## IT'S AWFUL.

**Newspapers Hammering Away on Judge Dick—He May Retire Very Soon.**

Every time Judge Dick grunts straightway a telegram is fired to morning papers that he is going to resign on account of ill health. It has become a regular chestnut.

In the meantime the Judge says he is not going to resign as long as his health is as good as it is, which means that he is not a quitter, but a stickler, though should his health grow worse he will of course retire.

All the papers speak of it as "resigning." He will merely retire on full pay, which he could have done a number of years ago, had he seen proper.

He went to Baltimore the first of the week to undergo, it is said, an operation. Since this time the wires have been hot. It has actually been discovered that Judge Douglas is a candidate for the place. This is great news to be sure. Why, he has been a candidate for the past 20 years—ready at any time to take it. Ten days ago it was said that Senator Pritchard wanted it. Now it is said he don't. You can just bet your bottom dollar that he would like to have it and if there is any showing he will be found in the ring.

However, there are some interesting things going along about this whole business, some of which may come to light some of these days.

Should the old man, by any mishap, drop off, there would be a regular Kilkenny cat fight for his place before he could be placed in his coffin.

However, The Record is in a position to say that Judge Dick has given considerable thought to retiring within the past few weeks, and when he left for Baltimore it was understood that the step might be taken any day. In other words, if he is not greatly benefited by his treatment he will retire at once. While he did not use the identical words, he is known to have intimated that he did not expect to hold another court, intending, unless his health greatly improves, to get out before the spring courts.

This is as authentic as anything can be. It is a contingency likely to occur at any time and The Record would not be surprised to hear of his retire, even today, or early next week.—Daily Record.

Later dispatches now say that Judge Dick did hand in his resignation, through Senator Pritchard, to the President on Monday, the Judge himself being unable to present it in person.

## Dogs Kill Twenty Thousand.

We have over four hundred thousand sheep in North Carolina, of which over twenty thousand are killed by dogs every year. This is about 5 per cent. and counting the sheep at two dollars each the loss is forty thousand dollars per annum. Only worthless dogs are sheep killers. A strict collection of a dog tax in the country as well as in the town would go far towards wiping out the worthless dogs.—Ex.

## Peter Maher vs. Peter Jackson.

Peter Maher, who has for quite awhile been trying to gain the championship in boxing, is now booked to meet Peter Jackson, the negro pugilist, on the night of February 15, at Philadelphia. They will only box six rounds as a wind-up to an all star boxing entertainment. Peter Jackson has just returned to San Francisco from a trip through Europe and wishes to show the people that he has not lost any of his old-time speed and agility with the gloves. He will soon go to Atlantic City, where his training will begin.

As for Peter Maher, he seems to be in the best of training, and if victorious in the meet with Jackson, says he will challenge Pompadour Jim Corbett from the ring.

Messrs Ely Bros.—The Balm reached me safely and in so short a time the effect is surprising. My son says the first application gave decided relief. I have a shelf filled with "catarrh cures." Tomorrow the stove shall receive them and Ely's Cream Balm will reign supreme. Respectfully,

## A Girl's New Industry

A Cleveland (Ohio,) girl has started a new industry. She has rented a window in a small shop, displays in it a pair of neatly repaired shoes. On her sign in the window one reads that shoes will be blacked for five cents, repaired, pressed and made to look almost new for another nickel; buttons sewed on for an additional five cents; rubbers will be mended and varnished until they are like new ones for still another five cents. She mends the rubbers as she would a bicycle tire. She has all the necessary appliances for repairing and reshaping shoes, and is said to be turning "a pretty penny."—Ex.

## WARNING.

We wish to caution all users of Simmons Liver Regulator on a subject of the deepest interest and importance to their health—perhaps their lives. The sole proprietors and makers of Simmons Liver Regulator learn that customers are often deceived by buying and taking some medicine of a similar appearance or taste, believing it to be Simmons Liver Regulator. We warn you that unless the word Regulator is on the package or bottle, that it is not Simmons Liver Regulator. No one else makes, or ever has made Simmons Liver Regulator, or anything called Simmons Liver Regulator, but J. H. Zeilin & Co., and no medicine made by anyone else is the same. We alone can put it up, and we cannot be responsible, if other medicines represented as the same do not help you as you are led to expect they will. Bear this fact well in mind, if you have seen in the habit of using a medicine which you supposed to be Simmons Liver Regulator, because the name was somewhat like it, and the package did not have the word Regulator on it, you have been imposed upon and have not been taking Simmons Liver Regulator at all. The Regulator has been favorably known many years, and all who use it know how necessary it is for Fever and Ague, Bilious Fever, Constipation, Headache, Dyspepsia, and all disorders arising from a Diseased Liver.

We ask you to look for yourselves, and see that Simmons Liver Regulator, which you can readily distinguish by the Red Z wrapper, and by our name, is the only medicine called Simmons Liver Regulator.
