### It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. O R Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by M. L. Marsh.

From the mountains of Greenville county comes the news that a giant has fallen. A water oak known to have been over eighty years old, and said to be the largest tree in the State, perhaps in this part of the South, split into three parts and came to the ground, one part completely demolishing a house in which a family lived, but the loud reports of splitting wood aroused them in time to escape before it fell. At the base the oak was thirty-three feet in circumference and at midday shaded a quarter of an acre of ground. At city prices its value for firewood is \$52.—Anderson Intelligencer.
