## CONCORD'S EDUCATORS HEARD.

**Prof. Lewis at Greensboro and Mr. Holland Thompson at Raleigh.**

At the State Convention of graded school Superintendents held yesterday and today at Greensboro, Prof. E B Lewis had the subject, "Some Corners Hidden from Public Education."

Mr. Holland Thompson addressed the Association of Academies at Raleigh Tuesday on the subject, "Preparatory Latin."

### Mr. Augustus Thies to Marry.

We are informed by a friend of Mr. Gus Thies that he will be married in next January to a young lady in Nova Scotia, where he now is. Mr. Thies is a son of Capt. A Thies, who once carried on a large mining business in the southeastern part of the county at what is known as the Phoenix mine. There is something a little singular about this marriage, and that is that the birthday of both parties comes on the 13th, and that is the day on which they are to be married.

### The Southern Makes a Change.

To take effect January 1st, 1898, the offices of Mechanical Engineer, General Superintendent, Superintendent of Transportation, General Storekeeper, and Fuel Agent will be abolished on the Southern. Mr. W H Green, who in the past has been General Superintendent will then be Assistant General Manager.

### Two of the Rabbits Die.

Two of the rabbits inoculated with matter from the supposed mad dog of Greensboro have died. The one of pneumonia and the other of a kind of blood poison, says the Telegram. The other two are depended upon to indicate whether it was rabies in the dog.

### Looked Like Gizzards.

A dear little child from the country, who was brought up in the way she should go, was visiting a dear little child in town who was allowed to find amusement with a pack of cards. To interest the little guest these were brought on this occasion, and divided after a fashion, then the little entertainer placed two or three cards in the center of the table face up, and exclaimed "hearts." This was repeated a number of times: the little guest eyed her handful of the pastboard dubiously. Suddenly a look of satisfaction stole over her countenance and she too began putting her cards down in the pile shouting gleefully "gizzards," "gizzards."—The Truckers and Planters Journal.

### Mt. Pleasant News.

Christmas is over and our little town has been quite lively.

Mr. Dan Barrier and Prof. Geo. McAllister, of Mt. Pleasant, went over to Charlotte today (Wednesday) to spend a few days.

Mr. Turner Sifford, one of the employes at the Kindley Co.'s store, has gone to Salisbury to spend a few days vacation.

Some of our young people attended the oyster supper at St. John's Tuesday night.

Miss Jessie Sears, of Washington, is home on a visit.

John Barleycorn influenced some party or parties last Friday night to show their respects to the town and citizens by dynamiting. One was fired in front of Mr. Peck's house, which destroyed forty-seven window lights. Several more were fired but did no damage. A NOTHER.

### Household Gods.

The ancient Greeks believed that the Penates were the gods who attended to the welfare and prosperity of the family. They were worshipped as household gods in every home. The household god of today is Dr. King's New Discovery. For consumption, coughs, colds and for all affections of throat, chest and Lungs it is invaluable. It has been tried for a quarter of a century and is guaranteed to cure, or money returned. No household should be without this good angel. It is pleasant to take and a safe and sure remedy for old and young. Free trial bottles at Fetzler's Drug Store. Regular size 50c and \$1.

### Quarterly Conference Appointments.

Rev. Dr. Brooks, presiding elder of this district, has published his list of appointments for the holding of quarterly conference, which is as follows:

Mt. Pleasant, January 15-16.

Concord Circuit—Rocky Ridge, January 22-23.

Concord Station—Central, January 23-24.

### Will Not Go On a Strike.

The Fall River cotton manufacturers have cut the wages of their operatives about 13 per cent., claiming that they were driven to this course to maintain a margin on which it is possible to run their mills in competition with southern manufacturers. The operatives have served notice that they will accept the reduction, but will expect and demand a restoration of rates as soon as the profits of the business justify, even if they must go out on a strike to obtain it.

### He Finds Happiness in It.

Although Vanderbilt spent Christmas in Europe, Biltmore had an elaborate tree of gifts for all on the estate, beside a good round feast of dainties, first for the children and afterward for the grown-up folks. It is pleasant to note such marks of kind and considerate regard on the part of employers for the employed. Vanderbilt seems to like to use some of his great wealth in making others happy, and doubtless in this he finds true happiness himself.

An explorer in one of the prehistoric cities of Mexico has struck a strata of human bones, which seems to extend a distance of several thousand feet. In his excavations he is bringing out a great many objects of interest besides these ancient bones.

## PERSONAL POINTERS.

—Mr. D Frank Cannon is spending the afternoon in Charlotte.

—Miss Margaret Cannon, who has been visiting in Charlotte, returned home this morning.

—Rev. C B Miller went up to his mother's home at Sumner siding this morning.

—Judge Montgomery went up to Salisbury this morning on business.

—Mrs. Dr. Register came over from Charlotte this morning to visit at the home of Judge Montgomery.

—Miss Blanche McAllister, of Mt. Pleasant, passed through the city today (Wednesday) en route to Charlotte, where she will spend a day or two with her sister, Mrs. Jas. Misenheimer.

### Does Not Need Protection.

As an evidence of the invasion of foreign markets by the manufacturers of the United States, the Baldwin locomotive works of Philadelphia have received within two weeks orders for fifty-nine locomotives of various types, which will involve an expenditure of about \$600,000. These are the largest foreign orders that the Baldwin company has ever had on its books at one time. Ten passenger and 12 freight locomotives are ordered by the Russian government for the street railway of Finland; sixteen freight and eight passenger by the Central railway of Brazil; ten freight engines by the Grand Trunk railway of Canada; one fast passenger locomotive by the government railway of Norway, and one of the Penoles company of Mexico. The largest single order ever received from abroad by the Baldwin company was forty-four locomotives from the government of Japan.—Home Visitor.

### The Wonder Must Go.

The Chicago News says there is a rock in San Francisco Bay that is one of the many sights at the Golden Gate. It projects above the water, and the lashing of the waters upon it for ages has worn the softer central part through, forming a natural arch through which small boats may pass. This wonder and source of admiration is soon to be drilled and blown away to facilitate the passage of vessels and to greatly lessen the dangers of navigators.

AS USUAL,

We are ahead of the "Band Wagon," and if you wish to be in the push you had better come running. Our Christmas presents are the "talk of the town." Will say they are moving away like snow on a hot summer day. We will do our best to wait on you in great shape, but to avoid the rush come in the morning, noon and night, and like the ladies of this day, "we want you to come right away." No time to lose, for Christmas is at hand, and what you do must be done quickly.

With best wishes for a Merry Christmas we are yours to please,

BELL, HARRIS & CO.
