Grand Rally on the 5th.

Mr. Jarvis and Other Speakers to Be Here.

GREAT HORSEBACK PROCESSION.

Barbecue Dinner for All and Display of Anglo-Saxon Chivalry Never Seen Before in Old Cabarrus.

Ex Gov. T J Jarvis will make a political speech in Concord on Saturday, the 5th day of November. One or more speakers will be secured for the occasion in addition to him. It is fixed upon now to have a grand rally in Concord, such as we have not had since we had a cause so vital. Committees will be notified and a grand aggregation of horse-back riders from every township in the county is called for and confidently expected.

A great barbecue dinner will be provided and Cabarrus will show that she is alive to the occasion.

Let each man and woman be ready to act well the part assigned and make this great and legitimate way of solidifying the voters of that party that has stood and we trust always will stand for good government and white supremacy against all combinations.

To Hear the Candidates Speak.

It was our pleasure on Tuesday afternoon at Mt. Pleasant to hear the candidates make their speeches, or rather announcements, the first time during this campaign. On account of other engagements, Hon. R L Smith and Rev. W T Cutchin were not there. On account of sickness, Mr. J Lawson Peck was also absent.

Mere announcements for the different offices were made by all of the candidates, except when the time came for the announcements of the candidates for the Legislature.

Mr. W M Weddington made the opening speech, beginning by the abuse of Chairman Simmons, on account of the circular letter. He also played upon the ignorance of the people by bringing up the disfranchisement issue, but we are informed that he is gradually weakening on this subject at each precinct. He would have the people believe that Mr. Montague was the one who put Jim Young over the inmates of the deaf and dumb asylum, and he even showed to the people the picture of Jim at his work. He started to read the Chadboorn letter or letters but was called down on account of time.

Mr. Hartsell followed his opponent by a fifteen minute speech, first citing to the people the innumerable amount of extra taxes levied by the fusion legislature. He was glad to say that the statement of Mr. Weddington in regard to Jim Young was absolutely false. He also answered a statement that Mr. Weddington had made in regard to there being five negro road overseers in Rowan county by informing the audience that he had Mr. Theo. F Kluttz's statement that this was false. This was, very probably, sufficient for the audience. Mr. Hartsell soon showed to the people the means by which any one can be deprived of his vote and which is

clearly stated in our constitution and which could not possibly be at the disposal of our coming legislature. Unlike his opponent, he cited the terrible condition of our schools, especially in the eastern part of the State where white teachers must go before negro committeemen. He did not favor the present election law, and showed its invalidity in its one part—that of registration. He also cited the extra expenses now incumbent upon our people, by our representatives living in high life while attending the legislature.

Mr. Weddington then replied in a short speech. In a very round-about way he spoke of the Democrats having raised the assessment on the pole from \$1.01 to \$1.11 and made a calculation for the people of the rates of work by the chain gang. Mr. Hartsell soon arose though and informed the audience that the Populists had still raised the assessment from \$1.11 to \$1.16.

From Greenland's Icy Mountains.

Rev. Stubblebine gave his lecture Tuesday night in the court house. The audience was not as good in numbers as the merits of the lecture can claim. "From Greenland's Icy Mountain" is based on individual study and observation. It consists of a lecture largely illustrated with stereopticon scenes. The speaker began with the theory that Greenland was once a warmer climate and even may have been the Garden of Eden. Evidences exist that the climate was once warm and salubrious and the land productive, though now the island is cold and barren. The lecturer took the audience along the ocean scenes, relating in a witty way the incidents of his own voyage. The ice fields were especially beautiful. A few of the towns; the rugged heights; the bleak and dreary plains; the native Esquimeux, with their peculiar garb; the dog; the seal; the walrus; the polar bear, and even the birds were shown.

The lecturer spoke rapidly to get over the wide scope of his interesting theme. His description of the natives and some of their habits did not make their society a thing to be longed for.

The latter part of the entertainment was for the amusement of the children, and were highly colored comic pictures.
