CHAIRMAN JONES' APPEAL.

He Warns the Working Men Against Voting at the Dictates of Their Employers.

CHICAGO, Oct. 19.—The following appeal and warning addressed "To the American People," was given to the Southern Associated Press to-night by Chairman Jones, in behalf of the Democratic committee:

In view of the fact that corporations, with scarcely an exception, and many of the largest employers of labor in the United States, are engaged in a concerted effort to coerce their employes into voting at the approaching election against their own convictions, I deem it my duty to call upon all those who believe in the supremacy of the law and the untrammelled freedom of the individual in the right of exercising the ballot, to use their utmost effort to prevent the success of this most flagrant act of lawlessness; for if this conspiracy succeeds, government by corporations will have succeeded government by the people. Corporations which thus appeal to force and fraud strike at the foundation of Republican government and all lovers of free institutions must arouse themselves to save the country from its great peril. Especially should the workingmen assert their manhood rights. If they vote for their convictions the Democratic ticket is certain of election and in that case the employing corporations will have no desire to embark upon a policy of punishment. In the contest that is raging the salvation of the workman lies in the assertion at the polls of his rights as a free and independent citizen. The prevention of this suffrage will work its own cure. An indignant people, jealous of their rights, will demand that the legislatures, State and national, shall proceed at once, by rigorous measures, to prevent the possibility of a repetition of such hereafter.

The committee, backed by the full power of the Democratic organization in every State, pledges itself that every scoundrel, whether public officer or private citizen, who is detected in any violation of the law, shall be vigorously prosecuted and sent to the penitentiary, if possible.

JAMES K. JONES,
Chairman Democratic National Committee.

How Is This For the Populists?

The Republicans are "laughing in their sleeves" at the hole they have pulled the Populists into in this county. The Populists have only one of their men on the fusion ticket in this county. The Republicans are Jim White for the Senate, Hileman for the House, Buchanan for Sheriff, Kestler for Treasurer, Biggers for Cotton Weigher. All of these men are Republicans—or have been. Do you want the Republicans to manage the government of Cabarrus? We appeal to the good, conservative people of the county to defeat that ticket.

Miners Strike.

SPRINGFIELD, Ill., Oct. 19.—This morning, 300 miners employed in the Barclay, Riverton, Clear Lake, Dawson and Spaulding mines struck for an increase from 32½ to 40 cents per ton gross weight. It is probable that all the miners of the Springfield district will be called out shortly. At a meeting held in Springfield the rate was fixed at 23½ cents for summer and 40 cents per ton gross weight for winter.

Mean Devilment.

Our neighbor, the Salisbury World, is playing in hard luck. It had cause to be "blue" Tuesday. Monday night some depredator forced an entrance to its home and scattered the type over the floor as if they were sowing wheat in a very large field. That is mean devilment, and if the perpetrator is caught we will venture to say that he will not feast on the same sort of pi as the World. A man can't do but one meaner thing, and that is to subscribe for a paper and not pay for it, stop it because you don't like it and then read his neighbor's.

A Million Cockroaches.

Several days ago a STANDARD reporter was called in at the Fenix roller mill, where he was shown the greatest number of any living things he ever saw. In the basement, where the roller covering shops are, a million or more cock roaches infest the room. They are on the walls, on the sills, in long troughs, under the floor—in fact they are everywhere on the ground floor. The bugs have scratched and eaten out a quantity of mortar and are about to undermine the foundation. Mr. Crowell has resorted to every conceivable means to destroy them, but the number does not diminish. It is a sight that is well worth seeing, though it does look a little buggy.

Hated to Leave His Native Home.

An old darkey, a native of Cabarrus county, was seen at the depot this morning. He was weeping, and when approached by a STANDARD reporter he was asked if he was sick. "No sah," says he, "I'se gwine ter leab yo' now, and maybe I'll neber come haer no mo'. I used to lib haer whar I was bo'ra. My name is Milas Austin and my home is now in Louisiana, whar I wint seven years ago wid Peg-Leg Williams from de eastern part o' dis State. It sho' do grieve me to go baek, but my wife an' children are dere an' I'm bound fer to go," and with a "God bless you Nof Kerle-nians" he boarded the train, crying as if his heart would break. He is sixty years old, and had not been in Concord in twenty-one years.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price 50c and \$1.00 at Fetzer's Drug Store.

