## A FLAG STATION

Will Probably Be Made at Crescent By the Yarkin Road—A Good Attendance at the Academy.

Crescent, March 20.—G W Watts, formerly a student of Crescent, had to leave school several weeks ago and will try his hand on the farm.

We learn that G W Isenhour, who was formerly one of Crescent's students, but who is teaching at Spencer will resume his place in school as soon as his school is out.

J R McNairy has returned from a trip North where he had gone to buy his summer goods.

Miss Glenna Sheppard was called to her home to see her sick mother.

New students are still arriving every week. Among the last to arrive was Miss Annie Seago, of Stanly and Miss Nora Ritchie, of Stanly, together with Messrs. M D Dry, G W Pickler, R E Huffman and George Huffman, the latter having received the medal in the penmanship class last summer. He will go to work on the same again.

There will be no school on Easter Monday. The boys are looking forward to a good time on that day.

There will be an exhibition at Rockwell academy Easter Monday. Everybody is cordially invited.

There are being some big improvements made on Stumpy street. Huraah for Crescent city.

The young men of Crescent literary society have been and are doing some good work. The public entertainment given by them was a success.

The Olive branch school has also been doing some good work.

We think we will get a flag station at Crescent. If we succeed the train will be met every time and get the mail. This will be much handier and will be a big help to Crescent.

We have one hundred and eighteen students enrolled and think we will reach one hundred and twenty-five certainly.

## HOW TENNESSEANS SHOOT

Against Such Marksmanship the Filipino Has Little Chance.

A yarn is told in Manila, and it concerns the prison and two Tennessee volunteers. A Filipino convict had climbed the prison wall and was running for dear life through the open. Two long-legged Tennesseans were on guard duty. They kneeled to fire.

"I don't guess it's more than three hundred yards," said one quietly.

"I reckon it's most five hundred," said the other, as if he were discussing the weather.

The prisoner was running like a deer, and rapidly approaching the under-growth around innumerable little huts, where he would be safe.

"Call it four hundred," suggested the first Tennessean, in a conciliatory tone.

They adjusted their sights, aimed and fired. The escaping convict fell, and the two Tennesseans went out to bring in what was left of him.

"If he's hit in the head, it's my shot," said one.

"I aimed low, according to army regulations," drawled the other.

The convict was found with one bullet through the back of his head and another through the lower end of his spine. They know how to shoot in the mountains of Tennessee.—Harper's Weekly.

## The High School Boys Win the Tie.

The High School boys and the Graded School boys have each succeeded in "doing" each other one time in a game of baseball. On Monday afternoon they tried again to see who would get the two out of the three games.

But this time the High School boys proved themselves higher than the Graded School boys, even when it comes to playing baseball. Messrs. Richmond Ried and Carl Johnson umpired the game. The score stood 15 to 13 in favor of the High School boys. Each team used the same battery that they have been putting up this season.

## A Woman Electrocutted.

Mrs. Place was electrocuted at Sing Sing, New York, Monday, for murdering her step-daughter, Ida Place, a mere girl, on February 7, 1898. She first threw acid in the girl's eyes and then smothered her. It was the first instance of the electrocution of a woman. Strong efforts were made to get Gov. Roosevelt to commute the sentence and spare the woman but he steadily refused to allow his sentimentalism to override the decisions of the court. He ordered, however, that the execution be conducted with the utmost decorum and entire freedom from sensation. It was ordered that but two representatives of the press, each representing a press association, be allowed to witness the execution.

Dr. Jennie Griffin, of Troy, was the physician with her by request of the governor. Her pastor was also with her, together with male physicians and officials.
