NOT BUTLER'S INFLUENCE SURELY.

"X" in the Charlotte Observer sounds a discordant note for Mr. Bryan and the matter is of such interest that the Morning Post copies and calls for the facts in the case from those who are in position to know. It seems that Mr. Bryan was asked to say something during our late state campaign that would strengthen the hands of the Democrats in their fight for White Supremacy but refused to utter a word to this end. The construction by X is that Senator Butler stands in with Mr. Bryan and that he could not afford to offend Butler.

This it is needless to say would be very irritating to Democrats. We don't want Mr. Bryan to be influenced by Butler at all.

In as much as we detested outside meddling by those opposed to us, Mr. Bryan's silence impressed the writer as commendable. However when we remember that he was much quoted by the advocates of fusion in the state and his counsels were used as a party lash to drive us into the mixture we can not see so well how to justify his course.

We still thought that as he got the benefit of rebuke by some of his staunchest friends in the state he had learned the lesson to keep out of our state politics. We shall still hope that this is the fair construction rather than that his course is influenced by Mr. Butler.

It is needless to say that no patient at all would be better than Butler or one at all swayed by him.

Eighteen Speeches in One Day.
A La Crosse, Wis., dispatch of the 2nd says: Col. Bryan made 18 speeches during the day occupying about six solid hours.

BIG COMPLICATED PRICES.

We fancy that many people who have been led to believe that the Gold Standard is a great evil and that they are necessarily wicked who not deny it have little idea of the convenience of our currency. We are led to this thought by glancing at the Buenos Aires Herald. The subscription is as follows: City per month, paper money, \$1.50; per year, paper money, \$18.00; Uruguay per year \$24.00; Great Britain per year £2.6s; U. S. American money, per year \$12.00. For the Weekly the price is City and Camp per year \$10.00; Uruguay Camp per year \$12.00; U. S. currency \$5.00; Great Britain and Colonies, £1.

JUDGE AVERY'S IDEA.

Judge A. C. Avery is taking a very serious view of our Senatorial campaign. He says it is absorbing the interest to the detriment of the real elections, the presidential and congressional tickets. The Judge is so much impressed with this idea that he has called for the assent of the four candidates to postpone the senatorial primaries till after the election, say the first Thursday in December. He believes it was a mistake to hold the primaries in connection with the election, and fears the consequences of this sharp contest between friends of the aspirants. The time is short and if such action be taken it must be done quickly. It may be a wise suggestion but can hardly be consummated.

It is not surprising to see that President McKinley and Chairman Hanna are anxious to have the miners' strike ended. This strike does not harmonise with the full dinner pail. It gives it the empty hollow ring.

The Bravery of Woman

Was grandly shown by Mrs. John Dowling, of Butler, Pa., in a three years' struggle with a malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months, she wrote: "I am now wholly cured and can eat anything. It is truly a grand tonic for the whole system as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50c. Guaranteed at Fetzer's drug store.

GALVESTON STILL IN NEED—MORE THAN 8,000 PEOPLE HOMELESS.

Instead of Millions Having Been Subscribed, the Total Fund is Really \$881,043, Which is Barely Sufficient to Bury the Dead, Remove the Debris, Accomplish the Work of Sanitation and Supply Food and Clothing—A Statement by the Chairman of the Finance Committee.

Galveston, Tex., Oct. 2.—John Sealy, chairman of the finance committee, a sub-committee of the Galveston central relief committee, and custodian of Galveston relief fund, has given the following to the Associated Press:

"Galveston, Oct. 1.—All subscriptions that have been turned over to me up to and including October 1, 1900; from all sources, amount to \$881,043. This amount includes all money received by me direct, all received by Mayor W. C. Jones and also \$909,500 remitted to me by Governor Sayers out of subscriptions made to him. The Governor has also ordered a further remittance to me of \$100,000, which should reach me in the next few days, and he will send me from time to time such additional funds as he may receive. We are now arranging in proper shape a full itemized statement of all receipts and amounts expended, which will be duly published.

JOHN SEALY,
"Ch'm. Fin. Com."

Apropos of Mr. Sealy's report The News tomorrow will say editorially: "The pressing need of Galveston is money with which to shelter more than 8,000 persons now homeless and to make habitable the homes of many others. Some correspondents have sent out statements to the effect that millions of dollars have been contributed to the relief of Galveston—one published statement fixed the amount at \$15,000,000. These statements have led the public—the generous, liberal public—astray, and have had a tendency to check the impulse to give because it seemed that the requirements had been met. But the real truth is that Galveston has up to date received only \$881,043—a sum but little more than sufficient to bury the dead, remove the debris, accomplish the work of sanitation and pay the expenses for food and clothing which the relief committee had to buy before supplies of food and clothing began to arrive from the outside world.

One thousand of the laborers employed in removing the debris will be released tomorrow as the work has sufficiently progressed to warrant this step: It will enable the railroads and other large corporations to get the laborers they require to continue the restoration of their properties.

Antarctic Expedition.

We have before us a copy of the Buenos Aires Herald of Aug. 15th in which we see that an antarctic expedition is to be fitted up to start in July or August 1901. The ship is to be built yet, but the contract is let. It is to be a wooden ship that the least possible chance for magnetic disturbances may not exist. "A three year's voyage is contemplated and it is hoped that those antarctic regions will yet have to yield many of its ice locked secrets.
