And Sixty Wounded--Both Flags Are Floating--  
Nothing Heard From Dewey.

SPAIN IS CALLED UPON TO QUELL THE RIOT--ST. PAUL ORDERED OUT.

(By Cablegram and Telegram to DAILY STANDARD.)

### Spaniards Killed and Wounded.

Key West, May 5, 1 p. m.—The Leyden returned this morning after landing two expeditions. The first expedition carried a dispatch to Gomez. The second landed west of Hayana, aided by the Wilmington's shells. A charge was made. Six Spaniards were killed and sixty wounded. The Spaniards retreated. Both the American and Cuban flags are floating over the island. Many rifles were landed for the insurgents.

[This lady was a daughter of the late Caleb Barrier, brother of Dr. P A Barrier, Mrs. R O S Miller and others.]

### The Indignation Meeting.

The colored people held their indignation meeting Wednesday night for the purpose of denouncing one of their brothers, George Green, for putting out some mischievous reports. In order that some that might be prejudiced should not express themselves, a committee was appointed to draft resolutions.

The matter seems, as first stated, to have arisen by some children talking to each other and the matter did not amount to much.

### CONDITION OF EXPECTANCY.

The Spanish Fleet Moving—Admiral Sampson Also Gone—Internal Spanish Dissensions—Ammunition for Dewey—More Volunteers to Be Called for—Lee and Wheeler Major Generals.

After going to press Wednesday evening THE STANDARD received a special from Washington saying that Vice President Hobart announced that Commodore Dewey's report had arrived, that Manila was taken and the stars and stripes are floating over the Philippines. We of course do not claim verity for dispatches, but we would be surprised if this should not be verified very soon. Spain should stop this war by acceding to the demands of a great nation as superior to her in magnanimity as in power. But it seems she will not, and the worst is sure to come. The landing of troops on Cuban soil is not coming just in the line of expectation, but it would be less than the wisdom possessed by our leaders if movements could undergo no modification by developments.

It is not known where the Spanish squadron now is, but it is entirely probable that it is heading to intercept the Oregon and the Marietta, now on their way from Rio, or possibly is making for her only coaling station in Cuban waters at Porto Rico.

Admiral Sampson has moved out, and we are left to find out his mission later. The most probable theory, however, is that he will take or destroy the coaling station at Porto Rico, and will then proceed to hunt for the Spanish fleet, which should soon be found if it is actually coming this way.

Spain seems desperate enough just now to venture on such a course. Probably nothing would please Admiral Sampson better than to join in the one grand issue.

The situation is one of keen interest and expectancy.

Dispatches indicate that the Spanish fleet has returned from the Cape Verde Islands to Spain to

await several other vessels soon to join in forming a very formidable fleet. This, however, is thought to be only a trick report. Certainly she must expect to lose Cuba if she delays long in offering her aid.

The worst for Spain probably is her internal dissensions. Riots are reported with little doubt of their correctness. The government is very unstable and may be revolutionized.

Our government, however, presumes on nothing but the most vigorous action. Projectiles are being hurried to San Francisco in immense supply for Commodore Dewey's use.

A second call for volunteers is spoken of, and Congress now in a measure rises above party to make every appropriation and provision for the worst.

Generals Lee and Wheeler have been nominated as major generals, together with others, and will doubtless be confirmed by the Senate at once.

### THE GRAPHOPHONE

The most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduces the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment at home or in the social gathering. You can sing or talk to it and it will reproduce immediately and as often as desired, your song or words.

Other so-called talking machines reproduce only records of cut and dried subjects, specially prepared in a laboratory; but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for \$10 up and

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

## All a Mistake.

Our "War Car, City of Knoxville," is safe in port, loaded with the finest cargo of Golden Oak Suits ever shown in this part of North Carolina. She was not captured by the Spanish Fleet of high prices as reported.

She was safely guarded into port by our Gunboat, "High Price Exploder," with 100 'mattress' aboard, at prices ranging from \$1.25 to \$15.00. Hearing is believing, seeing is the rated truth. You can hear from anyone that has ever been in our store that we have the "stuff" and we make the prices.
