CONCORD, N. C., FRIDAY SEPTEMBER 19, 1897

WHOLE NO. 1,099

THE STEAM LAUDRY

Will Be Operated in Central Part of the City—Mr. Frazier to Have Charge of the Work.

The Concord Steam Laundry is a certainty, and will be in operation within the next few weeks.

Messrs Wilkinson and Robinson have rented the store room in the central part of the city, known as the old Hudgins corner. Warren Coleman, the owner of the property, will begin fixing up the house at once, preparatory for the machinery. An engine room will be built in the rear. The location is much more desirable than the one selected at Slippery Rock.

Mr. Charles B Frazier, of Charlotte, an experienced laundryman, will come to this city and manage the business.

It Will Be Built.

The Salisbury World states, from what it claims to be good authority, that the Mooresville and Mocksville road will be built and that the Southern has never abandoned or seriously hesitated in this scheme. The World says the road will probably be in operation by March 1st, '98. It will, as previously stated, relieve the crowded line from Salisbury to Greensboro, of all the through freights.

Shot Father and Son.

A most serious and probably fatal shooting affair took place Wednesday night in Sharon township, Mecklenburg county. W H McGinn shot Mr. Robert Turner and his son, Lester Turner.

The senior Turner received two pistol shots in the breast. Lester Turner fell under his shot but it is not stated just how he is wounded.

It appears that McGinn and Lester Turner had been to Charlotte and on the way home quarrelled and after separating met again between their homes, where the shooting took place.

Each claims that the other was the aggressor.

The Butter-Milk Cow Found at Last.

Mr. I D Phillips, of Snake Creek, Va., has the most valuable milch cow in the United States. In the first place the cow is a beauty, and in the second place her milk does not need churning. The butter gathers within 36 hours after the cow is milked and is as fine and rich as any butter made in the old-fashioned churn, leaving the milk perfectly sweet. The milk is put in a jar and kept in the spring house for two days and one night without receiving the slightest attention. When the butter is wanted all you have to do is to take it off and work it like any other butter, salt and it is ready for use. These are facts, Mr. Geo. A Satterfield and wife, of this city, are living witnesses to the truth of the above statement. Mr. Phillips was offered a good team of mules for his cow, but he declined the offer. He is a man in good circumstances and would rather have the cow than a dozen mules.—Mt. Airy News.

EVERITT SMITH PARDONED.

Governor Russell Will Consider Miller's Case.

We told our readers last week that L C Caldwell, Esq., had gone to Raleigh to ask for pardons for William Miller and Everitt Smith. Governor Russell took the case of Miller under advisement.

Thursday the Governor pardoned Everitt Smith, who was serving an eight months term on the chain gang for attempted larceny. Mr. Caldwell took a strong petition asking for his pardon with him to Raleigh. He returned with the pardon Thursday night. Mr. William Smith, the father of Everitt, took the pardon down to the chain gang camp near Mooresville Friday and returned home with him Friday evening. The petition was signed largely by our citizens who hope that Everitt will turn a new leaf.

In granting the pardon Governor Russell assigned the following reasons:

"This boy is the son of good people who are much broken up by his disgrace and I think he has been punished enough and of the same opinion are all the lawyers of the Statesville Bar and the merchants of the town and the county officers. It will do no good to keep him four months longer, while his release may give to him encouragement and hope for his future."—Mascot.

Cotton Gone Down.

With the continued drought and the price of cotton steadily dropping, the farmers are beginning to feel somewhat discouraged with the outlook for better times. The highest price paid for the fleecy staple today was 6½ cents. About ninety bales were sold.

Several farmers did not sell their cotton and will hold it until the prices are higher.

Rain and Cooler.

There was general rejoicing in every part of this community today shortly after noon, when the rain began to fall, after a drought of nearly four weeks. The atmosphere is cooler and indications point to a change in the condition of the weather.

The forecast today reads: Generally fair today, followed by local showers tonight; cooler tomorrow.

Two Pounds of Butter a Day.

Mr. G A Patterson, of No. 4 township, this county, who lives one mile west of Hilemac's mill, is the owner of one of the best cows in the county. She is half Jersey, and produces about five gallons of milk per day. From the five gallons each day, two pounds of pure, rich, butter is made, an average of 14 pounds per week, 728 pounds per year, which, if sold for 15 cents per pound, would \$109.52.

Typical Texas Duel.

Dallas, Texas, Sept. 16.—Dr. T B Carter, of Kaufman, and Charles P Russell, of Abbot, two of the most prominent men of that section, who had hitherto been friends and business associates, shot and killed each other at Abbot. They met yesterday afternoon to dispose of some business relative to a land transaction. The settlement resulted in a quarrel and an agreement to meet at Abbot for the final settlement. At the appointed hour both arrived at the depot and drew pistols, exchanging a number of shots. Both men died within a few minutes.

Nearly a Serious Fire.

Mr. John A Fink called at the office today (Friday) and told us of what came near being a serious fire at Mr. John Little's in No 4 township this morning before day.

Mr. Little was at the barn feeding when 12-year old Cornie McDonald ran out of the house calling to Mr. Little that his cotton was on fire. The alarm was given and with the assistance of the hired boy and several neighbors, the fire was smothered out with quilts. The cotton was in a room in the dwelling house and came near getting too great a start to be extinguished.

The loss of several hundred pounds of seed cotton was sustained. Mr. Fink did not know and we were unable to learn, how the fire originated.

"Jim Crow" Talks.

Among the living curiosities of this day and time, and the peculiarities of the feathered tribe, is a raven, one of the glossiest black crows ever seen, which is the pet of Miss Minnie Lentz, on West Depot street. It has splendid control of its tongue and can talk clear and distinctly when it is hungry or thirsty, and when it is caged up and wants out, it will say to Master Arthur, "Arthur, take me out for a breath of air." The bird was caught when only a few weeks old, and has been raised by Mr. Lentz's family. Its name is "Jim Crow," and will answer everytime he is called, day or night.

The bird has attracted considerable attention when sitting on the fence calling, "Arthur, come here." It is a great pet, and its chatter is equal to that of a parrot.
