NEWS FROM CHINA

Vague and Indefinite—Russians to Move on Pekin—Japs Entered Tien Tsin First—Prince Tuan's Force.

The news from China continues to be of that vague and unsatisfactory nature that has always characterized them. It is doubtless a fact that international jealousies and misunderstandings impede progress. They are noted and announced as adjusted in alternate order. It is announced that a Russian force will march overtly to Pekin as a means of reaching the city before the allied forces can reach it.

The Japanese have the honor of blowing up the gate at Tien Tsin and first entering the city.

Prince Tuan is said to have mobilized 950,000 troops and will dispose of them, directing one army against Tien Tsin.

There seems no probability of an extra session of congress on account of the Chinese trouble.

Four thousand troops are to be withdrawn from Cuba to go to China.

Jeff Davis' Cap.

Mr. John Paul Driver, a retired citizen of Hagerstown, formerly a Government employe in Washington, who has had Jefferson Davis' smoking cap in his possession since the Civil War, presented the cap to General H Kyd Douglas, of Stonewall Jackson's staff, desiring that it should go back to some of Jefferson Davis' people or friends. General Douglas says he intends sending the cap to Jefferson Davis' grandson, if he wishes it. It is a Turkish smoking cap, lined with dark red and embroidered with jet braid, with a tassel hanging from the top. Mr. Driver got it at Vicksburg, Miss., where, during the war, he was in a hospital when a Union cavalry command made a raid on Davis' country home and carried off many articles including the cap.—The Times Visitor.

FEARFULLY HOT.

Records of Deaths and Prostrations in Northern Cities.

We are in the midst of a depressingly hot season as can be heard of from almost everybody you meet.

A New York dispatch of the 18th says:

"The hot weather today caused or contributed toward the death rate more than 70 persons in this city and vicinity. As many more stricken ones are in the hospitals and some of them will succumb before the night is over. More than half the fatalities were among babies and little children and there are now about 40 bodies of the little ones lying at the morgue at Bellevue. This was the third day of the spell of intense heat. Late tonight the heat moderated.

"On the streets the temperature ranged from 98 to 105, and the official record from the weather bureau, high above ground, was 94 degrees shortly before 5 o'clock this afternoon. One death was from an attempt at suicide, made while the subject was crazed by heat. Many little children were badly hurt by falls from fire escapes, on to which they had crawled for relief from the oppressive weather."

A Philadelphia dispatch of same date says:

"The excessive heat yesterday caused the death of six persons in Philadelphia, and two in Camden, N. J. Up to a late hour today 40 cases of prostration were treated at the various hospitals."

A Boston dispatch of same date also says:

"The hospital reports tonight show that between 30 and 40 persons were prostrated by the heat in this city today, three of whom have since died."

Questions Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else of indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form to make you satisfied there is nothing serious the matter with you. For sale by all dealers in civilized countries.
