CONCORD, N. C., SATURDAY JULY 31, 1897

WHOLE NO. 1,791

## ALMOST A SHUT OUT.

**A Salisbury Team Bumped Against a Snag—The Game One-sided—Weddington Hurt—Salisbury Boys Did Well.**

Several hundred of our citizens attended the ball game at the Forest Mill Park Friday afternoon, between a team from Salisbury and the Concord boys. The game was altogether one-sided, but interesting throughout.

From the beginning Concord's crack battery, Weddington and Reed, began their excellent work and held the Salisbury boys in check until the beginning of the ninth inning, when Weddington had to retire from the box on account of a hurt on the wrist. His work was fine and that of Reed was equally as good. They were supported by an excellent team on the in and out field.

Salisbury's battery did some hard work, but the home team was too expert at batting. John Brown was the star player on the Salisbury team, and held the others in good spirits until the last. Robertson, the tall center fielder, made the only double play during the game.

The official score by innings is as follows:

Salisbury, 0 0 0 0 0 0 0 3—3  
Concord, 3 0 3 4 6 1 0 5—23

It is the general opinion of all, including the Salisbury team itself, that if Weddington had not been compelled to retire from the box, the result would have been an entire shut-out. Weddington and his catcher, Reed, fully sustained their reputation in Friday's game.

The baseball boys say they are anxious to play, and will make it interesting for any team that will come here, but when they do play it is only natural that they want a strong team to work against.

Mr. Y. C. Caldwell umpired the game and his decisions gave satisfaction to both sides.

The attendance was large and the interest in the game by the citizens was great encouragement to the boys.

## A Round Egg.

George Shankle, a colored man and a good farmer, of the Cold Springs neighborhood, this county, who owns his land and raised forty bushels of wheat, brought THE STANDARD a curiosity in hen fruit this morning. It is an egg, and it is about the size of the common mandrake, though it is round like some baseballs.

## Golden Watermelon.

Mr. James N. Brown, of this city, has a real curiosity in the shape of a watermelon. The melon shown THE STANDARD man is similar in developments to the ordinary melon, with the exception of the rind on the outside, which is a rich golden color. The meat is also yellow and of excellent flavor. This special variety is something new to this part of the country, the seed having been sent to Mr. Brown from a friend in California. The melon is known as the "gold-bug" variety.

No witness in any railroad case need appear in court before Thursday morning, August 5th. This is by order of court.

Minnie Catlett, a respectable young white woman near Kittrell, N. C., was assaulted and raped by a young negro Friday afternoon. The negro was pursued and caught. He was put with six other negroes and identified by the woman as being her assailant. The people of Henderson are indignant and a lynching is probable, though thus far averted.

## A HOG GONE MAD.

**Became Frantic and Had Fits—Was Bitten by a Mad-Dog Twenty Days Ago**

Mr. Titus A. Moser and other gentlemen from the Cold Springs neighborhood who were in the city, report that there was considerable excitement in that section as they came to town early this morning, over the wild and frantic escapades of a young hog or shote belonging to George Henderson, a farmer who lives near them.

The hog was bitten by a mad dog on Sunday, the 11th day of July, just 20 days ago, it being the same dog that terrorized that settlement by biting the two sons, Paul and Robert, of Mr. William Barrier. It is the only hog or animal, except dogs, that is known to have been bitten by the rabid dog.

On Friday morning the shote appeared unwell and would not eat, and this morning it began having fits and showing all symptoms of hydrophobia.

## Court Proceedings.

The following cases have been disposed of in the Superior court since yesterday:

State vs. Lizzie Gibson and Gus Gibson, incest; not guilty.

State vs. Joe Cruse, trespass; not guilty.

State vs. Henry Semone carrying concealed weapon, not guilty.

State vs. Frank Misenheimer gambling; not guilty.

## For the Ladies of Concord—

Or any who may feel interested in making the Confederate reunion on August 11th a pleasant occasion for the veterans:

You are urgently requested to meet in the court house yard on Tuesday, August 3rd, at 7 o'clock, p. m., to make arrangements for this reunion. It is hoped that this may be made a memorable occasion for the gallant soldiers who did so much for us in our hour of need, and that every woman in Concord may now do her part. So, give them a token of gratitude and appreciation which will make the day one of pleasure to the soldiers and a pride to ourselves.

