LATCH-STRING ON THE OUTSIDE.

Charleston Preparing for 40,000 Guests. 2,000 Veterans to Be Fed and Quar-tered—All Others Provided for at Reasonable Rates.

Charleston, S. C., April 19.—The committee on information has prepared an official statement as to the accommodations that can be furnished during the Confederate reunion which takes place in Charleston, May 9, 10, 11, 12 and 13. The statement shows that the committee is prepared to furnish board and lodging for 40,000 visitors at very reasonable rates. The accommodations are much better than those usually offered on such crowded occasions by any city, because Charlestonians, realizing the need of sustaining a long-enjoyed reputation for hospitality, have thrown open their homes for the entertainment of the visitors. The prices that will be charged during the reunion are very reasonable, and any attempt at extortion will be given publicity enough to make it ineffectual. The prices arranged for by the committee are as follows:

Lodging and three meals from \$1 to \$2.50 per day; lodging, breakfast and supper, \$1 to \$1.50 a day; lodging and breakfast, 75 cents to \$1 a day; lodgings in parties of from 4 to 50 in room or hall, 50 cents to \$1. Dormitories for men have been opened at convenient points about the city, where sleeping quarters can be secured at 50 cents a night. At some of them breakfast will be served at the cost of 50 cents.

For the accommodation of ladies only, all the public school buildings, with every convenience, will be converted into comfortable dormitories. They will be in charge of committees from the ladies' auxiliary association, day and night. Breakfast will also be furnished for 50 cents, and light lunches can be had for from 10 cents to 25 cents all hours of the day. All who intend visiting the city during the reunion should apply by mail or in person to Chairman R. P. Evans, of the committee of information, and thus secure comfortable places at the schedule prices.

The committee on restaurants, in addition to the large hotels and boarding houses, has prepared for furnishing 18,000 meals a day at an average cost of 35 cents a meal. These temporary restaurants will furnish good meals and will be located at convenient points about the city. There will be no lack of accommodations, and at reasonable prices. In addition to the accommodations will be provided by the committee on information at the places named, the Confederate executive committee will provide absolutely free quarters and food for 2,000 old Confederate soldiers.

Veterans' Benefit Fund.

One man in our community whose heart moves him toward the cause in which his father served and which we will commemorate on the 10th of May in Charleston has generously started a fund with which to enable indigent veterans to attend that great occasion. We open the list in the columns of The Standard that will appear frequently to which those likeminded will please attach their names and the amounts it is their pleasure to give.

The Ice Factory Is Now Doing Business.

When it was at first stated that Concord would soon have an ice factory, some were inclined to doubt the veracity of the statement but it is now a reality.

A good two miles drive out through the northern part of town lands one where the ice for Concord is now made. A nice new building has been erected and everything about the building has been arranged most especially for convenience. While outside all is fair one can well imagine a rainy day to hear the "pitter patter" of the water as it comes in contact with the pipes of hot water and ammonia. Here you see the fact demonstrated that warm water makes ice.

From the time a gallon of water is taken into the condensers it takes about sixty hours for it to form itself into a cake of ice. After running in full blast a 200-pound piece of ice will be taken from the cans every forty minutes and the same can again filled with water. This will continue both day and night and every forty minutes with the exception of Sunday.

The first lot of water was put in Wednesday and on Thursday afternoon the water was almost half frozen. This lot was not filtered and will be used only for freezing purposes and not to drink. Hereafter all of the water is taken through filters of charcoal, quartz, and sponge before going into the reservoir. It is a temptation to the bystander to taste such clear water.

The capacity of the factory is three and one-half tons per day. By the convenient arrangement of the building and machinery it is the intention of the proprietor, Mr. Jas. F. Dayvault, that one man will be able to conduct the business there, while in most similar enterprises two and three men are employed at the establishment.

The first ice was taken out today (Friday), though this was taken from the edges of the can, it requiring about twelve hours more to freeze it throughout.

Concord now has an ice factory.

A Change at the Depot.

Mr. Rogers White, at present, is acting as ticket agent at the depot in the place of Mr. Will Bingham, who has severed his connection with that place. Mr. R. S. Harris is temporarily working in the freight department in place of Mr. White.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

WANTED.—Agent to sell the Ideal Cooker in this locality. Good wages for good service. Write H. A. SMITH, Concord.

Dr. Tracy's Lectures.

Dr. Tracy's lecture Thursday night was along the line of temperance from a scientific standpoint. It was especially interesting to students of physiology.

The house was not so crowded as it sometimes is. Those wishing to attend and refrained from dread of the rush and pack will probably find room tonight, as the great rush seems to have subsided.

The lecture and illustrations tonight will be "Ten Nights in a Bar Room," compiled from the famous moralist, T. S. Arthur. The subject is one of a drawing power and will doubtless be thoroughly enjoyed.

This is regular silver offering night, remember.

Nothing Known to the Contrary.

It is common to hear our people disbelieving the statement that our soldiers will arrive here tomorrow night, their basis for the unbelief being the fact that the Charlotte companies will arrive on Sunday morning. Capt. Edward Hill well knows from letters sent him, that we are expecting his company tomorrow night and if he knew to the contrary or learns differently he will of course notify us at once.

Trinity Gains the Victory.

On Wednesday the University team beat the Roanoke team in a score of 16 to 1, and in the game Thursday between Roanoke and Trinity teams the same score was made by the Trinity boys. It seems that Roanoke is nothing to handle in the hands of these teams.

A Fire at Norwood.

The house in which Dr. T. A. Hathcock was living in at Norwood, was burned to the ground about 10 o'clock Sunday morning. It caught in the cook room. Nearly all the furnishings were saved. The building was owned by Mr. D. A. Dumas and is an entire loss, estimated at some \$700 or more.—Stanly Enterprise.

Paralyzed White in Church.

Mrs. Harrison Eudy, of Millingport, was stricken with paralysis Sunday during services at the church there, and is now in a very critical condition.—Stanly Enterprise.

Winston Wants Them Again.

We were shown a letter today from a gentleman in Winston to Mr. Alba Heywood stating that the people there are loud and unanimous in praise for his entertainment and they want him to return. They say that one of his numbers alone was worth their two dollars.

Remember no one will be given a seat during the rendition of any part.

ANNOUNCEMENT.

I hereby announce myself a candidate for the office of Mayor of Concord, subject to the action of the Democratic Convention.

GEORGE W. MEANS.

They Are Here.

The Alba Heywood company arrived here this morning to give Concord a specimen of their qualities in the opera house tonight. Every one who has heard this company speaks in the highest praise of it. The performance is to begin at 8.15 o'clock. Let the people be there promptly.

Wonder If He Saw This.

He was immured in the darkest dungeon beneath the castle moat. "If I had a saw, a file, or anything," he moaned as he looked at the solid iron bars across the solitary window. Then a thought struck him, his face brightened like a Cripple Creek conflagration. Rapidly running over his supply of collars, which had just come from the laundry, he selected one fitted to his purpose. Five minutes later the great middle bar of the window, dextrously severed by the saw like edge of the laundered collar, fell apart.

He was free. If he had had his collars laundered at the Concord Laundry he would be in jail yet. We have a device for ironing the edge of collars and cuffs and return them to you with a perfectly smooth edge, try us. Inquire about the Cleaning Club.
