Removed for "Pernicious Activity in Politics."

WASHINGTON, Nov. 30.—The President today appointed Luke W. Morris to be postmaster at Mexico, Mo., vice John W. Mason, removed. The removal of Mason is the outcome of serious charges which have been on file here since the political campaign closed. They include pernicious activity in politics, insulting the President and making attacks upon him, alleged neglect of office, and other offenses. He is a believer in silver coinage and the complaints set out that during the campaign he made himself obnoxious by breaking up gatherings of the opposite political faction.

A Hopping Industry.

The frog industry, which has for some time been hopping lively in New Jersey, is spreading into Maryland and promises to be a flourishing one. These frogs are shipped to the large cities where they are in great demand and bring good prices. They do not serve only the hound peddler as formerly but barbecue the vocalist and serve him whole.—Wilmington Star.

The San Francisco Chronicle says the air ship has come at last. The denizens of Sacramento were surprised the other morning by seeing a huge cigar-shaped concern scooting over their town. It got out of sight so quick they couldn't shoot it, and it now turns out that it was an airship that an old fellow has been working on on the sly for about seven years and which he has at last completed at a cost of about \$100,000. He was out taking an airing in it. He has, according to his lawyer, whom the Chronicle interviewed, kept his work secret until he gets his patents, applications for which have been made, all right.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price 50c and \$1.00 at Fetzer's Drug Store.

GEN. MACEO CUBA'S MOSBY

Gen. Bradley T. Johnson Talks About Cuba—He Finds Abounding Patriotism There.

BALTIMORE, Nov. 30.—In discussing the situation in Cuba, General Bradley T. Johnson, recently returned from there, says that it is impossible to get reliable or accurate information as to the Cuban army. "I investigated carefully," said he, "and was never satisfied. Consider the state of mind in Baltimore and among Southern sympathizers during the civil war, and recall the exaggerations of their enthusiasm and the dreams of their hopes. Then intensify that a thousand fold and you have a faint idea of the condition of things in Havana today. All Spaniards are for the government—all Cubans are for the rebellion."

"What sort of people are supporting the rebellion?" the general was asked.

"The bankers, the planters, the writers, the lawyers, the doctors, the professors and the people. The University of Havana is a hot bed of patriotism. The boys run off by the score to join Gomez and Maceo, and some of the professors are ministers plenipotentiary to the South American countries and to France. I think the property, the culture and the courage of the island is on the side of the rebellion."

"The insurrection is supported by wealth, directed by intelligence and conducted with genius and courage. I think the rebels out fight and outmanoeuvre the Spaniards, and that they will wear them out."

"There is no chance of the rebels being starved out of the Pinar del Rio district for the woods are full of cattle, hogs and sweet potatoes. They will always have plenty to eat. They are armed with Remingtons, Spencers, Mausers and every variety of carbine and revolver."

"Cuba's area is equal to Pennsylvania; its population is 1,102,899 white, 485,187 negroes and 43,811 Chinese. Negroes include all mixed blood; white means pure blooded. You perceive the population is about equal to that of Virginia and is similarly mixed—about two whites to one of all the other races."

"With peace and order restored there, how long would it take for two million American mechanics to take possession of the island?"

"Such an immigration of skill, energy and industry as would flow into Cuba the world has never seen. That would dispose of the Domingo-Mexican-nigger-republic spook."

"Maceo is the genius of the war. He is a quadroon. His mother was the daughter of a Spaniard of rank, as he is the son of a Spaniard of rank. He is well educated, bright, alert, dashing and daring. He will wear the Spaniards out by guerilla war—constant surprises, ambushes, attacks and retreats. Mosby, with 300 men, kept 40,000 men constantly employed for two years in the mountains of Fauquier and Loudon in Virginia, chasing him up and down hill and dale, but they never captured him, and he cost them thousands of men and millions of money."

"It is a condition and not a theory that Mr. Cleveland and the Congress are bound to meet, and a condition cannot be dodged. It grasps men and nations and makes them act on the subject."
