## TWO DEATHS NEAR ENOCHVILLE.

One An Aged Lady, the Other An Infant—Township Sunday School Convention.

Enochville, August 4.—Mrs. Overcash, the wife of Mr. Allison Overcash died Thursday and was buried this afternoon. She had been sick only a week. A bereaved husband and five children are left. Mrs. Overcash was about 75 years old. The funeral services were conducted by Rev. V. R. Stickley.

The five months old child of Mr. and Mrs. Silas Rogers was buried on Wednesday last. The little child had been sick eight weeks.

The Sunday school convention of No. 4 township, will be held Thursday at Centre Grove church. A full program has been prepared. All friends are invited to come and bring their baskets laden with good things. Among the speakers will be Rev. T. W. Smith and Rev. W. B. Oney, of Concord. Mr. H. W. Ludwig is president and Mr. P. E. Fisher secretary.

## Still More Credit Given Us.

The Charlotte News has the following nice remarks about us: "Charlotte people will not soon forget the handsome way Concord treated our boys Wednesday. Concord was entitled to the game and her team showed a commendable spirit in calling it a tie. It was Charlotte's misfortune that the 'double header' occurred.

"Concord could have by the rules claimed the game Wednesday because Charlotte had no substitute to put in, but she called the game a draw and thereby won for herself the admiration of the visitors for her great courtesy."

## This Hot Weather.

In vain one looks at the weather report and finds only a prediction of fair tomorrow. The temperature is one degree higher this afternoon than it was yesterday. Dr. Gibson's thermometer, which registers lower than most of them here, but which from the past is found to be almost accurate, registers 95 degrees, while yesterday it registered 94 degrees.

## His Resignation Not Accepted.

Rev. Albert Gillon, who is pastor of the Presbyterian church at Lexington, recently sent in his resignation. We see from the Lexington Dispatch that the congregation held a meeting and unanimously refused to accept the resignation and he will stay with them a while longer.

## A Partnership Formed.

On Thursday, the 3rd, a partnership was formed between two of our attorneys—Mr. Morrison H. H. Caldwell and Mr. M. B. Stickley. The office of the two will be in the Morris building where a new apartment has just lately been fixed.

## ECHO OF GALA WEEK.

A Rubber-Neck from Stokes Takes a Tumble.

The Greensboro Telegram of 3rd has the following:

"A man was leaning out over the madding crowd yesterday upon the court house balcony while the street parade was passing. Gazing intently, his under lip fell low and his orbs of vision bulged at the magnificent pageantry. He seemed to be ignorant of the fact that the length of his neck was limited, and that his support did not extend more than a few inches from his station. The scene waxed grander, and endeavoring to get closer to the imposing column, he trod upon the atmosphere. The law of gravitation still being in force, the consequence was a rapid transition of a heavy body downward, which struck unyielding terra firma with a dull but mighty thud, eliciting no response of pain from the man. He pulled himself together very unconcernedly and got closer to the parade. He was from Stokes.

## A Good Crowd Accompanied Them.

Concord is splendidly represented in Charlotte this afternoon in the grand stand to witness the game between Charlotte and Concord, which promises to be one of the closest and most interesting games that Charlotte has in a long time had the chance to witness.

Quite a large number, over forty, went over this morning to show Concord's colors and interest in the game. The following ladies are in attendance: Mrs. Gowan Dusenbury and her friend, Miss Annie Booth; Mrs. M. C. Dusenbury and her friend, Miss Goodman, and Miss Mabel Means with her friend, Miss Spears.

The Bell Telephone Co. has kindly consented to give the results of each inning to our people as soon as the inning is finished.

## Indian Graduate's Rash Deed.

Eugene V. Takapuer, an Indian graduate of the Carlisle school was thought to be a good Indian, but lost balance and killed the girl he loved near Springfield, Mass., last week. He was employed by a widow lady and became infatuated with her pretty daughter. After persistent wooings he shot the girl dead then told her mother what he had done and further said he would burn the building and shoot himself. The barn was soon aflame and a shot was heard within. It was presumed he was burned with it, though searching parties scoured the vicinity while the building was burning lest he escape by tickery.

## Outlook is Encouraging.

The Vesta Cotton Mill, which is being operated at Charleston, S. C., with colored labor, has made its first shipment of goods since the machinery was started under the reorganization. The shipment was made to St. Louis, and the goods manufactured were said to be of a very high class and quality. The mill has only been running a short time with colored operatives, though the plan is working well, and is the cause of much encouragement and satisfaction to the management. The president of the company, Mr. Montgomery, who is a practical mill operator, says he has carefully watched the work of the colored operatives and is much pleased with what has been accomplished.—Baltimore Sun.

## A Hotel of Aluminum.

One of the most remarkable of the recent inventions upon which the Patent Office authorities have been called to pass judgment is a traveling hotel, the designer of which thinks he has filled a long-felt want by constructing a portable habitation for traveling circuses or campaign parties who do not wish to be at the mercy of local hotel keepers.

The hotel on wheels is made of aluminum, and is so constructed as to fold up like a railroad car, and to appear, when closed, to be an ordinary baggage car. When the stopping place is reached, and the travelers wish to camp for the night, the sides of the car are let down by means of a series of levers.

The inventor has divided his traveling hotel into compartments, so that the party, if a large one, can be separated in the various sections of the building, occupying if they wish apartments en suite or a single room. The rooms are to be fitted up in the modern style, with all conveniences, including electric cooking apparatus, and the inventor is even working on a system that he thinks will enable the occupants of the hotel to reach the upper story by means of an electric elevator.

The furniture designed for the car is of course most the folding variety, and can be stowed away in a very small compass when not in use. When the stopping place is reached the car is to be detached from the train and taken to a convenient siding, where ample room for the spreading of the sides and the elevation of the roof that form the hotel.—Ex.

## Strikers Boycott Against a Dying Child

The Cleveland, O., street car strikers failed to prevent the cars from running, as help that they call "scabs" are running the cars, but the affair has taken on the shape of a gigantic boycott, in which citizens are taking a part. The merchant sympathizers are asking prohibitive prices of the "scabs" and the strikers are making it so unpleasant and threatening that few people ride on the cars as they run. The wild extremes to which the strikers carry their terrorizing methods is illustrated in the story that a prominent physician going to treat a child of a "scab" was met by two strikers and warned not to go and treat it. The doctor told them they would do well to warn the Almighty that they were not going to heaven, where the child, he said, would soon be.

## HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected soon to die of consumption, when I heard of Dr. King's New Discovery. One bottle gave me relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size 50c and \$1. Trial bottles free at Fetzer's Drug Store. Every bottle guaranteed.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor, of Wind Ridge, Greene county, Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by M. L. Marsh & Co., Druggist.
