CONCORD, APRIL 9, 1895.

The greatest medal giver, known to America, died Tuesday in New York city. W Jennings Demorest, a very conspicuous Prohibitionist, and a man of much force and with the courage of his convictions, leaves behind him much that will keep his memory fresh. Medals, such as have been so often awarded in numerous contests, many in this county, have been scattered over the land by the thousands. His magazine, by the way, is no mean production.

Gov. Carr, as a private individual of the State, has begun in earnest to strike a death blow to the fraudulent Mortgage Law. His attorneys, Messrs. F H Busbee and F I Osborne, are pushing their part of the fight as rapidly as possible.

It is gratifying that President Cleveland sees no necessity of an extra session of Congress. He shares the universal tried feeling in the midst of this kind of a calamity.

The Charlotte News is a coming right along with all sails set. The telegraphic service is good and the whole menu, daily, meets the demands of nearly every appetite. Charlotte is peculiarly fortunate in the character of its newspapers. A tip-top morning and evening paper—well, that's the way to put it.

Rev. Tom Dixon, who is a genius, brilliant and intensely smart, has cut himself aloof and now branches out independent of any trunk or body. Tom has got into the prints so often and in such a way that his name is familiar the country over and he shares, too, the opinion that he is smart. His cutting himself off and becoming independent, reminds us of the wheat cradle fixer, who, in search of a limb with the regulation graceful bend, climbed, up twenty feet for it. In the depth of study he sawed the limb between him and the tree—he got a fall that forever afterwards left his body bent like a grain cradle finger. In sawing off his former connection, let us hope Rev. Dixon's back is safe.

The London Morning Post will today print a dispatch from Friedricharube saying that Prince Bismarck's health is less satisfactory than is to be desired. This is the result of the recent fetes and receptions which over-taxed the old chancellor's strength.

The Robbins mine, at McDonald, near Pittsburg, Pa., which resumed Tuesday, about fifteen men, at the 60 cent rate, was idle yesterday. The strikers were successful in getting the new men to quit. There is no other change in the mining situation.

One hundred expert glass workers, employed at Atterbury's factory, Pittsburg, Pa., struck yesterday morning on account of the polishing machines used by the firm. The men claim that the work done by the machines is inferior and that the ware damaged is charged up against their salaries.

Nervous Prostration

Complete Recovery by the Use of

Ayer's Sarsaparilla

"Some years ago, as a result of too close attention to business, my health failed. I became weak, nervous, was unable to look after my interests, and manifested all the symptoms of a decline. I took three bottles of Ayer's Sarsaparilla, began to improve at once,

and gradually increased my weight from one hundred and twenty-five to two hundred pounds. Since then, I and my family have used this medicine when needed, and we are all in the best of health, a fact which we attribute to Ayer's Sarsaparilla. I believe my children would have been fatherless to-day had it not been for Ayer's Sarsaparilla, of which preparation I cannot say too much."—H. O. HINSON, Postmaster and Planter, Kinard's, S. C.
