Rev. J R Moose, brother of Hotelist Moose, of this place, has been assigned to Burkhead Methodist church in Winston, and the Sentinel speaks of his first sermon thusly: "The sermon was an able one and well delivered. More Porkers.

W A Troutman is the hog killer of Concord. Yesterday evening he butchered two 14 months old hogs for W P Shealy, which weighed respectively 351 and 381 pounds. He also killed two 11 months old hogs for Will Fisher, which netted 316 and 364 pounds.

Mr. J C Fink, one of Concord's best book keepers, has taken a position with Yorke and Wadsworth. Three months ago Mr. Fink withdrew from the firm of Dove, Post & Fink, and took a position with D P Dayvault for one year. Monday evening, Mr. Dayvault, on being urgently urged, relieved Mr. Fink of his year's contract and he at once entered upon his duties as book-keeper for Yorke & Wadsworth. The firm is to be congratulated on having so able and efficient a clerk.

Rev. Egbert Smith, who is the State missionary of the Presbyterian Synod of N. C., is possibly the most unassuming man to be so able and successful, even at a young age. Dr. Payne's expression in our hearing leads us to believe that Mr. Smith is not far behind the very best worker in the Synod. But while we recall the fact that Mr. Smith raised \$1,000 here for mission work in other parts of the State, it must not be forgotten that Mr. Smith had a powerfully good congregation here to work on.

What a Cow Can Do.

The Standard wants to tell about a common blooded cow that took the first premium at our last fair as such. This cow has done her duty, and there is nothing in her record to make her feel ashamed.

From November 1, 1891, to November 1, 1892, this cow produced the milk that furnished a family of four and produced all the butter that was needed. But here it is: The surplus was sold and amounted in pounds to 303, or in dollars (it being engaged at a stated price) to \$60.60.

During the year the saleable food she ate would not have amounted to over ten dollars—of course the clover and grass during their seasons are not taken into consideration. And we do not stop to assert that the fertilizer enters into the column of profits.

This common blooded cow belongs to Mr. W D Ritchie, of St. John's, and it is needless to remark that he was once a pupil of this scribe—but we had nothing to do with his training looking to the care of a cow.

A Prominent Visitor.

A Walter Starr, D. D. S., of Philadelphia, is the guest of Dr. Herring. Dr. Starr is comparatively a young man, but he is one of the most prominent dentists in the country, and has the reputation of being the finest crown and bridge worker in the profession. His written works are in the libraries of nearly every dentist.

Substantial Charity.

The Charlotte News has this to say about some charity work in Concord:

"Rev. N I Bakke, a Swed sent here by the Lutheran Synod of St. Louis as a missionary among the colored people occupies the position held by Rev. Coontz, who died suddenly by poison about two years ago. When he came he found only a small congregation and that very poor. He at once brought the odds and ends together, established a free day school, and by unceasing labor has a large school and his congregation is in a flourishing condition. He found his flock in a very bad condition to stand the rigors of winter, in some cases almost destitute of clothing and really suffering. He made the fact known to his Lutheran friends North and West through his church paper and they have responded liberally in the way of clothing, shoes and bedding. About \$1,000 in these articles have been given to the needy without regard to creed and many who a few days ago were in rags, are now well clothed and prepared to work during the winter. This is substantial charity and the world should know it and Mr. Bakke should have the credit."

Wilfred Clarke.

This young comedian will play, with a most select company, "Tit for Tat" in Salisbury next Wednesday night, the 14th, inst. The play is one of the most interesting and attractive now on the stage and every one, who can, should see it in our neighboring town.

Aside from the merits of the comedy, which will give you in enjoyment ten times the worth of what it will cost you to see it, don't miss this opportunity of seeing and hearing Wilfred Clark. He is closely related to the great Booth, resembles him very much in his facial appearance and is, without exception, the greatest young comedian of this age. In the language of the Atlanta Journal, he swings from smiles to tears with all the ease of an histrionic pendulum. He will make you laugh and cry so that you will love the great art he represents and cause you to regret that the play is ended. The best critics and judges, on and off the stage, say that Wilfred Clarke will take the place, better than all others, of the great Joe Jefferson.

Go to Salisbury Wednesday morning and hear him that night and you will never regret it.

Parties of ten can get tickets from Concord to Salisbury and return for 90 cents.

MALARIA

WINTERSMITH'S Tonic Syrup or Improved CHILL CURE.

The most successful remedy for Fever and Ague ever known. Prevents Malaria in its various forms. Contains no Quinine, Arsenic nor any deleterious ingredients whatever. Reasons:—It is purely of Wintersmith's Tonic over Quinine and other remedies.

The remedies usually given only prevent the paroxysm or break the chill, while it remains in the system the system may be left in a state of "dis-ease" and when the mere breaking of the chill is not a small part of what is required to effect a radical cure. A proper use of Wintersmith's Tonic never fails to remove the cause and cure the most obstinate case of Fever and Ague.
