Dogs Got Drunk.

A man came into our office from a neighboring town and told us of quite a funny happening while out hunting recently. He, in company with another man, got all the dogs in the neighborhood, about six in number, and started out for a week's hunt, taking a sufficient supply of food for the dogs and a big jug of good brandy for personal use. The jug was placed in a box with the dog-bread, and when the men "hooked up" to feed, they found to their displeasure that the jug had been cracked and the contents absorbed in the bread. The bread was fed to the dogs and the dogs became drunk and had a howling time. Whether the men ate any of the bread or not, the gentlemen didn't say.
