted in a unanimous call to Rev. Jno. A. Wise for pastor. The vote was almost a unit and was made so with great unanimity. The official call has been forwarded. It is to be sincerely hoped that he will accept the call.

THE CHARLESTON EXPOSITION.

Some Wonders in the Arts of War—Confederates Set the Pace for Rapid Fire and Breech Loading Guns.

Our attention has been called to the fact that we promised more on the Charleston Exposition. Modesty prompts fear of wearying the reader but there are really many interesting matters connected with the exposition that will bear mentioning.

As we are not far enough removed from our late war to cease our pride in American achievements in battle, the government building is of much interest.

You enter and presently come into contact with figures that it seems meet greet you. You see representations of soldiers dressed in the uniforms in the different wars in our history, 1776, 1812, 1846, 1861-65 and those of today, even the light uniform of our tropical climate.

The form seems perfect and the features life like. Even the eye is so perfect that it is only when you look for facial expression and the speaking of eye to eye that you realize that you are coquetting with a dummy figure.

These figures include horses and pack mules that are wonderfully life like.

The guns, however, are the wonders of this progressive age. And here too we learned to our surprise that the Confederacy actually had two kinds of rapid fire guns and six styles of breech loading guns. From the rapid fire guns of that day have evolved the Gatling, Colts Automatic and the Hotchkiss guns.

The progress made in appliances is wonderful. In 1850 the soldier could fire two shots per minute at a range of 200 yards. In 1870 he could shoot twenty-five times in a minute and pick off his man at 2,000 yards. In 1900 he shot thirty-six times per minute and landed his shots at 4,000 yards. Colts machine gun shoots 480 shots and the Gatling gun 800 per minute.

The improved Colts pistol has a magazine in the stock that holds 12 shots, we believe. It is somewhat like the modern sportsman's gun in that you slide a sheath on the barrel that throws out the old shell and makes ready. You press the trigger, then relax and then press it again continuously and it just keeps shooting till the magazine is exhausted. If you wish to cease firing you relax the pressure on the trigger.

In our great civil conflict we were safe with a small tree between us and a Yankee, but now an ordinary tree is no protection from the Lee Straight Pull or the Krag-Jargenson. There is there an illustration of the terrible force of the Lee Straight Pull. A shot lies 50 inches deep in solid lumber.

As to the present day cannon it is absolutely enormous. There is a wooden section showing half of a modern 13 inch rifle. It is 86 to 40 feet long (we could not learn its length). This gun costs \$52,000. The ball weighs 1,100 pounds and a single shot takes \$600 from Uncle Sam's pocket. It takes 245 pounds of smokeless powder for a charge.

THE GOOD ROADS ASSOCIATION.

Mr. G. T. Crowell, president of the Cabarrus County Good Roads Association requested the township vice-presidents to meet him in the town hall immediately after adjournment of the meeting Monday.

At this meeting it was decided that townships be allowed one vote to every \$50,000 worth of property or fraction thereof according to the tax valuation, provided that no township shall be entitled to less than 3 votes.
