## DAIRYMEN'S MEETING.

Some of Our Industrious and Ambitious Farmers Attending and Showing Their Desire to Learn More--A Splendid Attendance at the Opening.

The State Dairymen's Association met in the court house this (Tuesday) morning according to appointment.

There were in attendance more than seventy-five people including two ladies who graced the occasion and showed their interest in this, probably, the liveliest industrial interest before the agriculturists of our State.

The gentlemen from beyond the borders of our own county were Prof. Frank E Emery, of the A. & M. College; Dr. Cooper Curtice, M. D., D. V. S. State Veterinarian, and Mr. J M Johnson, of Raleigh, and Messrs Rufus M Johnston, Wm. Nisbet, T R Gauthier, Summers Alexander, C C Moore, of Mecklenburg.

Prof. Emery presided over the meeting.

Rev. J E Thompson led in prayer.

Mr. M B Stickley made the welcome address. He was glad to have these gentlemen come in our midst in the interest of dairying, a most important branch of agriculture, itself the foundation stone on which rests the prosperity of our country. He pictures the charms of ideal farm life and rehearsed our resources especially in the line of stock noting that in hogs and sheep we were probably far below some other regions.

Dr. D Reid Parker, the president of the Association, did not arrive on time, the southbound train being delayed. Therefore the response which was his on the program was made in a few extemporary remarks by Prof. Emery. The speaker then went into the discussion of the subject assigned him, "Markets for Dairy Products."

The speakersaid that as to foreign markets they hardly justified effort yet and that the home market is a much better field.

The speaker said that we need to combine as other communities do and separate our cream from the milk and make one high grade of butter. Then we can command a good market price.

Scores of farmers bringing their butter made in different ways, salted differently and cared for differently making a lump of various tastes and flavors can not ship butter and command a good price, but if the milk is treated systematically at once, the cream separated and seasoned in one lump it will be alike and of the best quality. It will command the best prices. He averred and was confirmed in subsequent speeches that at every point in the South where dairying is thus carried on the price is equal to that in Northern markets.

The speaker claimed that beside the price of product greatly enhanced, thereby there is economy. One or two men can do the churning for 50 or 100

cows compensating largely for the labor in collecting. One man too, could put all the butter on the market to best advantage.

Prof. Emery then read the paper by the Hon. Henry E Alvard of the Agricultural Department at Washington. It touched chiefly the growth and happy results of dairy associations over the country. He averred that there seemed no indications that the business can be overdone where it is most highly developed there is no crowding.

There was then some free discussion engaged in. Mr. McDonald tried to pull a practical speech out of Mr. O W Swink. He almost failed. He then asked Prof. Emery whether it is possible for us to make butter of that fine flavor that we find in the North. He answered that there could be no question as to that.

The treatment of the cream makes the difference. Milk should be separated as soon as possible and reduced to 60° then the ripening process of those finer growths in the cream occur instead of a different growth, which produces the inferior flavor.

Here he drove a good point. Separate and cool the smaller quantity and return the warm milk to an increased number of pigs that the county would have if we had the developed dairies.

He was pleased at the delivery wagons this morning with the milk in bottles of the most approved style.

He said that dairies should separate all milk and then remix milk and cream in proportions to suit the demand and purposes, the different grades bearing different prices.

He made some remarks as to the unfavorable glutting of the market in the summer months when milk and butter is easily made.

Dr. Curtis came to the rescue and said that cold storage is the solution. With united dairy efforts an ice factory can keep our butter, eggs and various products indefinitely. It is practical and helps us to tide over with the surplus of summer to be used as demanded by the market.

The meeting then adjourned till 2 o'clock. Mr. O W Swink announced that at 9.30 Wednesday morning the practical separation of cream will be exhibited in the court house. Butter will also be made and treated, also the Babcock tester, showing the amount of butter fat there is in milk.

### NO CURE, NO PAY.

That is the way all druggists sell Grove's Tasteless Chill Tonic for chills and Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults refer it to bitter, nauseating Tonics. Price, 50c.

### A Young Telegraph Operator.

Ernest McConnell, of this place, who has been serving as a messenger boy in the Western Union office here, has now secured a position as the operator at High Point. It is not known how long his situation will last as he goes there in place of the regular operator. He is in the Western Union office.

### THE BEST PRESCRIPTION FOR CHILLS

and fever is a bottle of Grove's Tasteless Chill Tonic. Never fails to cure; Then why experiment with worthless imitations? Price 50 cents. Your money back if it fails to cure.

## A HORRIBLE DEATH.

A Young Man Run Over By the Train Sunday Night--A Case to Go On Record--The Man Sees His Limbs Severed from His Body--He Was from Lenoir.

In Monday's Daily it was stated that a young man was killed Sunday night by the southbound fast mail train, No. 35, at Bethel siding on this side of China Grove.

The young man's name was Wm. Parsons and he was from Lenoir. He was attempting to beat his way to Columbia, S. C. After he was hurt he was taken to Charlotte and lived some time after reaching there.

This is a most remarkable case of vitality. The train ran over this young man's body searing completely his lower limbs and crushing part of his thigh. The train was stopped and the man was placed in the baggage car. The upper part of his body was carried in and then the lower part brought, and the young man noticed it and remarked why "his legs were so far from his body." An awful sight this must have been to see a man lying there with his body cut entirely in two. He begged to be killed that he might cease to suffer. He realized that he had not long to live and wanted to stay in the fresh air. He was rational and told his name and that of his comrade. He lived one hour after the accident.

### For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

### PERSONAL POINTERS.

—Mr. H N Pharr, one of Charlotte's attorneys, was here today.

—Mr. J R Watson, of Charlotte, the typewriter repairer, is here today.

—Mr. and Mrs. Brevard Harris returned home this morning from Misenheimer's springs, after spending a few days.

—Prof. P E Wright, of China Grove, spent today here. He was not attending the dairy meeting, as he doesn't drink milk.

## DIRECTORS ELECTED

For the New Bank at Albemarle--A Branch of This Bank--A Semi-Annual Dividend.

At a recent meeting of the officers of the Cabarrus Savings Bank the following directors for the new bank at Albemarle, which is a branch of this one, were elected: Messrs. J M Morrow and I P Efrid, of Albemarle, and Mr. T C Ingram, of Nerwood. As before stated, Mr Jno. C Leslie will be the cashier and Mr. Jay Harris the bookkeeper. The building is now being erected and it is hoped to start the new work the first of September.

The Cabarrus Savings Bank has declared a five per cent. semi-annual dividend, payable July 1st.

### They Didn't Have a Game.

Our baseball team, the second nine, went to Mt. Pleasant Monday to meet the Albemarle boys and have a good game. A number of persons from here accompanied them but to no avail as the two teams could not agree as to the players.

### Watch Loose Traders.

Sneak thieves have been operating in Raleigh recently lifting watches, diamonds and cash. Detectives have some interesting cases on hand and it would be well to keep an eye on loose traders of valuables.

### The Greensboro boys Coming.

Well, we will have some baseball this week, after all. The Greensboro team has at last decided to give Concord a round and will be here Thursday for a series of games. Greensboro is said to have a good team this year and perhaps we will have some fine games--closer than we have yet witnessed.

The band decided at their meeting Monday night to play for the game Thursday, so they will be out in their white ducks that afternoon and give the people some new music.

Would Not Suffer So Again for Fifty Times the Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G H Wilson, Liveryman, Burgettstown, Washington Co., Pa. This remedy is for sale by M L Marsh & Co., druggist.
