It looks very much like the New York divines have quit preaching religion altogether, and have gone into politics. Over a dozen political speeches were made from pulpits in that city last Sunday. Among the more rampant of these ministers were Rev. Courland Myer, Rev. Dr. Mac Arthur, Rev. Isaac Holderman, Rev. Dr. Eaton and Rev. Dr. Harsha. All denounced Bryan in terms more or less severe, but Rev. Myers, the same who in a previous sermon declared that the Chicago platform was made in hell, rather surpassed himself in last Sunday's effort. The mildest thing this reverend gentleman wishes for Bryan is to have him sent into exile. The soul that thirsts for the gospel of peace and love, and the eyes that seek the Light, certainly do not want to be directed these days to some of the New York pulpits.—Charlotte Observer.

Through the St. Louis Tornado.

Here is an illustration of the way the wind handled things during the big St. Louis tornado. This bicycle,

owned in St. Louis, was struck by three barrels of syrup, a tierce of lard and one barrel of vinegar. Absolutely the only uninjured parts are the saddle and the Morgan & Wright quick repair tires, which were full of air when the machine was found. Even if these tires had been punctured, unless severely torn, any one of the holes could have been repaired by the quick-repair device in them, without trouble. Riders of these tires, when they have a puncture, need only be careful to pump as much air as possible into the tire before inserting the quick-repair tool. The repair can be made in two minutes, at the roadside, without taking the tire off the rim.

ABOUT DOGS.

There is a measure of sympathy that goes out to the owners of petted dogs when they fall victims to a dose, but there are great provocations. Butchers report that the dogs infest their slaughter pens and attack and sometimes kill their porkers. Many complain that their eggs are sucked. Now busy hard-working people need their rest and sleep and they may feel deeply provoked at degradation from dogs. Now we would not be understood as guessing that any of the parties complaining have ever set poison for dogs. It may be some one through sheer wantonness, but who can be surprised that a man weary with the labors of the day will set some kind of guard while he sleeps.

Now there are several remedies. One is to have few or no dogs. Another is break your own dogs from sucking eggs, by any gentle means you choose, and provide a way to keep them at home when you have not them with you, especially at night.

A New Machine.

We wish to call the public's attention to the fact that we have placed a cockle machine in our mill for the purpose of cleaning seed wheat. Call and give us a trial.

The Chinese Work Backward.

The Chinese do everything backward. Their compass points to the south instead of the north. The men wear skirts and the women trousers; while the men wear their hair long the women coil theirs in a knot. The dressmakers are men; the women carry burdens. The spoken language is not written and the written language is not spoken. Books are read backward, and any notes are inserted at the top. White is used for mourning, and the bridesmaids wear black—instead of being maidens these functionaries are old women. The Chinese surname comes first, and they shake their own hands instead of the hand of the one whom they would greet. Vessels are launched sideways and horses are mounted from the off side. They commence their dinner with the desert and end up with soup and fish. In shaving the barber operates on the head, cutting the hair upward, then downward, and then polishes it off with a small knife, which is passed over the eyebrows and into the nose to remove any superfluous hairs.—St. Louis Globe Democrat.

The Morgan & Wright Guarantee

The guarantee of the "good tires" is broad enough to cover almost any kind of ailments and to satisfy the most exacting rider, but the line must be drawn somewhere, and Morgan & Wright are trying to make it known to riders everywhere that the guarantee does not cover damages resulting from the carrying of anti-leak preparations inside the tire. By having as much air as possible in the M. & W. quick-repair tire before putting the tool into the puncture, and following the few other simple instructions in the catalogue, a permanent repair can be made in two minutes, at the roadside, without removing the tire from the rim.
