Making Progress in China.

A Washington dispatch of the 5th says:

"Mr. Conger's last advices to the State department claim that satisfactory progress is being made by the ministers at Peking toward an arrangement of a basis upon which negotiations will be had with the government for a final settlement.

"The ministers have passed on the question of punishments and upon several other points which are to figure in the negotiations. The results have not been made public. The Russian minister is understood to be participating actively in the discussions and the proceedings are harmonious.

"The understanding is that when the ministers themselves have agreed on a program there will be little difficulty in securing an acceptance by the Chinese government, which is indeed powerless to offer serious resistance to the united demands of the powers."

Philippine Condition Bad.

London, Oct. 5.—A special to the Globe from Hong Kong says that the situation in the Philippines is unsatisfactory owing to the failure of the Taft commission to establish cordial relations with the natives and inability to organize municipalities except by force. This failure is due to the obstinacy of the natives in refusing to take the oath of allegiance to the United States. Several towns in which municipal government was established have been burned recently and the natives are manifestly determined to continue the struggle indefinitely against the Americans. The authority of the Americans is strictly limited to the range of their guns. Present conditions in the islands are detrimental to trade, and the outlook is gloomy. "Unfortunately," concludes the dispatch, "careful inquiry proves that there is no justification for Secretary Root's prediction that the negotiations from Manila will result in restoration of peace by December. Present prospects cannot with candor be said to favor hopes of peace."

According to the latest census Porto Rico has a population of 953,243, but they don't know yet whether they are Americans or simply plain Porto Ricans.—Ex.