The gentlemen who have charge of this reunion have requested the ladies to meet and give this assistance in this sacred cause.

## WHY RISK YOUR LIFE

**In Going to Klenkyke When Gold Is at Your Door.**

Wm. A. Smith, of Concord, N. C., has consummated a contract with Major Gibbs, of the English army, for the consolidated Bangle Gold Mine, 840 acres, formerly the Bangle Mine, Dutchman, Fisher, Barnhardt and Carriker. These mines were the best paying ones in North Carolina up to the commencement of the war, when all the machinery was confiscated. Mr. Smith purposes to sell or work these mines.

## Enochville Items.

Mr. J. F. Deal, theological student from Mt. Airy Seminary, Philadelphia, will preach tomorrow at St. Enoch's church, for Rev. Stickley.

Enochville High School has opened very favorably. There are 23 boarding students in attendance.

The work of rebuilding Trinity is progressing very nicely.

Nobody need have Neuralgia. Get Dr. Miller's Pain Pills from druggists. One cent a dose.

## Prosperity Wave.

The Knoxville Journal is greatly excited over the news that the Avery plow works of Louisville, Ky., is to resume work. "The news is glorious," it says, and indeed it is very pleasant reading. The Journal adds: "Here is a fact that outweighs all the theories of all the free trade shriekers in the whole world." Doubtless, esteemed contemporary, but in what way, and to what effect, and on what scales? We have got bountiful crops, other countries have not; hence the farmers will have some money, and consequently it will be a good time one of these days to sell plows. That is all there is to it. The tariff is no more concerned than is the Talmud. By the way, esteemed Journal, the same day that you saw 1,000 plow makers go to work unhappily witnessed over 6,000 men quit work in northern cotton towns. Now if, as you say, 1,000 men going to work in Louisville "means a beginning of prosperity that will please and bless everybody who is willing to work and accumulate something ahead," does the discharge of over seven times as many men elsewhere mean the same or a different thing, and what is it?

And also what is the meaning of the proposed strike of 12,000 cloak makers in New York who have been on starvation wages? Has the wave of prosperity caused by the Dingley tariff bill reached Louisville from Washington and missed New York in its onward sweep?—Asheville Citizen.

## Great Gold Strike in Peru.

San Francisco, July 24—News comes from Peru of a big mining strike which discounts the Klondike story. Private letters have been received here from Californians who went to the new district, and all unite in saying that gold is being found by the hundredweight in placer districts which have been worked for years by Indians in a crude way. O. D. Miranda who has made a fortune in petroleum in Peru, said today that one Californian named Hardison had struck it rich. He added:

"Hardison and twelve other Americans left here two years ago for Peru on an expedition after petroleum. On their trip down five of the party died, four at sea and one at Panama of fever. Hardison and the remaining members continued to Peru and eventually invaded the interior, where recent reports say they found gold in quantities which when mentioned few people would believe. The output of one of Hardison's claims was 279 pounds of gold, which is over \$53,000, for June, and I have knowledge of a mine which he has lately purchased for \$330,000."

This district lies partly in Peru and partly in Bolivia. It is reached by steamer to Molando, thence by rail to Lake Titicaca and by steamer over the latter, then by rail to Lapaz and by muleback or on foot to the miners. The climate is mild and healthy. Many Englishmen have fortunes in the new mines.

Two unsuccessful attempts at criminal assault were made in Hickory, on white ladies, by an unknown white man Friday. Both were probably by the same miscreant, and it may be very unhealthy for him to be caught.

## THE "CASCADE" SHIRT

MADRAS CLOTH. SOFT BOSOM.

Coollest Shirt on earth. Made for comfort in hot weather.

NEW LOT JUST RECEIVED.

NEW LOT OF

## LINEN CRASH SUITS.

Price \$2.50, \$3.00 and \$3.50.
