CONCORD, N. C., WEDNESDAY, APRIL 20 1898

WHOLE No 11733

RESOLUTIONS SIGNED.

Special from the Charlotte Observer to THE STANDARD at 1.45.
President signed resolution at 11:24 o'clock.

IT MEANS WAR QUICKLY.

Spain to Get the Resolutions and Ultimatum Today—Till Friday Evening to Be Given—80,000 Volunteers from the States' Guards to Be Called for—Spain Means to Fight.
The President did not sign the resolutions Tuesday as was expected, but it was given out from the Cabinet meeting that he would do so today (Wednesday) and at the same time would forward to Spain the resolutions with an ultimatum which the Cabinet wished to give due care to formulating. While from generous principles the President would gladly give several days to Spain for a reply, from strategic reasons it was thought that an answer would be demanded within 48 hours, that is till Friday evening. Presuming that no satisfactory answer will be given, troops are being vigorously pushed to points South and to Chickamanga Park and elsewhere from which to be most readily available.

Senator Hawley introduced a bill Tuesday that will most probably be promptly passed calling for 80,000 volunteer troops to be gotten from the State guards. They having the first chance. They will be asked to volunteer for three years. The idea is to carry on this war with the regular army and volunteers. The indications are that Spain is in sullen readiness of mind to fight rather than yield Cuba.

It is said that Senor Bernabe, the Spanish minister at Washington, will take his departure when the President has signed the resolutions.

The large metal sign bearing the words, Office of the Spanish Legation was torn down and carried off by some rude and malicious characters Tuesday morning. It did not to rever produce any special sensation.

Don't Bother Us Yet, Brother.

An effort will be made in a few days to provide Charlotte with a good ball team. So far, interest in the national game has been overshadowed by the war talk. We serve notice on Concord that whenever she gets in shape to play ball we will welcome her team to the metropolis of the State.—Charlotte News.

[Brother, just wait until this "cruel war is over." Quite a number of our boys belong to the military company, and are expecting to play with a different kind of ball, or at least expect to be on a different kind of diamond. They will be found standing at the bat, however, when Umpire Ed Hill gives the word].

A Boston girl who has been trying to find out why her bicycle often runs into objects she tries to avoid thinks she has solved the problem at last. She says: "It is hypnotic influence of concentrated attention, rendering the movement inco-ordinate, so that the rider becomes the victim of perverted reflexes or purposeless effort and the object of an optical delusion." And perhaps she is right.—Chicago Times-Herald.

FIVE SMALL BOYS

Take a Notion to Beat a Freight Train and See Some of the World On a Small Scale.

Tuesday afternoon if one had been at the depot he would have seen Will Wallace, George Lore, Carl Sherrill, Charlie Ritz and Stacey Klutz, five small boys about twelve or fourteen years of age, standing around waiting for a freight train to come.

The train came and all got on except Charlie Ritz and George Lore, but wishing to be with the crowd they walked on towards Harrisburg. The other boys made a successful trip to Newells, where they met a freight train coming back. Two of the boys jumped on the returning freight train and came to Harrisburg, but left Carl Sherrill at Newells.

By this time the two boys that had walked from here had reached near Harrisburg, and so four of them were together again. One of the boys in the crowd had some money, and so they used the telephone to this place Tuesday night. Carl Sherrill, who was alone at Newells, got the telephone operator there to telephone here and make some arrangements to get him home. This was done and the boy came home Tuesday night.

Early this (Wednesday) morning Will Wallace walked home and tells of their experience. He says the quartet slept in a cotton house last night.

He says that he came this way this morning and the others went walking down the railroad towards Charlotte.

From a talk with some of their parents it is very probable that a degree will be given them of limbs, shingle or rubber shoes in order to impress their trip.

At a later hour this morning we found that they had reached Newells and were still going towards Charlotte.

Cuban Co-Operation.

New York, April 19.—At the office of the Cuban Junta, general satisfaction was expressed today over the action of Congress in passing the Cuban resolution. A statement was given out, which contained the following:

"Should force be necessary on the part of the United States, there would be the most complete co-operation by the Cuban government and its army. Coast pilots and practiced guides will be placed immediately at the service of the United States, and in every practicable way will the Cubans aid in expelling the common enemy."

Each Soldier to Wear a Tag.

When the men of the regular and volunteer armies go into action they will wear around their necks little tags of aluminum, by which they may be identified if found later on the field of battle. In the last war it was often impossible to properly identify the dead soldiers, and thousands were buried in graves marked "unidentified." The War Department has prepared this system of identification, and it has been decided that on each tag shall be the numeral assigned each man on the muster rolls, with the letter of his company, battery or troop, and his regiment. These tags will be sent to the troops in the South when it is evident that a fight is on hand. In the civil war officers of the regiments had little silver shields, inscribed with the wearer's name, rank and regiment.—Washington Special to New York Sun.
