BASE BALL!!!

Concord and Pelzer Base Ball Teams Fighting It Out at the Miller Park

At the time of going to press, the Concord team is crossing bats with the Pelzer boys from South Carolina. They play here three days.

The team arrived here Sunday night, the connections on the railroad being such that they had to come on that night.

The visiting team are a very good looking crowd of young men and they also look like they can play ball. This team has a most excellent reputation and our boys expect to meet their strongest foe while on the diamond with this team.

As for our team, it is unnecessary to give their names and batting order. The following is the names of the visiting team and their positions:

Darby 3b, Johnston 2b, Crawley c, Bailey, rf, McIntyre cf, Naunders lf, Frost ss, Manis p. Poole, substitute.

The players are nearly all men of a good base ball reputation. Mr. Johnston has played second base on Trinity's team and is considered one of the finest second basemen in the South. He was highly spoken of by the Boston team.

Mr. Poole, who is entered as a substitute, played first base last year for Mountain Island against Concord. He is considered a good player.

Mr. Mains, the pitcher, is from Boston, and has been playing in August, Ga., with the Southern League. He is a player of a reputation.

Messrs. Morgan, Darby and Frost have all played with the Old Virginia League, and can play ball excellently.

Mr. Bailey, the captain of the team, and who will very probably in a few days go to Pennsylvania to pitch, is a pitcher of the Southern League, and has been playing with that League in the past.

Mr. Crawley has in the past been catching for both Chattanooga and Knoxville teams, and catches almost everything that comes anywhere near him.

Mr. McIntyre is only a beginner, but has a most promising future before him, so Captain Bailey informs us.

Mr. Saunders is a most excellent pitcher, or else he could never have played with the Grand Rapids team in the Inter-State League before it disbanded. He is a left-hand pitcher.

Mr. Neville, the manager, is also a pitcher, and has been playing with several of the local teams of South Carolina.

A COLLISION.

Trains Run Into Each Other—One Car Torn to Pieces and An Engine Damaged Considerably.

Sunday evening between 2 and 3 o'clock the third section of No. 74, a fast northbound freight train loaded with perishable goods, had arrived here and was doing some shifting of cars. Soon the fourth section of the freight train came in and was nearing the third section when the latter, for some reason, commenced going backwards. Before the engineer of the fourth section could stop and start backwards the third section's caboose had collided with his engine. The one was moving forward slowly while the other was coming backwards slowly.

The engine to the fourth section, and which was damaged considerably by the caboose, was No. 324, which is the engine equipped with the electric headlight. Owing to such a large amount of freight going north this engine was put on an extra freight run that day. The pilot was torn to pieces, the headlight apparatus demolished and considerable damage done near the steam chests.

The caboose of the third section was torn into pieces, and was thrown to one side by the wreckers in pieces. Nothing was left whole about it except the trucks. A car loaded with melons, which was next to the caboose, was damaged some though not too bad to be taken on as far as Spencer to be repaired.

As for the cause of the wreck, it was carelessness on the part of some man or men. The third section had no flags out behind, but at the same time the fourth section was up exceptionally close on the third section.

After a few hours the wreckage was cleared away and the trains allowed to pass on. There were several trains waiting for the track to be cleared. Fortunately the rails of the track were not put out of line and the trains were soon able to move.

NEWS PARAGRAPHS.

President McKinley is reported as saying Friday morning that he had decided positively to not call any more troops. He is moved to the announcement by the applications for commissioned offices.

General Miles is nearing the land at Porto Rico. General Brooke will sail from Newport News at once to join him. News from there will necessarily be delayed till cable connections can be established then it will come promptly. The attack will hardly occur before the end of the week. General Wade has assumed command at Chickamauga as successor to General Brooke.

The time is probably nearing for Dewey to seize Manila. A special dispatch from Madrid says that General Augusti, Captain General of the Philippines, has telegraphed to the government as follows: "The Americans are about to attack Manila. Grave events are impending."

It is now said that the General Garcia letter of indignance to Gen. Shafter is a forgery by a newspaper correspondent. In an interview General Gomez is quoted as follows: "I have only to say," said General Gomez, "that the only man that has any thing to say in the direction of matters is Mr. McKinley, and we shall do whatever he says. I have given instructions to all my forces to co-operate with the Americans, to whom we are indebted."
