STILL IN DISCUSSION.

The Flying Squadron Not Yet Heard From.

Special from the Charlotte Observer to THE STANDARD.

The Senate is still in session and will probably continue through the night.

Nothing more is known of the Flying Squadron.

STOCKHOLDERS MEETING.

Held in Concord Wednesday for Organization—Officers Elected.

The stockholders for the new cotton mill to be erected at Norwood met in the private office of Mr. D B Coltrane on Wednesday. Officers were at once elected which resulted as follows: President, D B Coltrane; Secretary and Treasurer, Dr. J A Tyson.

The capital stock of the company is \$50,000 with the privilege of increasing it to \$200,000.

As was stated before, several prominent men of Monroe were here on that day having private talks with the different stockholders trying to get them to build their mill at Monroe instead of at Norwood, but the matter was not considered in the meeting at all.

Committees on Building and Equipments were appointed.

Unlike quite a number of mill companies, no great expense is put on this company for a suitable site, as they have some of the most valuable property in the town, and for the entire tract of land, which consists of one hundred acres, they only paid one thousand dollars, and their building will be near a splendid water supply.

It is a great leap from the old fashioned doses of blue mass and nauseous physics to the pleasant little pills known as DeWitt's Little Early Risers. They cure constipation, sick headache and biliousness.—Gibson's Drug Store.

The Petrified Woman—A Meritorious Exhibit.

About all you hear now on the street is, "Have you seen the petrified woman?" If not, you are told it is natural, wonderful, etc., and you are advised to go and see the great wonder. It is refreshing, to say the least, to feel that once in a while a meritorious exhibit comes along. Many of our citizens who have been in say it is wonderful and worth ten times the price of admission. Receptions are held daily from 10 a. m. to 10 p. m., in the Lita-ker building, Main street, and the exhibition will continue only a few days.

Let our citizens show their appreciation of a meritorious exhibit by visiting the room where the great wonder is on view. Every man, woman and child of this city should see this wonderful, interesting and instructive exhibit.

Change of Advertisements.

A hot time for the Cubans in Craven's ad.

DR. HOLLAND ACCEPTS.

He Will Become Pastor of St. Mark's Lutheran Church—Will Be Associated With Elizabeth College.

St. Mark's Lutheran church received a communication yesterday from Rev. Robert Q Holland, D. D., Charleston, S. C., to the effect that he accepts the call (the second one) extended him to become pastor of St. Mark's church, and that he will enter upon the active duties as pastor the first Sunday in June.

Dr. Holland will also be connected with the faculty of Elizabeth College, occupying the chair of Christian evidences and chaplain. This is considered a great victory for St. Mark's and for Elizabeth College, as well as Charlotte, for the reason that Dr. Holland is perhaps the most popular minister in the Southern Lutheran Church. He is a distinguished scholar and a polished gentleman. He has been connected with educational institutions a great part of his active life, and will be a drawing card for Elizabeth College, on account of his extended acquaintance and popular influence in Virginia, South Carolina and Georgia.

Dr. Holland is a Virginian by birth. He is a brother of the late Dr. George Holland, the former president of Newberry College, South Carolina, and is at present president of the United Synod of the South, and also president of the board of directors of the Southern Theological Seminary. His cultivated wife will be a valuable acquisition to Charlotte society.

The plans for the new Lutheran parsonage are about finished. The work will soon begin.

Dr. and Mrs. Holland will board, possible at Central Hotel, until the parsonage is completed.—Charlotte Observer.

A little boy asked for a bottle of "get up in the morning as fast as you can," the druggist recognized a household name for "DeWitt's Little Early Risers," and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles.—Gibson's Drug Store.

The Julia Magruder Club Meets.

(Contributed.)

The Julia Magruder Book Club met last Tuesday with Mrs. Dr. Houston. The subject for the evening was Mrs. M. W. Goodwin, a near relative of Dolly Madison, whose life she has written. The coming event with the club was of course Professor Hume's lecture. His subject was particularly gratifying as the club thought.

We ought to sing the praises of our Southland, who has not taken the place in literature she has won.

Mrs. Houston's dining-room transported us to some silvery dell—made beautiful by spring flowers and boughs of exquisite dogwood. This elusion was dispelled, however, by a glance at the table, whose appointments made us realize that we were indeed in the centre of a lovely home.

Thousands of sufferers from grippe have been restored to health by One Minute Cough Cure. It quickly cures cough, colds bronchitis, pneumonia, Gripp, asthma, and all throat and lung diseases.—Gibson's Drug Store.

The Petrified Woman.

The writer has been in the Lita-ker building and spent some time studying the petrified woman, which is, as her many testimonials from some of the leading physicians in our own State testify, a wonderful specimen of petrification. The exhibit is under the management of Mrs. Taylor, together with her sons and daughter, who are always ready to answer any questions you ask about the body.

This body, they inform us, was found in Fresno county, California, by a government prospector, and her wrist was the first thing seen. It was found in the month of June, 1891. The weight of the body now is 320 pounds, height 5 feet and 3 inches. It is thought by scientists that during life the person weighed about 125 or 130 pounds.

Several other specimens of petrification are on exhibit, such as woods and even a piece of Bologna sausage that has petrified. Some rare specimens of minerals are to be seen.

The Flying Squadron at Sea.

The report in Washington Wednesday that the Flying Squadron had put to sea hastily kindled a flame of excitement when it was undersealed order and that possibly it meant an attack on Havana at once. We got the news, but did not place it on bulletin board believing that a later message would make it appear in better light.

It was as stated by us—went to sea for naval drill. However, you may read as much between the lines as you please.

Boys' Clothing

Just as usual we remembered THE BOYS. We are good friends to the Boys, and always do our very best for them.

We have just opened up about 300 suits for boys at prices from 75c. a suit to \$5.00 a suit, and we guarantee that we are giving better values right through the line than any Store in the State.

Also just got in yesterday over 600 pairs Boys' Knee Pants. Some very fine, and all at less than the cloth in them would cost.
