CHOLOROFORM USED.

Some Person Opens the Window and Pours Cholorform Into the Mouth of Will Johnson - His Probable Scheme Not Accomplished.

For the last several nights there has been reasons to believe that some night thief is getting in his work in our town and it has been hoped that he would be caught. Two different houses have been prowled about but he has not yet been caught. Worse than all though was the one Sunday night when some person went to the window at the home of Mrs. Bettie Johnson on Spring street where Will Johnson was sleeping and poured some choloroform into his mouth and nose. This was very probably done about 11 o'clock. A while afterwards he woke and found himself in this condition. His blinds were found to be wide open and several things of small value were found out in the yard. It is thought that the perpetrator of the deed intended to ransack the room to find some money, but he failed.

A Large Timber Deal.

Mr. Geo. E. Fisher will soon have finished his large contract of cutting timber out in No. 6 township, but when that is finished he has another still larger undertaking before him. He has bought the right to cut pine and oak timber on five hundred acres of land near Rocky River springs and will begin soon. He purchased the right from Mr. S. J. Biggers, of Charlotte. Messrs. Davis Barrier and Lewis Misenheimer have contracted to cut the timber for Mr. Misenheimer and have purchased a new engine and boiler for the work. Mr. Misenheimer, who is now living at Rimer will move to Rocky River springs. The lumber, after cut, will be put on the cars at Porters, a station on the Yadkin. Mr. Misenheimer has heretofore sold to this place exclusively but will ship to several places from there.

DRILL THE TONGUE DAILY.

It Is the Instrument That Makes the World Happier and Better.

"Upon those who are ambitious to make the world happier and better rests the obligation of drilling the tongue into lustrous kindness, purity, and refinement," writes Rev. Newell Dwight Hillis, D. D., of "The Diffusion of Happiness Through Conversation," in the August Ladies' Home Journal. "Not by spasmodic efforts, not with occasional hints and words of good cheer, are men prone to use the tongue in the interest of happiness. The daily drill of the tongue as an instrument of happiness and influence is to enter into the fundamental conception of living. Nor is this law binding only upon those happy persons who are said to be good entertainers. Some there are who are so fortunately organized that they exhale benefactions upon any company into which they enter. Unconsciously and without any set purpose, they oil the bearings of life, lessen friction, provoke laughter and good cheer as naturally as flowers that do not struggle to throw off sweetness, as the cedar wood that without thinking gives off fragrance. But the law of happiness-making is not confined to a few gifted individuals. It is binding upon all of every rank, station and temperament.

"On high festal days, days in Athens, when processions formed at stated intervals, in the processions marched men with instruments of music, and also incense-bearers. When one group of musicians had marched by and the sound of music was dying out of the air, another group took up the sweet strain. When distance had removed far the incense-bearers another group came on to fill the air with clouds of smoke from the sweet aromatic shrubs. Too oft our world marches forward to the sound of sad notes and requiems. Happy are those whose sweet and gentle speech fills the common life with sweetness and light as did the ancient ministers of joy and music. For their wholesome tongues are indeed 'trees of life' and their words like 'apples of gold in pictures of silver.'"

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first that it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to all my friends. - F A Babcock, Erie, Pa. It is for sale by M L Marsh & Co., druggist.

They Collide Wednesday.

The Charlotte and Concord boys are preparing to gird their armors on Wednesday afternoon here and pitch a hot fight. Charlotte has it in her head now that Concord will yet yield the spoils to her but Concord still boasts of her baseball superiority and will make a most desperate effort to sustain herself. The Charlotte contingent will be here Wednesday expecting a hard fight, and no doubt our people will be largely in evidence.

HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected soon to die of consumption, when I heard of Dr. King's New Discovery. One bottle gave me relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size 50c and \$1. Trial bottles free at Fetzer's Drug Store. Every bottle guaranteed.
