MACHINERY ARRIVING

By the Car Loads for the Odell Mills—Billy Wilkinson No More Interested in the Steam Laundry—Building.

Two car loads of machinery from the Lowell Machine Shops, at Lowell, Mass., have arrived this week with more to follow, which consists of cards, lappers, slubbers and speeds, etc.

Mr. W A Wilkinson has sold his interest in the Concord Steam Laundry.

Mr. and Mrs. J G Suther, of Rock Hill, S. C. arrived in the city last evening, accompanied by Mack McLelland and Mrs. Bettie Eller, brother and sister of Mrs. Suther.

Quite a number of new houses are in course of erection in this part of the city.

Yellow Fever Threatens.

It really begins to look like yellow fever is going to be hard to keep down in our gulf coast States yet this season. At Orwood, Miss., 29 cases are reported, at Taylors 5, Waterford 1, Bennet 1, Meridian 2, and at Franklin, La., 12. The disease seems of mild type, two deaths having been reported. New Orleans has two suspects. These probably may prove not to be genuine. They disturb business probably worse than all the others.

Concord to the University.

Concord has sent quite a good delegation to the University this season. The following have already gone: Messrs Will Gibson, Richard Gibson, Gaston Means, Aubrey Hoover, Joe Reid, Earl Brown, and also Mr. Frank Craven, of No. 3 township.

Corporal Perkins Tells Too.

The Daily Reflector, of Greenville, N. C., contains a letter that tells the experience of Corporal Perkins of Co. E. in that terrible storm on Tybee. Words evidently give but a poor idea of the horrors of the storm and the thrilling experience of our soldiers that night. Corporal Perkins seems to have fared worse even than Corporal Thos. Johnston.

Examination Day.

Several teachers from the county were here this (Thursday) morning to stand examination under Prof. H T J Ludwig, this being the appointed day. To the surprise of our graded school teachers they did not have to stand an examination, as Prof. Ludwig had only last year examined them and had given them their certificates.

You invite disappointment when you experiment. DeWitt's Little Early Risers are pleasant, easy, thorough little pills. They cure constipation and sick headache just as sure as you take them.—J P Gibson.

Let Rev. Page Tell It.

The Newton Enterprise gives the following letter to a citizen of Newton, written by Mr. Page:

Rockingham, N. C., Aug. 29, '98.
My Dear Sir and Brother: I was from home when your favor came. I have time to reply briefly. The reports of the dreadful results of the reign of the vilest characters in some of the eastern counties are not exaggerated. Indeed, the "half has not been told." I am sure if the honest white men of the central and western portion of our good old State would come east and see for themselves they would return home with the resolution, every one of them, to work and vote to help throw off the yoke that is so oppressive and humiliating to the white men and white women in the eastern counties.

Things must change very soon or some portions of our beloved State will be reduced to degradation, poverty and ruin. The good people of this section are making a determined effort, and scores of white men who had strayed off into the fusion combine, are coming back to the anglo-saxon banner, and will vote for honest government. Let the west heed the earnest, honest appeals of their brethren in the east and all will be well. Truly,
JESSE H PAGE.

P. S.—There are hundreds of negroes—many of them "lewd fellows of the baser sort"—holding office in the eastern counties. Some of our towns and cities—notably Wilmington, Newbern, Greenville and others, are completely dominated by negro Aldermen, magistrates and policemen, and matters are in a dreadful condition there. These things were brought about by the unfair division of wards in these towns made by the last Legislature. Truly,
J H PAGE.

They Size Him Up.

It is interesting to note some of the expressions of the Populists at Cincinnati recently. Here is a specimen:

"Senator Butler, who is chairman of our national committee, preached disintegration and demoralization just as Benedict Arnold stipulated for the scattering of the American forces, that the British might the more readily overthrow the young republic.

"Mr. Butler taught our forces that the first duty of a soldier was to break ranks and go over to the enemy. All efforts to chain the boundless subtlety of this cunning man have been in vain."

Mr. Butler gets fed out of his own spoon sometimes. As it takes a rogue to catch a rogue so it takes one vilifyer to measure up another.

To Be Shot For Murder.

It is now almost certain that Private James Taylor, (col.) a member of the Tenth Regiment, stationed at Camp Dyer, near Augusta, who shot a corporal named Mills, will suffer death. The trial was held by a court martial, and there is every reason to think that he will be shot.

For Our Graded School Teachers.

Prof. Coler, superintendent of the Concord Graded Schools, requests that all the white teachers meet him in his office at the graded school building Friday morning at 10 o'clock.

Memorable Phrases.

"Don't swear—fight!" Colonel Wood's advice to the Rough Riders at Santiago de Cuba, is being quoted all around the English press. Truth mentions several memorable phrases coined by Americans—for instance, Stephen Decatur's toast, "Our country, right or wrong;" the last words of Nathan Hale: "I only regret that I have but one life to lose for my country." Grover Cleveland declared that public office is a public trust; and to William Penn is attributed the phrase; "I prefer the honestly simple to the ingeniously wicked." Truth might also have mentioned the celebrated and characteristic utterance of an early American minister to France, "Not one cent for tribute, but millions for defence."—Ex.
