ROCKY RIVER NEXT YEAR.

The Sunday School Convention at Bethpage—Encouraging Reports.

Thursday was a day of pleasure as well as profitable work for the Sunday school convention which met at Bethpage.

The reports from all the Sunday schools of the county show that a great work is being done and that prospects for greater work is encouraging.

Addresses were made by Mr. Walter E Furr, Dr. J S Lafferty, Mr. D B Coltrane, Rev. B F Davis and Rev. Lancaster, of Rocky River.

One of the main features of the convention was the singing by the Bethpage and Center Grove choirs.

It was decided that the next annual meet of the convention should be held at Rocky River church.

All the old officers and committeemen were re-elected.

No Worse Than Her Daughter.

"Daddy" Watt Barringer, the tall Populist from No. 2 township, was in the city Thursday and tells a tale of a visit of some North Carolinian to a small town in South Carolina, which is something like this:

"He went to the only hotel in the small place for his dinner, and when seated at the table, a big, burly negro man came in and sat opposite to him. This nettled the North Carolinian, but he held his peace until tea meal was finished, after which he asked the landlady if that was customary at that hotel."

Her reply was: "Why, that was my husband."

At this the North Carolinian seemed horrified, and the woman, after her sympathetic feelings were wrought up by the expression of the man's face, said in a sympathetic way: "That's nothing compared to what my daughter Jane has gone and done. She married one of them dratted Tillmanites."

Mr Barringer did not state whether the man yet lives or not, but we will venture to say that he will beware of his messmates, Tillmanites and fusionists for all time to come.

Accidents at the Cabarrus Mill on Thursday.

The belting got tangled on the pulley in the engine room at the Cabarrus mill Thursday pulled a coupling out and broke the shafting in the main weave room, causing a suspension of one-half day on Thursday.

While transferring coal from the cars on the railroad track over the tram way, the cart jumped the track, dumping the cart and coal down the high embankment. No one was hurt, however.

GOV. CARR SIGNS THE CALL.

Other Signers of Prominence—Mr. Smith Says the Silver Convention is a Certainty.

RALEIGH, N. C., Aug. 22.—Ed. Chambers Smith, ex-Democratic State chairman, has sent to each county in the State a call for an early convention of all persons who believe in the re-monetization of silver. Mr. Smith says a convention will assuredly be held here late in September or early in October. Governor Carr signed the call today. Among other signers are S A Ashe, B C Beckwith, James C MacRae, F S Spruill and W C Stronach. Mr. Smith says only one man who was asked to sign refused, and that he is a national bank director.

Supt. Ryder of the Southern Here.

Supt. W B Ryder of the Southern Railroad was in the city this morning on business connected with the building of the switch to the Fair Grounds. Mr. Ryder met with a number of parties and talked over the matter and expressed himself as much pleased with the progressiveness of our people and the growth of the town, and will again return to make further examination of the merits of the enterprise. More could not be done today on account of the absence of one of the most interested in this business.

Supt. Ryder is an active, influential railroad man of indomitable energy.

Concord was glad to have this thorough business man, who is in such close touch with the successful and prosperous career of the great Southern, to spend sometime in the city; and that he is to return to make a complete look-over of the grounds where the switch is proposed to be run, is quite an encouragement to those directly interested in particular and to us all in general.

A Narrow Escape.

As the 11:15 train was pulling up at the depot today (Friday) Mr. J K Kizer was coming to town, and was in the act of going across the track, when he happened to notice that the train was upon his team. He succeeded in backing his mules just in time to save their lives. The train was running very slow at the time or a horrible scene would have been witnessed by those around the ticket office.

Since the Cabarrus mill has been running on the hill, about fifty yards from the station, one can hardly tell when a train is coming, owing to the fuss of the machinery.

SHOT BY A TRAIN ROBBER.

A Grand Rapids Detective Wounded. Perhaps Fatally. By One of the Chicago & West Michigan Road Agents.

GRAND RAPIDS, Mich., Aug. 22.—Detective Powers was perhaps fatally shot in the head while arresting two of the train robbers who held up the Chicago and West Michigan passenger train Tuesday night near New Richmond, in a smokor of the north-bound Grand Rapids and Indiana train to-night.

Word was sent to police headquarters tonight that two strange men got aboard a Lake Shore train at Dorre station this morning and came to this city. They were spotted on the out-going train this evening, for all trains had been under surveillance for the suspects. As Detective Power was going through the train, he saw two men in the smoker who talked with the description given. He grabbed one and at the same time blew his whistle for aid, as other officers were aboard going through the other cars. The moment he blew his whistle one of the men drew a revolver and shot him through the head and he fell to the car floor. As the other officers rushed in, in response to his whistle, the two men fled and jumped from the train, escaping in the darkness. The whole detective force was at once called out and every available policeman was detailed to search the country for the desperadoes. Detective Powers was removed to the hospital. The physicians cannot state whether he will live or not.

Thomasville Challenged.

Salisbury has been heard from and it is understood that they can not accept the challenge of the Stars for the third game, which would decide the best two in three. The Stars should be content to quit even. But since there is to be no game between Salisbury and the Stars, Mr. Frank O Rogers tells a reporter that Thomasville has been challenged to visit us for three days next week. Our boys will amuse them, as they did High Point 1894, if they come.

A Doctor Wanted.

Governor Carr makes requisition on the Governor of Tennessee for Dr. W L Hill, who is wanted in Stokes county. The papers filed with Governor state that Hill seduced his cousin under promise of marriage and afterwards attempted to produce an abortion and that after he thought he had secured the destruction of letters which passed between them, he cruelly told her he would never marry her, but would marry a lady. It is one of the worst cases ever reported to the executive. Hill fled the country and two attempts were made by the unfortunate girl's friends and relatives to capture him and force him to marry her. Then he fled the State and went to Tennessee.