Dr. White Married.

Nothing is surprising nowadays Tuesday night at the home of Mr. George Thomas, in Stanly county, just over the Cabarrus line, J. A. S. White, the Indian doctor who was tried and acquitted, accused of committing a terrible crime in that section, was married to Miss Hattie Thomas. The buoyant groom with his blushing bride passed through the city this (Tuesday) morning on their way to Salisbury, where they will reside in the future.

From Tree to Newspaper.

Harpers' Round Table gives the following remarkable instance of rapid work in changing a growing tree into a printed newspaper. It says:

Some men who worked in a wood-pulp factory at Elfvedul, got into a discussion about how fast wood could be made into pulp and then into paper. The result of the discussion was an experiment, or trial of speed, in which these men performed the feat of cutting down three trees, chopping them up, making them into pulp, then into paper, on which the evening newspapers of the place were printed; and it took them just two hours and a half from the time the first tree was hewn until the first copy of the evening paper was sold.

Killed by a Falling Roof.

UNIVERSITY OF VIRGINIA, Va., Oct. 19.—The roof of a one-story lecture room of the University of Virginia fell in this morning on five men, and George Tucker and Eugene Bunch were killed and V. W. Chambers received probably a fracture of the skull.

There seems to be more attempts at fraudulent registration this campaign than ever before. In the second division of the second ward in Raleigh even the registration book was stolen, hoping to defeat a Democratic majority. It would take close watching all along the line. The laws are strict and the penalties are severe but not too severe and they should be inflicted wherever fraud is practiced.

The Southern Industrial News says:

"The improvement in textile conditions, which was noted in our last issue, continues, and has increased somewhat since that time. There is no upward rush, but a steady brightening of conditions and prospects, and it cannot be denied that the outlook is much more encouraging than it has been at any time during the past four months.

Queen Victoria has presented to Mr. Edmund Chandler, of Fressingfield, Suffolk, a portrait of herself, with an inscription recording that he has assisted to ring the bells of the church on all her birthdays since her accession. Mr. Chandler was born in 1812, and his father and grandfather were bell-ringers before him.—Press Visitor.

Ex-Governor Campbell, of Ohio, offered to vote for his competitor, Mr. McKinley, if the latter would show a single instance where the McKinley tariff had raised the wages of an operative in the State of Ohio. He did not have to vote for him.

Napoleon Bona parte, one of the most forceful men in all history, a man continually wrapped in schemes and campaigns, in plots and counter-plots, striving intently and ambitiously for success and power—a man whose utter disregard for human life made his battles the bloodiest the world has ever seen—this man found bitterness in his triumphs because he had no heir to whom to bequeath his greatness. Josephine was divorced largely for this reason. Many women are incapable of bearing children. Many more of them are afflicted with

disorders of the organs directly feminine so that bearing children would be dangerous to them, and unfair to the children. Every child deserves the heritage of health. The children cannot receive this from a sickly mother. There is no reason why they should have such a thing as "female weakness." It is as unnecessary as it is distressing. Dr. Pierce's Favorite Prescription cures all forms of distinctly feminine sickness. It purifies, strengthens and invigorates. It is prepared for just this one purpose and no other. It's the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician, an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

Every woman ought to send 21 one-cent stamps to pay for mailing a free copy of Dr. Pierce's thousand page "Medical Adviser," World's Dispensary Medical Association, Buffalo, N. Y.

Walter L. Main's Circus.

The Morgan & Wright Guarantee.

The guarantee of the "good tires" is broad enough to cover almost any kind of ailments and to satisfy the most exacting rider, but the line must be drawn somewhere, and Morgan & Wright are trying to make it known to riders everywhere that the guarantee does not cover damages resulting from the carrying of anti-leak preparations inside the tire. By having as much air as possible in the M. & W. quick repair tire before putting the tool into the puncture, and following the few other simple instructions in the catalogue, a permanent repair can be made in two minutes, at the roadside, without removing the tire from the rim.
