CONCORD, FEB 1, 1898

## THE COURIER JOURNAL'S DEMOCRACY.

The following four propositions are set down as guiding principles by the Louisville Courier-Journal and they seem to have the ring of Democracy as we learned it, viz:

"First—The Government has no right, either equitable or organic, to tax the people, except to raise money for its own support; every dollar of taxation diverted from this purpose is robbery; and it is equally important that the money legally collected shall be honestly applied.

"Second—the right of the people to self-government is an inalienable right; to local option in the counties, to home rule in the cities and to all rights in the States not expressly delegated to the general Government; and the preservation of this right of self-government is essential to that just equilibrium between liberty and law—the corner-stones of our system of Federal and State institutions.

"Third—The money of the country must be good money; circulating everywhere; unquestioned and unquestionable; recognized at once and taken at its face value; and, to attain this universal recognition and acceptance, it must consist of gold and silver and paper, the whole of interchangeable value, each convertible into the other on demand, and freely circulating side by side.

"Fourth—The laws must be executed rigidly and impartially; legislation must be restricted to proper functions; the principle individual responsibility must be taught and enforced; the public credit and honor must become subjects of paramount and personal concern, and parties must be held to a real and strict accountability through their official representatives."

These, the Journal says, shall guide it in future and it clearly intimates no obligations to any party departing therefrom. The Journal does not see in the late Democratic shibboleth a complete undoing of the consequences of the tariff and pension robberies that have been advancing upon us step by step for 30 years or more with but an occasional check by triumphant Democracy along the lines set forth.

The Journal stoutly maintains its right to the name Democrat as is surely its right. Whatever may be said and believed in favor

of free coinage it has no exclusive right to the name of Democracy. Populists and even the Teller wing of the Republicans embrace the free coinage theory while they scorn the name of Democracy. So we clearly see that a man who believes that the silver cause is vital to the interests of the country should adhere to the movement but it should not be held as the only Democracy nor as the only honest principle.

### TO DIVE TO THE NORTH POLE.

They have tried to get to the poles of the earth by grinding among the icebergs, by crawling over rugged, icy ledges and rocky barren wastes, and by gliding over snowy expanses amid the howling winds that make unmitigated discomfort unbearable, while arctic frigidities seem to forbid man's meddlesome intrusion.

Andree hoped to get above all obstacles and look down upon all that halts others by sailing in his balloon. He may have gotten to the north pole but if so he does not come back and tell us what he found there. But if things on the earth and above the earth baffle indomitable manhood, there is still another way left, that is under the earth.

The latest means proposed is a boat something like the tarpedo boat, that is to dip down under the ice where it cannot sail through it, coming up at intervals to catch breath, etc. But you say how is it going to get up through the ice? It is to be prepared with a means of cutting or boring up through the ice, possibly, too, dynamite may be used to break open an aperture through which to get a fresh supply of air, make observations, etc.

One Simon Lake, the inventor of a peculiar boat, the Argonaut, and a Mr. Alfred Riedel, a German Journalist of Baltimore, entertained the faculty of Johns Hopkins University last Saturday with the scheme and seem to have created some interest in the novel project.

### Where Our Cold Comes From.

Boston suffered from the severest snow storm Tuesday that the city has experienced for 25 years. A foot of wet, heavy snow fell between the hours of 1 and 5 o'clock, doing much damage to electric wires and causing a \$100,000 fire thereby.

New York has a regular blizzard, with the thermometer in parts of the State 20° below zero.

Philadelphia had the worst gale since '88. Through upper Maine and New Brunswick the cold and stormy weather is fearful, with the thermometer as low as 20° below zero. Much damage to shipping is reported and many lives are said to be lost.

Senator Butler is again fighting a hopeless battle in opposing the confirmation of Judge Ewart as Judge Dick's successor. He says his objections are personal and he will prefer charges. It is believed they will be quite unavailing, however. Butler is a great schemer, but he seems not quite shrewd enough, however, to be on the popular side. Possibly it would not make him conspicuous enough.

### BAD OF CIVIL SERVICE REFORM.

We have always looked with favor upon civil service reform and have not entirely lost our hope that it may be improved, but the late shake up in our revenue departments have done much to cripple our zeal for it as a reform measure. If a rank partisan head of the service can defeat the whole principle by a studied means of checkmating and harassing subordinates till that manliness necessary to efficiency in any office will impel men to resign, then the thing is a roaring farce and the quicker we get rid of it the better.

Mr. R. S. Harris who, we believe, has been faultless in the discharge of duty, has resigned, when to have continued under congenial surroundings would have been more agreeable. Now Mr. J. M. Roberts is taken from office work and given the place probably with the hope of his early resignation. So in a number of instances the practice is probably nothing more nor less than an evasion or practical nullification of the civil service rules. We see that Deputy Taompson, of Salisbury, has also resigned, and the reasons, if we understand, are practically the same.

There is but one comfort in this piece of political depravity, and that is that his elephantship, J. Wiley Snook, has lost his place too after nosing around and being unsuccessful in his efforts to find irregularities on which to prefer charges.

## One Large Scar

Is All That Remains of Great Scrofula Sores

Neighbors Could Not Bear to Look Upon Her—A Grand, Complete Cure by Hood's Sarsaparilla After Others Failed.

"I was taken with neuralgia in my head and eyes. Not long after this, a scrofula sore appeared on my left cheek, extending from my upper lip to my eye. Other sores came on my neck and on my right arm and one of my limbs. They were very troublesome and painful and soon became great running sores. My face looked so bad that some of my neighbors could not bear to look at me and advised me to wear a bandage, but I feared this would irritate the sore and make it worse. So I

### Could Not Hide the Sores.

My niece, who was familiar with a case similar to mine, which had been cured by Hood's Sarsaparilla, urged me to try it. Finally I was persuaded to do so, and in a short time I saw it was helping me. The sores began to heal and the neuralgia in my head was better. In a few months the sores on my arms and limbs all healed; those on my neck gradually disappeared and now they are all gone. I have never had any symptom of scrofula since. One large scar on my right arm is all the sign that remains of my terrible affliction. The neuralgia is also cured." Mrs. J. M. HATCH, Etna, New Hampshire.

**Hood's Sarsaparilla**  
Is the best—in fact the One True Blood Purifier.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

### OUR LIVE BUSINESS MEN.

- Bell, Harris & Co., furniture dealers and undertakers.
- D J Bostian, racket store
