## WILL HE SUCCEED HIMSELF?

This district has reasons to be proud of the fact that it has a Congressman, who stands at the head of the North Carolina delegation. You hear nothing else about Hon. Jno. S. Henderson.

He's at his post of duty; he learns and knows his duties. Not brilliant, but prany—he's a faithful worker and interested in that that is for the benefit of his constituency.

John Henderson has an influence in Congress equalled by few.

North Carolina makes mistakes in changing its Congressmen just when the ropes are learned. Mr. Henderson now stands where he can be of more service to his district and North Carolina than any man the district could elect.

That this is true, cannot be doubted; and appearing that way to us, we would like to see him re-elected. The Standard believes that he will succeed himself.

Wait for the result of the Republican Convention.

## STANDARDISMS.

Elizabeth City has introduced a new industry—that of shipping bullfrogs North. There is no finer, daintier meat than the hind legs of a frog. So people say.

Thomas A Edison says when a boy he sold peanuts and newspapers on trains. He wouldn't sell peanuts and newspapers on trains now for \$4.50 a week. He is a sort of lightning train himself.

## NEWS OF GENERAL NATURE.

A bicycle insurance company has been organized in New York, to insure bicycles against damage by accident. It repairs the damaged bicycle, or if too badly stoye up gives a new one in its place. This is all right; but what is really wanted is an insurance company to insure amateurs against headers and consequence.

It is said that some of the engraved stones in the British museum show that the fashionable female attire in the days of the flood was similar to that worn now, something on the bathing suit order, as it were.

There is a good deal of talk of California's good yield, but it can't hold a candle to her fruit crop, which is worth \$50,000,000, while her gold pans out only \$15,000,000.

Senator Ingalls still declares that this Government owes the soldiers in back pensions \$1,000,000,000, every dollar of which ought to be paid. Ingalls ought to pool his issues with the third party fellows, and get in that 12th plank.

## Organ of State Alliance.

Marion Butler's Paper.

The Progressive Farmer has done much valuable service for the cause of reform and we regret that it has seen fit to resign as the Organ of the State Alliance. In an editorial headed "Freedom" it says:

"We were willing for the Alliance people of North Carolina to dictate the policy of the paper while it was their Organ, but no man, no dozen men can do it."

We think the above was uncalled for. "No one man, no dozen men," have attempted to do any dictating. Any paper that is the Organ of the State Alliance must be under the direction of the State administration representing the Alliance, or else it would not in fact be the Organ. This is what the administration of the State Alliance insisted on and it would have been untrue to the organization if it had done less. In fact the Organ of the Alliance should be the property of the Order, and its policy must be directed by the State officials.

## Didn't Sell.

Charlotte Observer.

That is a very pretty story from Minneapolis about an unsuccessful attempt to buy for \$1,000 the vote of "W C Henderson, a delegate from North Carolina." The person referred to is W E Henderson, the colored deputy collector of internal revenue for the division which includes Charlotte, and the only thing the matter with the story is that he is not a delegate at all, but an alternate from the seventh district, and therefore has no vote, either to sell or to give away. This is not an intimation that he would sell it if he had a vote for he is a colored man of unusually excellent character.

The gross amount of receipts of the Yadkin Railroad for seven months from June 1st, 1891, to Dec. 31st, 1891, at Salisbury, Granite Quarry, Rockwell, Ritchie, New London, Albemarle, Porter and Norwood was \$8412.94, of this amount \$3930.96 were received at Albemarle.

## Dr. Pritchard Resigns His Charge.

Raleigh, June 8.—Rev. Dr. T H Pritchard, pastor of the First Baptist church of Wilmington and one of the most eminent divines in the State, has tendered his resignation as pastor of that church. His health has for some time been declining.

A protection organ remarks that although "England has 'no robber tariff,' her 18,000 landlords take rent from 38,000,000 tenants." If she had a "robber tariff" in addition to her 18,000, landlords, here 38,000,000 of people would be in a terrible plight.

## Read This.

The Concord Perpetual Building & Loan Association will commence its 8th series of stock June 4th 1892. Books are now open for subscription with the Secretary and Treasurer at Cannons & Fetzer's store. Persons wanting to help a home institution that is building up the town, or wishing a safe investment that is paying good interest, or a good savings bank for small earnings, will subscribe to this, one of the best institutions of our town. Borrowers getting money through this association pay a less rate of interest than they can obtain money from any other source for. We make the following estimate (based on our experience of four years): A loan of \$1000, at time of subscription, will cost, to repay, about \$1,250, making the interest for the use of \$1000 for about six years \$250, or about 4 per cent. We are now lending upwards of \$1300 per month and hope to increase the number of shares so that we can do still better. The president or secretary will explain its workings at any time to any one desiring information.

J. P. ALLISON, Pres't.  
H I WOODROUSE, Sec. and Treas.

Can't be found—the equal of Dr. Pierce's Golden Medical Discovery. If other medicines of its class were like it, they'd be guaranteed. This is. If it doesn't benefit or cure, in every case for which it's recommended, you get your money back. It isn't a "cure-all" but it does cure all diseases arising from a torpid or deranged liver, or from impure blood. For all Scrofulous, Skin and Scalp Diseases, it's a positive remedy. Even Consumption, or Lung-scrofula, is cured by it, if taken in time and given a fair trial. That's all that's asked for it—a fair trial. Then, if it doesn't help you, there's no pay.

We claim it to be an unequalled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing Bilious, Typhoid and Malarial fevers, if taken in time. The time to take it is when you first feel the signs of weariness and weakness. By druggists.
