A HORRIBLE DEATH.

A Young Brakeman's Foot Slips While Coupling Cars in the Charlotte Yard—Body Horribly Mangled.

An awful death did Mr. M W Enoch, of Stokesdale, Stokes county, meet in Charlotte Thursday night while coupling cars in the yard. While just in the act of making the coupling, his foot slipped and the wheels passed over his body, crushing his thigh, mashing his arm badly and cutting his right leg. This happened about 8.30 Thursday night and the young man, amid the most awful suffering, lived until 11 o'clock, each moment begging that he be relieved from such pain as he was enduring.

He was a young man and is of course known by all of the railroad men, his run as brakeman having been between Spencer and Greenville.

Still Making Improvements.

A force of hands are at work at the depot preparing for the change soon to be made there into our new passenger station. The walk along next to the main line is being gravelled.

A big job is before them changing the pipes to and from the water tank which will be placed near the engine room of the Cabarrus mills. Pipes are being taken out at some places, while new ones are being put in at other places. The water tank near the bridge will be torn away, as will also the standpipe now standing near the crossing. Two new standpipes will be put in.

The depot, with the exception of putting in the seats and changing the ticket office and telegraph wires, now awaits its "christening." It seems to still be a question as to whether the telegraph operator will occupy the new room or stay in the freight office, as heretofore.

Probably a New Cotton Mill.

In the Salisbury correspondence to the Charlotte Observer, we see that Mr. Julian A Hall, of Danville, Va., chief engineer of the Cone Export Company, of Greensboro, accompanied by three directors of the company, left Salisbury Thursday for the shoals in the upper part of that county. They went for the purpose of closing a deal for the Fisher Fall property, and it is their intention to build there the largest cotton mill in North Carolina. They will have from the wonderful fall of water at this point a horse power of 12,500 for the operation of their mill. There seems to be no doubt about the promoters putting this enterprise through.

Please Let Us Know It.

A few days ago a complete change in the routes of our paper carriers was made, which we think will prove beneficial not only to us, but to our subscribers. We now have six regular carriers and have their routes divided more evenly than in the past. If subscribers fail to get their paper they will do a great favor by "kicking," as probably some names are not on the list.

NO CURE, NO PAY.

That is the way all druggists sell Grove's Tasteless Chill Tonic for chills and Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c.

Two Great Fires.

Memphis had a fire Thursday night that consumed the large dry goods establishment of J S Menken & Co., to the value of \$750,000.

A fire destroyed half of Bridgewater, N. Carolina about the same time, including 58 stores. The residence portion of the town was narrowly saved. Losses were about \$250,000.

Rev. C. Miller Elected Evangelist.

At a meeting of the home mission board of the Mecklenburg Presbytery some days ago, Rev. C Miller, who is now pastor of Rocky River Presbyterian church, was elected as evangelist for Stanly county. It is not known whether he will accept. If he accepts his headquarters will be at Albemarle.

Aphorisms.

In business three things are necessary, knowledge, temper and time.—Feltham.

Men resemble the gods in nothing so much as doing good to their fellow creatures.—Cicero.

There are few wild beasts more to be dreaded than a talking man having nothing to say.—Swift.

More firm and sure the hand of courage strikes when it obeys the watchful eye of caution.—Thompson.

Words are like leaves, and where they most abound, much fruit of sense beneath is rarely found.—Pope.

Nature often exults in gallant and noble hearts in weak bosoms, oftenest, God bless her, in woman's breast.—Dickens.

Talkativeness has another plague attached to it, even curiosity, for praters wish to hear much that they may have much to say.—Plutarch.

The only wise thing to do, in our judgment, is to refuse to appropriate a single cent for any purpose for the penitentiary until the experts appointed by Capt. Day, and the investigating committee, to be named by the Legislature, have finished their work and made their reports. When the report of the legislative committee as to indebtedness is before the Legislature, the time will have arrived for considering how the deficit, made by the Republican management, shall be paid. But until the sum is definitely and officially ascertained, it would be a most unbusiness-like procedure to be paying any claims, or trying to determine which is entitled to propriety.—News and Observer.

Greensboro has a distinguished visitor in the person of the Rev. Dr. W S Rainsford, rector of St. George's Episcopal parish, New York City. He is here for rest and recreation and is stopping at the Benbow. Dr. Rainsford is one of the most noted divines of his church in America, being noted for his broad and liberal views on many subjects.—Greensboro Patriot.

A Havana dispatch of the 10th says that on that day the customs at that port amounted to \$104,000. It seems almost incredible.
