COURT ADJOURNED.

The Cases of the Criminal Docket Disposed of and Judge Robinson Returns Home—Cases Finished Before Adjournment.

On last Friday Judge Robinson arrived here and opened the court, after being detained elsewhere for four days. Today (Tuesday) after disposing of the cases on the criminal docket Judge Robinson adjourned the court and returned to his home in Goldsboro.

On account of the criminal docket not being finished before the first of this week and making it uncertain as to when the civil docket could be reached, it was decided that the civil docket would not be taken up.

Several trainbeaters were left until last for trial but they were turned loose.

A divorce was granted to Mrs. Chas. Rainey.

State vs. Dan Johnson and Ann Holdbrooks, f. and a. Both guilty. Judgment was suspended as to her. Johnson left town Monday evening but was on his way back here next morning when an officer met him. He was brought here but after Judge Robinson had adjourned court. He is confined in jail.

Mr. A. B. Nelson, of Mt. Pleasant, was granted a divorce from his wife.

State vs. Henry Melchor, retailing without license. Nol pros entered on account of it having been two years since the witness bought it.

State vs. John Isenhour, retailing without license. Judgment suspended.

State vs. Jim Mahew, Al Russell, Israel Harris and Cicero Grissom, affray. Not guilty.

State vs. Mack Wootten, stealing a water melon from a railroad car. Sentenced to the chain gang six months.

State vs. Jack White, abandonment of wife. Guilty and sentenced to the chain gang twelve months.

State vs. Jno. Jackson, beating a train. Guilty, but judgment suspended on payment of the costs.

State vs. Henry Chambers, retailing without license. Plead guilty and sentenced to the chain gang for two months.

A Queer Specimen of Corn.

Numbers have already looked at a specimen of corn we have in our office now for inspection which was brought us by Mr. J. Walter Dayvault, of No. 4 township. Everyone at first sight thinks it is a freak of nature and not a natural growth but yet Mr. Dayvault says that he has about 25 rows of just this kind. The one large ear has an infinite number of smaller branch ears, and on the one large ear is an unusual amount of silks sufficient to entirely hide the corn. It is not yet grown enough to serve on the table but when full-grown we will get to take another view of it. Numbers think it is an abnormal growth.

Eugene Edwards Dead.

Death visited the home of Mr. Eugene Edwards on Mill street Monday and robbed the home of its devoted husband and father, who was only about 25 years of age. To add to the discomfort and loss the wife is yet very sick with typhoid fever. He left behind also one small child. The funeral was preached by Rev. T. W. Smith after which the remains were interred in the cemetery. His parents are residents of Union, S. C.

YELLOW FEVER BREAKS OUT.

Thirty-Seven Cases Reported at Hampton, Va., With Seven Deaths—Probably Brought from Santiago.

Yellow fever to the north of us was one of the last things looked for and yet that is what we have: Thirty-seven cases with seven deaths is the record at Hampton, Va.

There are 3,500 men in the soldiers home there and the disease has had the greatest opportunity to spread before it was suspected. It was only after several deaths that two of the bodies showed a yellowness and were suspected. A diagnosis proved it to be none other than real yellow fever.

But one little clue as to its origin has been found. A soldier had returned from a trip to Santiago and though complaining had mingled freely with the soldiers. He seems to have left and his whereabouts is not known, therefore there is some uncertainty whether he brought it.

The Reina Mercedes lies there but it is said to be incredible that it should be the source.

Every precaution known to this advanced age is being applied to prevent the further spread of the disease. Richmond, Baltimore, Newport News and other surrounding towns are quarantined against the place and a tight cordon of sentinels is on guard around the soldier's home. It is confidently hoped that the contagion will be held in check and confined to the home.

Held In Quarantine.

On last Saturday Mrs. R. K. Blair, of Charlotte, who is known by a number of our readers, arrived at Hampton, Va., near Newport News to visit her sister. Since the breaking out of yellow fever she is now under quarantine regulations. It is very probable, though not certain, that Mr. N. G. Norfleet, whose family is now visiting at Mr. Jas. P. Cook's here, is in quarantine, having left Newport News only a few days before the breaking out of the disease. He left for New York.

Mr. Foil Sells the Arlington.

The Arlington hotel at Charlotte, N. C., has again changed hands. Mr. W. A. Foil, who has been proprietor for a year or more has sold out to South Carolina parties. He will remain at Roaring Gap for the season. The change will go into effect at once. Mr. Foil has built up a good trade, and the hotel will no doubt continue to succeed.—Charlotte Observer.

The Bridge Being Taken Out.

Mr. C. C. Morrison, of Chattanooga, was here last Saturday on his way to Rocky River to investigate the work going on there. He has contracted to take out the old iron bridge which has been lying in there ever since the big freshet about a year ago. The parts available will be used across the creek at Brafford's mill.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor, of Wind Ridge, Greene county, Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by M. L. Marsh & Co., Druggist.

A Rare Instance.

The negroes of the South have done themselves great injury by their habit of sheltering criminals of their own race. This has frequently aroused the wrath of white citizens and led to mob violence, which might not otherwise have occurred. It has had much effect in intensifying race antipathy.

If negroes expect to have the good opinion of the law-abiding citizens they must aid in the enforcement of the law.

When they conceal criminals they are guilty of encouraging crime and cannot complain if they are judged harshly for so doing.

Tom Linsay, an old negro who lives in Early county, did his duty as a citizen and a man when he gave up another negro who had perpetrated a horrible crime. He felt that he could not conceal the villain without becoming an accomplice in his crime, and acted just as every citizen, white or black, should act. If there were more Tom Linsays in the South there would be less lynching and better relations between the races.—Atlanta Journal.

Lightning's Bad Effect.

At Danbury, Conn., lightning struck a tree near the house and Miss Mattie Wheaton, on the second floor of the house, was knocked down. She was found completely paralyzed with her fists clenched so that all efforts to open her hands was resisted by the rigid muscles.

"You can please some of the people all of the time, and you can please all of the people some of the time, but you can't please all of the people all of the time," said Secretary of State Phil Cook yesterday, as he read a letter of complaint from one of his friends. "And old Lincoln was right about not being able to fool the people, too," he added.—Atlanta Journal.

He Has Reason to be Proud.

Our townsman, Mr. Baxter Parks, has just reason to be proud. When tired of the same old menu available from our market he goes out to his farm near Harrisburg and lays in a supply of good things from his own farm. These trips come often and Mr. Parks goes quite occasionally to see his crops. At the store he now has a fine stalk of cotton containing seventy-five bolls and thirteen more were on the stalk when he took it from his field. He has no reason to complain of his cotton crop and his vine and fig tree, especially the former, are unusually prosperous. Why should not the mortal be proud.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. M. L. Marsh & Co. will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable.

It has been estimated that an oak of average size, during the five months it is in leaf every year, sucks up from the earth about 123 tons of water.—Ex.

HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected soon to die of consumption, when I heard of Dr. King's New Discovery. One bottle gave me relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size 50c and \$1. Trial bottles free at Fetzler's Drug Store. Every bottle guaranteed.

NO CURE. NO PAY.

That is the way all druggists sell Grove's Tasteless Chill Tonic for chills and Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults refer to it as bitter, nauseating Tonic. Price, 50c.
