TERMS OF PEACE.

Foreign Envoys Reach a Conclusion Subject to Approval of Powers.

A London dispatch of the 13th says the foreign envoys have formulated the following, to be submitted to the powers, and if approved it is to be presented to China as a basis of adjustment of the Chinese problem, viz.:

"China shall erect a monument to Baron von Ketteler on the site where he was murdered and send an imperial Prince to Germany to convey an apology. She shall inflict the death penalty upon eleven Princes and officials already named, and suspend provincial examinations for five years where the outrages occurred. In future all officials failing to prevent anti-foreign outrages within their jurisdiction shall be dismissed and punished."

(This is a modification of Mr. Conger's proposition.)

INDEMNITY.

"Indemnity shall be paid to the States, corporations and individuals. The Tsung Li Yamen shall be abolished and its functions vested in a foreign minister. Rational intercourse shall be permitted with the Emperor, as in civilized countries."

"The forts at Taku and the other forts on the coast of Chih Li shall be razed, and the importation of arms and war material prohibited. Permanent legation guards shall be maintained, and also guards of communication between Peking and the sea."

"Imperial proclamations shall be posted for two years throughout the Empire suppressing Boxers."

"The indemnity is to include compensation for Chinese who suffered through being employed by foreigners, but not compensation for native Christians. The words Missionary and Christian do not occur in the note."

While the official document has not been presented to the administration at Washington, there is said to be features with which the government will be loath to subscribe.

Revenue Officers Make a Seizure.

Revenue Officer Albright finds that John Fink and Mack Allman had made more brandy than they had bought stamps for. He takes everything that belongs to the still and all the liquor that could be found. Everything was brought in Wednesday night and shipped to Charlotte.

"Now that the weather is so glorious that men are glad they are alive, the women are beginning to make mince-meat to cause them to wish they were dead."

FEMALE COLLEGE BURNED.

One Hundred and Fifty Girls Make Hasty Escape—Loss, \$75,000; Insurance, \$25,000.

Virginia College, an institution for young ladies at Roanoke, Va., was totally consumed by fire early Wednesday morning. The fire was discovered just as the girls, 150 in number, were rising, and they were bidden to get out without delay. All escaped. The fire started in the boiler room. Scarcely anything was saved. The loss is \$75,000, with \$25,000 insurance.

G. C. Goodman's Will.

The will of the late Mr. G. Crawford Goodman was probated today [Thursday]. He bequeathed to Mrs. Goodman the homestead of 60 acres of land and 3 acres of meadow land together with a year's provision and all the household and kitchen furniture for her natural life time. The rest of his estate is willed to his five sons George, Robert, Thomas, Stafford and Lawrence, having advanced previously to the others equivalent sums.

At the death of Mrs. Goodman the two sons George and Robert fall heir to the homestead.

Ha! Ha! Charlie.

Our congratulations in advance. Since the above is in type, we are the glad recipient of the following:

Mr. and Mrs. J. C. Deaton request your presence at the marriage of their daughter, Cornelia, to Mr. Charles Hamilton, Thursday, Nov. 22d, 1900, at 6:30 o'clock, p. m., at the Presbyterian church, Mooresville, N. C.

Killed Each Other.

Bartow, Fla., Nov. 14.—John Carter and Oliver Moody, two turpentine men, became involved in a quarrel at their camp near here over a woman, to whom both were paying attention. They agreed to fight it out with guns and, deliberately planning for the duel, fired simultaneously. When the smoke cleared it was found that the aim of both men had been true and that both were killed instantly. Officers were sent for, but there is no evidence that there were any other parties to the affair before or during the shooting.

If the McKinley administration doesn't wind up the Philippine racket pretty soon, the men who did such lively predicting on that score will be put down as robust prevaricators.—Morning Star.

From the Ocean's Depths.

Those papers which during the campaign were too busy with scientific research to support the Democratic party will doubtless be gratified at the vast mine of material for investigation afforded by recent accomplishments of some of the gentlemen to whom the government entrusts the duty of unraveling the knotty problems which Dame Nature presents.

Some of these gentlemen have been doing a little fishing with a line five miles long, and at that depth, they have made some catches, the sight of which, according to illustrations, would make a teetotaler of any fisherman who ever lived, and if exhibited in Kentucky, could carry that state for a prohibition candidate.

For instance, there is the eurapharynx pelecanoioides and his good friend, the trichinurus lepturus. The malacashens choristodactylus is a prize beauty, though the stylephorus choradatus is a close second.

Others are the sumicrotemus spinasus, the lynophryne lucifer and the mancalas chufeldth.

The country should certainly be grateful to these enterprising scientists.—Charlotte News.

Six Frightful Failures.

Six terrible failures of six different doctors nearly sent Wm. H. Mullen, of Lockland, O., to an early grave. All said he had a fatal lung trouble and that he must soon die. But he was urged to try Dr. King's New Discovery for Consumption. After taking five bottles he was entirely cured. It is positively guaranteed to cure all diseases of throat, chest and lungs, including coughs, colds, lagrippe, pneumonia, bronchitis, asthma, hay fever, croup, whooping cough. 50c and \$1. To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cts. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 36 Warren St., N. Y.

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application.
