MRS. FANNIE FISHER DEAD.

Shows Her Husband After Two Years and Leaves Four Parentless Children—Her Resignation to Death—Triumph of Christian Faith—Lapse Then Consumption the Disease.

At 4 o'clock on Wednesday on South Main street the angel of death came to the home from which Mr. Fisher was summoned two years ago and took the widowed mother.

During last winter she was attacked with la grippe, which concentrated its insidious effects on the lungs and developed consumption, which has made rapid strides for the last few months.

The unmistakable admonition of her departure was welcomed by Mrs. Fisher. It was a subject of remark by visiting friends that she fully realized that the end of this life was near and the calm, sweet resignation with which she spoke of the event was a beautiful mark of the triumph and Christian faith that led her above the cares of earth.

Mrs. Fannie Fisher was 48 years of age. She leaves four children, viz: Misses Claude and Grace and Masters Julius and Archie, who now reside in the loss of earth's greatest blessing, a good mother, must endure the sense of a broken home where there is none to whom to look for parental counsel, guidance and comfort.

Mrs. Fisher also leaves a father, Mr. A H March, who has made his home with her for some years; a sister, Mrs. L M Brower, of Taylorsville, who has been at her bedside since the end was apparent, and a brother, Mr. Thomas March, of Texas.

The funeral rites, according to programme, were conducted by her pastor, Rev. O B Miller, at 3 o'clock at the family home, from which the remains were laid to rest in the city cemetery, with those of her husband, by Messrs. D B Coltrane, J A Cline, D B Morrison, J D Barrier, G W Brown and D L Bost.

We are sure we voice the emotions of the community in offering to these bereaved young people the deepest sympathy in this their most appalling loss.

A Consolation for the Private.

A private of the First North Carolina at home on a furlough called on a girl friend. Conversation of course turned on army topics. The fair one, who evidently could appreciate the difference in uniform, inquired if those who had stripes on their sleeves were not officers. The private saw his opportunity and instantly enlightened her. "Oa, no," he said; "the officers have their mark of rank on their coat collars. When you see a soldier with two stripes on his sleeves, that shows he has been in the guard house twice. Three stripes show three times in the guard house, and when there is a diamond on the sleeve it is a sign that the wearer has been in prison at St. Augustine!" And thus he stood up for the boys who do not wear stripes.—Asheville Citizen.

Little Child Scalded.

About noon today (Thursday) the little child of Mr. W L Sherrill, who lives on South Main street, was badly scalded by turning over a pot of hot coffee. The little child's hands and one foot is blistered considerably.

A BLOODY BATTLE

Striking Miners in Illinois Object to Importing a Train Load of Negroes—Ten Killed and Twenty-Nine Wounded.

A fierce little battle took place at Virden, Ill., Wednesday afternoon when the mining company brought in a train load of negro laborers from Alabama to take the places of striking miners. The fighting was between the guards and the strikers. The casualties are summed up to be ten killed and twenty-nine wounded, four of them fatally. Two deputies and one negro are among the mortally wounded. The strikers suffered most heavily. The negroes did not alight and the train was run on to Atlanta, Ill.

Governor Tanner is very indignant at the mining company, whom he had warned against importing labor, knowing the great danger of such course. He says the company will be chargeable with the results.

CAMPAIGN IN SAMPSON.

Chas. E. Thomas Blistered Fowler in Joint Debate at Clinton—Former Populists Now Democrats.

A special to the Star from Clinton, N. C., Oct. 11, says: Hon. Chas. R Thomas met Fowler today at Clinton, in the first joint debate of this campaign, and the Democrats were fully satisfied with the way Thomas handled his opponent. Sampson is a Populist stronghold and Thomas had them to hear him blister Fowler. Fowler got it so hot that towards the end of the debate he could not stand up among the ladies, but slunk off to a corner filled with negroes. Fowler lost his head when he tried to prejudice his hearers against rich men, lawyers and railroad presidents, forgetting that he is a kind of a lawyer himself. Several former Populists told us during Fowler's speech that they were henceforth and forever Democrats.

A SLOW DEATH.

A French Doctor's Idea of Guillotining.

London, Oct. 10—The Medical Journal publishes the report of Dr. Cinet of Paris, asserting that the guillotine does not immediately kill the brain. The French doctor says the blood first comes from the large vessels of the neck and there is hardly any drain upon the circulation in the cranium. The brain, he adds, finds nourishment for an hour after decapitation, during which time the person decapitated retains his other senses of hearing, smelling and seeing. Absolute death, Dr. Cinet claims, does not ensue for three hours. Thus, it is pointed out, guillotining, instead of being speedy, is one of the most prolonged and horrible forms of capital punishment.

Half Has Not Been Told.

Mr. Wm. E Worth, of Wilmington, was at the Benbow today. When asked about the political situation in his section, and if the newspaper reports had been exaggerated, he said:

"No, the half has not been told. The city for the past two years has practically been turned over to the negroes. You people in this section cannot realize the situation in Wilmington unless you could come down and see for yourself."

Mr. Worth says the Democrats are working as never before, and with strong hopes of carrying that county, though it is a great task.—Greensboro Record, 11th.
