Some English newspaper women who wanted to find out whether the people who sing in London streets makes a good living or not, put on a disguise and taking a guitar, went out to try it for themselves. After singing and playing for an hour and a half they had collected \$1.84. And they were only amateurs at that, and with no previous experience in pleasing the people.

#### They Hated to Lose Him, Too.

Rev. J H Page, who for two years past has been pastor of Statesville station, is transferred to Morganton station. The Landmark makes this announcement with genuine regret. We had hoped that Mr. Page would be continued here for the full four years' term. He is not only a preacher of power but is a most excellent gentleman in every respect—a genial, kindly, companionable man—who is held in esteem by all classes of the community. Mr. Page and his family will be greatly missed in the church and the community, but such are the fortunes of war and of the Methodist ministry. —Statesville Landmark.

#### A BIG STRIKE OF THE OPERATORS.

Telegraphers Stop Work on the Order of Grand Chief Ramsey.

Chicago, Ill., Dec. 8.—Five hundred and seventy-five telegraph operators out of a total number of 635, employed on the Chicago, Rock Island and Pacific Railroad stopped work promptly at 10 o'clock this morning in obedience to the order of Grand Chief Ramsey, of the Order of Railway Telegraphers. So say the representatives of the telegraphers at headquarters at the Palmer House. General Manager St. John, of the Rock Island road, however, ridicules the statement and says he notices no difference whatever in the operation of the Rock Island system and belittles the value of the operators' services by claiming that the company can easily get along with one-third of the force that was on duty yesterday.

Topeka, Kan., Dec. 8.—The telegraph operators and train dispatchers on the Kansas and Nebraska division of the Rock Island went out at 10 o'clock this morning in compliance with the orders sent out last night by Chief Ramsey. One of the strikers said: "137 operators out of 200 are out and will stay out until ordered back."

Omaha, Neb., Dec. 8.—Confidential division headquarters on the Rock Island road and the train dispatchers at this point controll all east and west-bound business. The dispatcher's office is not effected by the strike, because but few operators in it belong to the Order of Railway Telegraphers. The yard office, however, is closed and all orders to the men are being handled through the dispatcher's office. All yard operators are Order of Railway Telegraph men.

General Superintendent Dunlap, of the Rock Island, said: "I don't know how many operators are out. We were expecting the strike and were prepared for it by having men ready to take the places of all the strikers. The men here have no grievances of their own."

This last statement is denied by a striker, who said: "We want better wages. Santa Fe and Union Pacific men get \$80 for the same work we do for \$50."

Denver, Col., Dec. 8.—The Rock Island telegraphers went out along the line today. Immediately Superintendent Swift instructed all line-men to cut out all instruments where the operators had struck. He also sent a message instructing all operators to be ready to leave their positions as soon as a traveling auditor reached their station. It was said at the Rock Island office here that a special train had left Chicago with an auditor and a new operator on board for every station where the men have gone out.

Kansas City, Mo., Dec. 8.—The Rock Island in all the territory adjacent to Kansas City, is completely tied up. Every operator in Kansas City, St. Joseph, Topeka, Wichita, and all the more important points so far as can be heard from, is out. No freight trains were moved out of Kansas City today, and the operators say none will be, for the crews cannot be found to move them who will take orders from "scab" operators.

Among the wealthy classes of Japan it is considered undignified to ride a horse faster than a walk.

Congress is again in session, having assembled at noon, last Monday. Bills for the admission as States of New Mexico and Arizona are pending. We hope they will be passed at once.

#### An Unusual Circumstance.

Washington, D. C., Dec. 7.—The rather unusual circumstance of hearing a Jewish Rabbi offer up prayer in the Senate chamber of the United States was witnessed today. Dr. Joseph Silverman, of the Temple Emanuel of New York, was introduced to the Vice-President by Chaplain Butler and invoked divine benediction—in the English tongue, however, not in Hebrew. Another Rabbi performed a similar office in the House of Representatives.

#### The Crisis of the English Cotton Trade Still On.

London, Dec. 8.—Secretary Mawdsley, of the Lancashire operative spinners, said to-day that in his opinion, the crisis in the cotton trade would not be reached before the end of January. The accumulated stocks would be exhausted, orders for the spring trade would raise prices and the master spinners would find it necessary to reconsider their present decision.

#### MALARIA

WINTERSMITH'S Tonic Syrup or Improved CHILL CURE.

The most successful remedy for Fever and Ague ever known. Prevents Malaria in its various forms. Contains no Quinine, Arsenic, nor any deleterious ingredients whatever. Reasons for its superiority over Wintersmith's Tonic over Quinine and other Remedies. The remedies usually given only prevent the paroxysm or break the chill, without reference to the condition the system may be left in after the chills are removed; whereas the more breaking of the chills is but a small part of what is required to effect a radical cure. A proper use of Wintersmith's Tonic never fails to remove the cause and cure the most obstinate case of fever and ague. Two Sizes—50c. & \$1. ARTHUR WINTER & CO., Agents, Louisville, Ky.
