TEACHERS' INSTITUTE.

A Good Attendance of Our Teachers from Concord and Throughout the County—Interesting Talks on Different Subjects.

Wednesday, 2 p. m., Prof. Joyner resumed the consideration of getting and giving or expressing thought. Coming down to basic work of getting thoughts from books he touched upon the initial work of teaching reading. There are the alphabetic, the phonetic, the word and the sentence methods of analysis, all of which have peculiar merits, but all are best combined with the others probably. He thinks the enthusiasts of all unconsciously combine them. The old blue-back is not his choice, but the first 40 pages have not been excelled as a phonetic speller. Advancing to the real operation of reading the speaker would have much attention given to training the child to catching the thought. It pays a teacher, he thinks, to have a kind of first reader library, fascinating and simple, by which the young learner is kept interested and easy in training. Train the child to study the meaning of its reading and it is easy to give that meaning in the use of emphasis, pitch, time and tone. They intuitively use these aright in talking and do the same in reading if wrong habits are not fostered.

Prof. Sharpe next treated "Type Lesson in History," illustrating the formal steps of instruction in the teaching of history and the importance of selecting certain subjects as typical and emphasizing them more than others.

Prof. Joyner followed in a ten minutes discourse, advising against acceptance of extreme theories. There is much of good in all these theories, and the wise teacher will accept whatever of truth there may be in any of these, at the same time rejecting the false.

Opening the query box followed and the institute adjourned at the usual hour.

Garmon, of near Flowe's, only a week or two ago. Mr. Garmon will be made an elder. One of the elders says he will always remember Concord. He is the man that received a blow or two on his head on Spring street several months ago.

PETER GLASS DEAD.

Called Suddenly Away at 6 a. m. Mr. Peter Glass, from whom the station of that name was designated, died suddenly this (Thursday) morning at 6 o'clock.

The deceased was about 75 years old, a native of Germany.

He came to this country before the civil war and brought with him those German qualities of successful farming and frugal thrift.

His health has for years been unsuited to maintain the vigorous push and energy of his former stalwart constitution and he has been practically retired.

He leaves a wife and four living children, viz: Fred, with whom he lived; Henry, of Litchfield, Ill.; Mrs. Roediger, of Winston, and Mrs. James Fisher, of the home community.

The interment will take place Friday from St. Enoch's E. L. church, where he was a member.

A Wreck on the Yadkin Road.

What might have been a more damaging wreck occurred on the Yadkin road at Woodside Wednesday, when two flat cars loaded with granite came rushing down the mountain. Fortunately the cars were thrown off the track by an open switch. It is stated that one block of granite weighing over 500 pounds was thrown a distance of 150 yards. THE RECORD DENOUNCED

A Man Found to Lay It at the Democratic Door.

Cyrus P Lockey says the Republican Executive Committee of New Hanover county has met and denounced the infamous editorial of the Daily Record that has capped the climax of all insults to the white race. Mr. Lockey says the paper will suspend. One Hill E King, a clerk in the Agricultural Department, puts on the finishing touch by denouncing this editorial and very sagaciously concludes that it sounds like the work of a Democrat and ventures the opinion that a Democrat wrote or inspired it and got this negro to publish it. Could anything be more like Butler's Rocky Mount speech?

And is it not wonderful that for want of something bad to say of Democracy the things too outrageous to be condoned are transferred by such geniuses to the debtor column against Democrats?
