THE FRIEND OF THE MASSES.

When you go along through this campaign you owe to yourself and to others to remember some facts.

We submit that no honest man, who loves his neighbor and his God, will deny these "Bears-in-mind."

Bear in mind that while Democracy has not been able to keep all its promises in 1892, it has, in spite of Republican opposition and their Democratic (?) protection friends, done great work.

Bear in mind that it wiped out the infamous Federal election law that was a menace to liberty and fair elections.

Bear in mind that it has lifted from the country the most oppressive tax law in the history of America—the McKinley robbery tariff—a law that robbed and oppressed the

masses for the sole purpose of benefiting a few hundred thousand rich people.

Bear in mind that it has greatly reduced the tax of a large number of household necessities, keeping hundreds of millions in the pockets of the masses, who in no way were benefited by the Tariff.

Bear in mind that the Democratic administration has reduced expenditures as compared with Harrison's administration, \$30,000,000.

Bear in mind that the Democrats have passed a law to tax the rich man's riches—his income. It is righteous, just and necessary. It is upon what a man has.

Bear in mind that the hundreds of millions of dollars of United States bonds, heretofore untaxed have been, by Democrats, made taxable. In this, Vanderbilt's \$53,000,000 of bonds are taxed.

Bear in mind that the assertion that Democracy is under the thumb of Wall street is an infamous lie and those who circulate it are cognizant of the lie they are fathering.

Bear in mind that by the income tax, passed by the Democrats, 30 per cent. of this tax comes from Wall street.

Bear in mind that the managers of the Populists have asked their followers, sincere and wild ones alike, to stand on a platform that condemns "especially" this tariff law that has effected all these changes in the interest of the masses.

IT IS REFORM CERTAIN.

"Resolved that all revenues of the government ought to be raised on real estate."

On July 9, 1894, Senator Pepper, of Kansas, and the leading light of Populism save Marion Butler, of North Carolina, introduced this in the Senate of the United States.

This is only one of the many things that have come to light in Congress that show any plain mind that the tendency of the leaders of the Populists is towards ruin, terrible ruin.

The greater part of the Populists in North Carolina are farmers, earnest, sincere men, who have been deceived and lead away from the truth into wild vagaries, by a systematic, sly scheming by leaders.

That the above resolution emanated from Pepper, the acknowledged leader of the Populists, is beyond doubt as the Congressional Record shows that.

Do the farmers of North Carolina want all the taxes put on land? They own the land.

Would any such procedure be just, honest? Would it be right to tax the farmer and let go untaxed the bondholders and the great corporations? And yet this is what the Populist leaders propose to do.

We are mistaken in the manhood of North Carolina if such measures receive much support.

REPUBLICANS MONEY IN NORTH CAROLINA

Somebody has been imposing on the genial and bright Charlotte News. The credulous and confounding News believes the statement published in that paper Monday and copied in these columns yesterday, that the Republicans will not send any money to North Carolina. It gets its information direct from the Republican committee room." If we had no evidence that the Republicans were sending money into North Carolina than this statement,

we would know that it was coming in. Whatever information about campaign funds comes "direct from the Republican committee room" ought to be taken with many grains of allowance.

The Republicans pretend to be doing nothing in North Carolina, it is in order to throw the Democrats off their guard.

The News ought to be too wise to believe what they say. We do not know how much money they are spending elsewhere, but in the Second and Fifth districts they are pouring in as much as they think necessary to carry them, and it is also believed they are assisting Linney, if not others.

The Democrats must not be caught napping.—Raleigh Observer.

LITTLE SCAPS.

If Buck Kitchen, the Populist campaigner, wants to convince any one that he is a Democrat he ought to quit going about the State with a blind bridle on—that chain to the bridle reveals him.

Judge Dick of Greensboro, will vote for Judge Shepherd for chief justice. He can't swallow Faircloth, the fusion candidate.—Websters Weekly. All this shows the tide.

In Russia people over 80 years old are prohibited by law from marrying; and they are not allowed to marry over five times. This is a pretty liberal matrimonial law.

Before winter sets in, the street working force ought to look after some back streets.

A colored man called on a kind-hearted Boston shoe merchant and asked for a recommendation on which he might secure a situation. The merchant wrote one so complimentary that the darkey, after reading it, said: "Say, Massa, can't you give me something to do yourself on that certificate?"

If there is a duty on paint it is funny how some of these actresses are allowed to land.

When tramps ask for pie it would be a good idea to offer them a cake—of soap.
