When love knocks at a woman's heart he usually comes in disguise. Doesn't want it known what he's up to. If she knew all about the little rascal, would she

let him in? That's a question Women are apt to look upon love and marriage as purely a matter of sentiment and affection. That is pretty nearly right; yet there is a practical side to it too; and the best way to preserve the ideal aspect of marriage and maternity is not to forget the practical part of it. A woman cannot be a thoroughly happy wife and mother unless the distinctive physical organism of her sex is in a healthy and vigorous condi-tion. The best friend that woman ever had is the "Favorite Prescription," of Dr. R. V Pierce, Chief Consulting Phy-Lsician of the Invalids' Hotel and Surgical Institute, Buffalo,

restoring health and strength to the internal organism, which cannot be reached by "local applications;" thus the cure is radical, complete and constitutional.

Dr. Pierce's eminent reputation as a physician of wide learning; and his special knowledge of the delicate and intricate organism of women, accounts for the unparalleled confidence, which women place in his "Favorite Prescription," over every Dr. W H Wakefield, of Charlotte, other remedy. Its use biviates the necessill be in Concord at the St. Cloud sity of dreaded "examinations" and the

sity of dreaded "examinations" and the stereotyped "local treatments."

Dr. R. V. Pierce, Dear Sir:—I suffered fourteen years with female weakness, nervousness, and general debility, trying everything I could find to help me—all to no avail. I then heard of Dr. Pierce's medicines and although I was thoroughly discouraged, I thought i would try once more to find relief. I took your "Golden Medical Discovery" and "Favorite Prescription," and too great praise cannot be given for the rapid relief they gave me. I am now free from the former troubles.

Very s'ncerely yours,

THESE FIVE THINGS:
