## FROM A GOLD MINER.

A Campaign check to Chairman Jones for \$20,000—One for \$25,000 Before—other Owners of and Workmen in Gold Mines Contribute.

"It is not often in this campaign that we see a check for \$20,000, so you may imagine how surprised and gratified I was to find one for that amount in my mail this afternoon."

Treasurer St. John, of the National Democratic committee, looked pleased as he made this announcement yesterday afternoon. He was at the moment sending a telegram to Chairman Jones, in Chicago, informing him of the contribution to the campaign fund.

"The check," he added, "bore the signature of a man who is known all over the country as one of the largest gold miners in America. I do not feel at liberty to divulge his name, for the check was not drawn to my order, nor was the inclosed letter addressed to me. It and the envelope were addressed to Chairman Jones, in my care, and it lay among the pile of letters on my desk. I opened it by accident, presuming, of course, it was for me. I at once mailed the check and the letter to Chairman Jones, and am now telegraphing to him that they are on the way to him.

"The signer of the check, which was on a New York bank, and was drawn to the order of Chairman Jones, has mines in the far West, and doesn't produce any silver that I know of. I know his signature well, for he has made several other contributions since the opening of the campaign. None of them, however, was for such a handsome sum. "This is not the only man whose name can be found among the list of large gold mine owners that has contributed to the fund. Several of them have aided the work for the election of Mr. Bryan, and in a very substantial way, too.

"A check for \$25,000 came to me in the first week of September. That is the largest contribution I have received, and it, too, came from a well known owner of gold mines. In the accompanying letter he expressed his warm advocacy of the silver cause. Another gold miner, who said he didn't produce an ounce of silver, sent to me a check for \$10,000, to be used as we saw fit."

"What other contributions have you received recently?" Mr. St. John took up a mass of letters and said, as he ran over them:

"He is a contribution of \$571 from the miners employed in a gold mine in the far West. It is signed by every man who contributed, and in the letter they say: 'This is a gold mine, but is operated by one of the most broad-minded, liberal men in the United States—the open hearted Mr. Blank—who would encourage his own men, but who never offered to them a threat of any kind.'"

"I have also received \$19 from the Bryan Silver Club, the members of which are men employed in a gold mine in Arizona; and here is a letter from the clerical force engaged in one of the National Banks in Mississippi. It contained a check for \$200."

## Disgraceful Conduct.

The conduct of certain young men and boys at the court house last night was simply disgraceful and deserves a degree of extreme censure. It has come to a bad end when a civilized community is gathered together in a respectable assemblage and order cannot be kept. When strangers and gentlemen come among us, and especially public men, they should be shown a bit of courtesy and treated with at least a small degree of respect.

## OFFER TO EMPLOYEES.

A Mill Owner Will Raise Wages 10 Per Cent if Bryan is Elected.

WINSTON, N. C., Oct. 9.—Mr. H. Milburne, of this city, returned this afternoon from a business trip to Ohio. He gives your correspondent the following signed statement made on the train in West Virginia which explains itself:

"Seeing the generous offer of Mr. Cunningham, of Newark, O., to advance the wages of his employes 10 per cent. if Mr. Bryan is elected President, I being a mill owner at Higgisport, O., and Caledonia, Va., and employing a great number of men at both places agree to advance the wages of my men 10 per cent. if William Jennings Bryan is elected." [Signed] "J. H. MILENDER."

## Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her recovery, but two bottles of Dr. King's New Discovery saved her life. Mr. Thomas Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought a bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Fetzler's Drug store. Regular size 50c. and \$1.00.

## Very Ungallant.

It is rare that a lady in the South has to suffer such neglect as that experienced last night by Mrs. M. G. Miller, of Baltimore, sister to Dr. S. A. Grier, of Harrisburg.

She had a ticket for Harrisburg but got quite sick and thought it best to get off at Concord and go to the hotel. Being very sick she was incapable mentally or physically of taking care of herself. There were at least five men besides Mr. Dan Summey (of the house of E. M. Andrews) there, but he was unable to get any of them to join in his humane efforts to care for and relieve the unfortunate lady. Policeman Fisher happened on the scene and aided Mr. Summey to get her in the omnibus and helped her to the St. Cloud, where she now is. Such lack of sympathy for the suffering and gallantry for the tender sex is quite out of keeping with Southern ideas as well as Christianity in this our latter age.

## SILVER OR GOLD.

Better than either is a healthy liver. If the liver is O. K. the man is O. K. His blood is kept pure, his digestion perfect, and he can enjoy life and act intelligently and patiently upon the questions of the day. You all know what to take. You have known it for years. It is Simmons Liver Regulator—

For years you and your fathers have found it of sterling worth. It is and always has been put up only by J. H. Zeilin & Co. Take none but the genuine. It has the Red Z on the front of the wrapper, and nothing else is the same, and nothing so good.

## Miss Charlotte Cook Dead.

The death angel has again come among us and borne another soul to the realm beyond. At 2 o'clock this (Saturday) morning Charlotte, the daughter of Mr. and Mrs. J. Wallace Cook, died at their home in the Northern end of the city. Miss Cook had been in declining health for a long time and the dread disease sapped her young life from her. Miss Cook's numerous friends will learn with sorrow of her demise. The bereaved family have the tenderest sympathy of a large circle of friends in their sad hour of affliction. The funeral services will be conducted from the residence tomorrow afternoon at 2 o'clock by Rev. W. C. Alexander, of the First Presbyterian church.

Mr. Johnson will speak at Goldsboro Oct. 19, morning; Raleigh, Oct. 19, night; Greensboro, Oct. 20, morning; Salisbury, Oct. 20, afternoon; Hickory, Oct. 21, morning; Asheville, Oct. 21, at night. 614

## Hanna Less Certain.

The New York Correspondent of the Chicago Record telegraphs that paper: For some reason or other there has been a very decided change in the tone at the Republican headquarters within the last few days, and Mr. Hanna's instructions to his associates and subordinates throughout the country are tersely expressed in the sentence, "Quit blowing and saw wood."

There is no doubt that discouraging news has been received from Ohio, Indiana and some of the other Western States, but it is impossible to ascertain the details. Whatever has happened or has been discovered must be, however, of a serious nature to have such a depressing effect. The atmosphere around the Metropolitan Life building is charged with apprehension and nobody seems able to explain the cause. Mr. Hanna goes West to remain until the election, and there is a rumor that he will stop in Ohio and make a personal investigation of the reports of Republican defection in that State.

## Grain of Wheat in His Eye for Four Months.

The Charlotte News says that a gentleman from the country called at Dr. Wakefield Thursday morning to have an operation performed on his eye. His eye was badly inflamed and he was almost blind.

He said that while harvesting wheat the first of last June his cradle had slipped and struck a flint rock, and he thought a piece of the flint had been knocked into his eye. It has been getting gradually worse ever since.

Dr. Wakefield examined the eye and found a grain of wheat embedded in the lid.

He took out the grain, and it had begun to sprout.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Dr. Miles' Pain Pills cure Neuralgia.

Even Blacksmiths who are supposed to represent great strength and perfect health, are likely to die of consumption. Mere muscularity isn't always health. Disease will develop rapidly once let the germs of consumption get into a man's system, and it will kill him certainly and surely if he doesn't take the proper measures to get rid of it. Exercise and work and dieting and all that sort of thing are good enough in their way, but consumption is one of the things that they won't cure. The bacillus of consumption is a living organism. It is infinitesimal, but it is alive. The only way to get rid of it is to kill it. If it isn't killed, it will develop and multiply. Germs are wonderfully prolific. In the quickest imaginable time, one becomes a thousand and a thousand a million. Dr. Pierce's Golden Medical Discovery is a germ hunter and a germ killer. Wherever a disease germs lurks in the body, the "Discovery" will find it—will render it harmless. It doesn't make any difference what you call your disease, or what kind of a germ it is. All germs circulate in the blood. The Golden Medical Discovery "purifies the blood—purges it of germs—enriches it with life-giving properties. It not only kills disease, but it builds up health. It is a tonic, a nerve or nerve-food, or invigorator and blood-purifier, all in one bottle.

If you want to know all of the facts about this wonderful remedy—if you want to know all about the human body, and human health, and sickness and how to get rid of it, send for Dr. Pierce's Common Sense Medical Adviser, a standard medical work of 1008 pages, profusely illustrated, which will be sent free on receipt of 2 one-cent stamps to cover cost of mailing only. This work is a complete family doctor book and should be read by both young and old. The profits on the sale of 680,000 copies at \$1.50 has rendered possible this free edition. Address: World's Dispensary Medical Association, Buffalo, N. Y.

## The Morgan & Wright Guarantee.

The guarantee of the "good tires" is broad enough to cover almost any kind of ailments and to satisfy the most exacting rider, but the line must be drawn somewhere, and Morgan & Wright are trying to make it known to riders everywhere that the guarantee does not cover damages resulting from the carrying of anti-leak preparations inside the tire. By having as much air as possible in the M. & W. quick-repair tire before putting the tool into the puncture, and following the few other simple instructions in the catalogue, a permanent repair can be made in two minutes, at the roadside, without removing the tire from the rim.
