CONCORD, N. C., DEC. 10, 1898.

The Lower House of Congress has passed the anti-scalping bill, but we can't tell just what is the whole import of it. It is a measure wanted by the railroads. Now the Southern people want separate cars for the races. It is to be hoped we will get them in North Carolina, whether the railroads favor the measure or not.

The cruiser Raleigh is ordered home from Manila. Wonder if she won't bring that cannon along to our capital city that was promised in appreciation of an early message of congratulation on the great victory which the Raleigh helped to gain.

Surgeon General Sternburg says that female nurses in the recent war were expensive luxuries.

Traveling should be very much accelerated when we get greased roads.

In speaking of Dr. Kilgo's address before the North Carolina Conference at Elizabeth City last week a correspondent says he spoke at some length of the trials of the year, and said he came out of the storm without malice in his heart against anyone. He announced that he was ready to serve the church he loved in any capacity, and if further conflict were ahead he was ready to lay all his strength upon the altar, and die if need be, for the interest of the Master's kingdom. There were not many dry eyes in the conference when he took his seat, and there was a spontaneous outburst of applause, the correspondent added.—Reidsville Review

Goldsboro Argus: "There is quite a jumble in Greene county. The official election returns gives the county by a small majority to the Republicans, but an official recount of the vote gives it to the Democrats, and on Monday both sides swore in their various officers, and now both sets of officers are doing business, from county commissioner to clerk. The Democratic clerk is in charge of the books of that office, and the Republican treasurer has charge of the county funds."

Constipation prevents the body from ridding itself of waste matter. De Witt's Little Early Risers will remove the trouble and cure Sick Headache, Biliousness, Inactive Liver and clear the Complexion. Small, sugar-coated, don't gripe or cause nausea.—J P Gibson.

Laugh Thrice a Day.

It has been said that we grow in face as well as we grow in thought, and that our faces are mirrors of our souls, but do we ever stop to think that our faces affect our souls also? And if they affect our souls they also affect our health, for health is to a greater or less extent controlled by the mind and soul.

It is a fact, as we have found out, that a woe-begone expression will drive every one away from us. Even fortune deserts us. If we sink in melancholy and indulge ourselves in our fancied or real ills of mind or body we become diseased. While on the other hand a cheerful view of life is better than medicine. A bright smile is always a winner, and its possessor can guide fate wherever she snooses.

On the other hand, if a woman sits down and broods over her own ugliness, longing for beauty, she will grow uglier and uglier every day. She should cultivate a smile and practice it frequently, no matter whether she feels like smiling or not, and laugh. It is a tonic.

Laugh methodically if you cannot laugh any other way. Make it a business to laugh three times a day, no matter whether there is anything to laugh at or not. Laugh with others even if you do not see the joke. If there is no joke this fact itself makes one, and laughter being contagious every one around you feels exhilarated and more cheerful and laughter as a duty becomes a habit, and one forgets to frown and groan and sigh. Laugh whenever seized with a desire to cry or scold.—Ex.

A Time for the Astronomers

There will be a total eclipse of the sun in May, 1900, and the superintendent of the Naval Observatory wants an appropriation from congress of \$5,000 in order that it may be properly observed by scientists.

"The eclipse," Capt. Davis says, "is visible at Washington only as a partial eclipse. The path of total eclipse passes through New Orleans, La; Mobile, Ala; Raleigh, N. C. and Norfolk, Va. It would be necessary to select observing stations at several points on this line, to which stations properly equipped parties from this observatory would be assigned."

France's will be in this country to observe the eclipse, and the superintendent of the observatory is anxious that this country may not be behind hand in such work.—E.
