A correspondent from Dowd, writing to the Stanly Enterprise says: Some of our neighbors who voted the Populist ticket in the last election are dissatisfied over the action of the Populist county convention which was held in Albemarle several days ago. They say some of the nominees are just like a spider in a dirt dober nest partly paralyzed.

Appearances are what attract the opposite sex. Sometimes this seems a pity. It seems as if it would be juster if a fine mind was the attraction instead of a fine face and figure. But you can't change human nature. When you come to understand it there is a sort of justice about it too; because although we can't all be handsome, almost every one of us can add at least 50 per cent to her attractiveness by a little attention to the laws of beauty. When the eyes are dull, the lips pallid, the skin sallow, blotchy or pimply, the figure thin and wasted or overstout and ungraceful, the trouble is something more than mere outward appearances; the inner condition is wrong; the blood is poor; it lacks the pure nourishing qualities which are needed to vitalize and invigorate the body. In this case physical activity is largely a question of pure, rich, red blood. You can't have sparkling eyes, red ripe lips, a clear rosy complexion and a graceful symmetrical figure while the blood remains impure and impoverished. What is needed is Dr. Pierce's Golden Medical Discovery to cleanse foul humors out of the blood, and help the assimilative organism to enrich the circulation with an abundance of healthy red corpuscles, creating fresh color and firm, wholesome flesh. All this is attractiveness, and something more--health.

Every woman will be healthier and happier for following the friendly, practical counsel contained in Dr. Pierce's great universal doctor book: "The People's Common Sense Medical Adviser." It is the most comprehensive medical work in one volume in the English language. It contains 1008 pages, fully illustrated. 650,000 copies have been sold at \$1.50 in printing half a million of its are now used in strong manilla paper covers. To get one you have only to send a one-cent stamp (to pay cost of mailing only) to World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

Through the arrangement and rearrangement of our hieroglyphic reportorial pencil pushing Saturday the types made us say—"after much discussion W H Bost was nominated on the fourth ballot." The words "much discussion" were not intended, as the facts would not sustain. At least there was the very least of public discussion during the entire convention.
