DR. H C HERRING LEAVES US.

Dr. J E Cartland Succeeds him—The Standard Will Take One More Snap at the Doctor

The Standard has known and regretted for some time that Dr. Herring was to leave us.

On Monday, Dr J E Cartland, of High Point, will move into and take complete possession of the office now occupied by Dr. Herring.

A few personal notes:

Dr. Herring was born in Sampson county, which is to his credit; and that he became a citizen of Cabarrus is still a greater credit. The first school he attended was in a log hut—one of the rules of the master was to be there half an hour by sun. If a pupil failed to conform to this demand he was sent on a mission to a birch thicket near by. The doctor, then a youth, often visited the birch thicket. We do not know how old he is, but are reliably informed that the Southern Confederacy still owes him for a few weeks' service.

In 1868-69 he was under the training of B F Grady, now Congressman from the 3rd district. He was a student at Wake Forest College in 1871-72. He graduated in 1880 at the Philadelphia Dental College. He located at Clinton, Sampson county, but health breaking down, he came here, where he has been for about ten years.

Dr. Herring has built up a large and lucrative practice, and gathered around him many friends, who will regret to know of his decision.

But he has a little girl, who cannot hear, and it is his intention to perfect himself in teaching these unfortunate ones speech and devote his life to it.

The best wishes of the Standard, together with that of many friends, attend the doctor in his noble purpose.

Dr. Cartland is likewise a graduate of one of the finest dental colleges north. Two years ago he took a post graduate course in Chicago. He comes with the endorsement of all the people of his acquaintance as an excellent dentist and a Christian gentleman. Dr. Herring could not have chosen a better man for his successor.

Narrow Escape.

Miss Myrtle Brantly a grown young lady, a pupil of the public school in No. 45, No. 5 township, had a narrow escape from a horrible death on Tuesday. Standing near the fire, her dress caught. Had it not been for the efforts of the teacher, Miss Loula Barnhardt, and the pupils, Miss Brantly would surely have been burnt to death.

Her dress was entirely burnt from her, but woolen underclothing served a good purpose in checking the flames.

Miss Brantly was not painfully burnt, but the shock was intensely severe.

A REMARKABLE CASE.

Sticks of Wood and a Tuft of Hair Removed from the Wounded Leg of A. L. Sink, a Victim of the Boston Bridge Wreck.

Correspondence Lexington Dispatch.

Your issue last week in reference to the condition of Mr A L Sink, one of the victims of the railroad wreck at Boston's bridge, August 27, 1891, was somewhat misleading. It is true that Mr. Sink had been able with the aid of crutches and an attendant to get out on the street, a short distance from the house; but there was wanting at the same time indications of a "rapid" recovery. Mr. Sink, it will be remembered, received a very bad punctured wound six or seven inches deep in his right hip at a point about seven inches above the break in his thigh, which has obstinately refused to heal, and by the constant discharges has been a great drain upon his system. It is doubtless owing to this terrible wound, more than to his broken bone, that his recovery has not been more rapid.

To ascertain the cause of the wound not healing, and if possible, to remedy the difficulty, his attending physician, Dr. R L Payne, Jr., determined to perform an operation, and accordingly on last Thursday, assisted by doctors Payne Sr., Crawford and Riley, he made a perpendicular incision about four inches long and in depth to the bone opposite the fracture in the thigh and extending upward to the bottom of the old wound. At this point the Doctor introduced his finger and took from the wound a splinter of wood about 2 1/2 inches long, 1/4 or 1/2 of an inch wide and nearly as thick. On a further search he found another splinter about one fourth as large, and a small tuft of hair, which had been peeled from the head of some other poor victim (probably his wife), of this most horrible wreck, before it reached Mr. Sink, and was driven through his clothing and into his flesh to the depth above stated, and for more than five months has caused intense suffering.

The operation was a tedious one, but skilfully performed. Mr. Sink submitted to and stood the operation with much nerve and fortitude.

He has, of course, necessarily suffered much and is still suffering from the operation.

Hopes may now be entertained of his recovery. L. C. H.

Jim Fink had a dream that was a dream. He dreamed that a creditor—a bad, long winded creditor—came to settle his account. He stated that Col Joe Daniels had bought the property and before he made a deed he wanted it unencumbered. Has it come to this that a state officer owns land in Cabarrus?

State Chronicle says: Governor Holt said yesterday that the resignation of James H Merrimon as Superior Court Judge from the twelfth district was received, but that he would not make an appointment until next week, to fill the vacancy. The four gentlemen whose names are formally laid before the Governor, from which to make a selection, are Messrs Kope Elias, G S Ferguson, H B Carter, and George A Stanford.

Next Monday evening will be marked with a "White Stone" by all who love good music and beautiful pictures, for our friends who are working so ardently for their little church, tell us they mean to give the public an entertainment that will reward them for an evening from home. With Miss White whose singing so enchanted the people of Raleigh at their Exposition, to add her beautiful and cultivated voice to their artistic talent, we know from what we saw before, what they can do, and feel that the half has not been told us: We predict for them a full house of appreciative Concordians.
