**TELL THE JURY WHICH.**

As Joseph P Caldwell would say—Josephus Daniels, stand up! You speak of the "crime of 1873" and the re-lease of the N. C. Railroad as the "crime of the century," now tell the court and the jury which is the greater crime.

**THE COTTON CROP.**

The reports have it that the recent heavy and general rains have done much damage to the cotton crops in the cotton states.

About this time every year there is always wild estimates as to the crop. It is done for a purpose. More it is, the lower the price. And the boasts that go up here and there, has a damaging effect on the price. It is less sin to understate than to overstate the crop of cotton.

The crop is now estimated at 7,500,000—last year it was 9,500,000. A shortage of 2,000,000 ought to make a big difference in the price as compared to last year.

Did you ever hear so much talk of gold and silver? Did you ever see so little of either?

Captain J L McCormack, of Knoxville, Io., has a "madstone" as large as a man's fist. It was found in the bladder of a hog.

The Salisbury Herald is now taking the press dispatches. THE STANDARD congratulates its neighbor on the north upon this evidence of enterprise and progressiveness.

A child born in the northern suburbs of Omaha last week has finger nails an inch long and a thick growth of hair all over his body. Must be akin to Peffer—it's got his marks anyway.

B H Freeman, of Toombsboro, Ga., once kept a moccasin snake, tightly sealed up in a bottle, for two years without food or water, "yet it lived and grew fat." Georgia can accomplish anything.

Judge Norwood's solution of the conflicting terms of court for Randolph and Rowan in the same district relieves the India Rubber Supreme court from stretching itself out of shape.

To keep cool and to smoke on Sunday, you must be up and doing on Saturday. The Sabbath, according to the ordinance of 1886, which is old enough to stand alone, must be observed, says the Town Fathers through the police.

According to some statisticians, who, however, do not inform us

when the census was taken, the present population of hell is 159,000,000,000. It wouldn't do for a financial question to be sprung there.

Secretary Carnisle declines to speak for Mr. Cleveland on the third term question, and is evidently of the opinion that Mr. Cleveland is sufficiently able-bodied and sufficiently gifted with speech to do his own talking on that subject when he feels like it.

At Crawfordsville, Ind., in the summer of 1890, there was a shower of fish and angle-worms. The fish were without eyes and all about two inches long. It would have been a blessing had it been a shower of fertilizer.

At San Francisco a young woman has been appointed deputy sheriff. Her especial duty is to escort women who have been adjudged insane to their asylum. By her combined firmness and kindness she is very successful in dealing with them. This is not the "New Woman"; besides not being built that way, she has firmness and kindness.

Some people are wondering how Corbett could marry again when the recent divorce decree obtained by his first wife restrained him. The divorce was obtained in New York. Corbett and his new wife married in New Jersey, claiming to be residents of that State. The marriage holds good in any State except New York. If the Corbetts should ever settle down in that State Mrs. Corbett would not be a wife, and the children of the the couple would not be legitimate. But they are husband and wife everywhere else. In passing, it might be well to say these people have had their marriage more generally noted than had they been decent people. The brute is on top.

A Mr. Ufford, a much travelled man and a resident of Philadelphia, Pa., said from what he had heard and read, he expected to find North Carolinians promoters and defenders of drinking slums without any temperance proclivities. He freely admits that this country and people form a paradise to his. Yet Over Sea and Land is published there. It is the unprotected published lies against the South that put us in a false light, yet there are some good people among us who think we ought to take all these slanders without protest just for the sake of harmony and new comers. Thank the Lord, such are few. Mr. Ufford would find a warm welcome for him any time he comes. It is honest, truthful, decent men we want to make their homes among us, either for a time or permanently.

**TURNING GRAY AND THREATENED WITH BALDNESS**  
The Danger is Averted by Using  
**AYER'S HAIR VIGOR**

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.
