CONCORD, N. C., Dec. 8, 1900.

WONDERFUL SURGICAL FEAT.

The most wonderful feat in surgery, we think, that we ever noted is that of Dr. Eduardo Chapot-Prevost, of Brazil, in which he successfully separated the famous Brazilian twins, who, we think, were with Barnum's show and seen by many of our people. They were two little girls joined together from about the breastbone down several inches. It was interesting to see them stand face to face and then turn as if by hinge either way and stand side by side.

It is a well known fact that both the Siamese twins died the same day from the sickness of one. Skilled surgeons were anxious to triumph over this later freak of nature. By the application of the X rays it was ascertained that the livers of the two were connected. It was not yet known just how far the surgeon dared to tamper with the liver, so Dr. Prevost experimented with dog's till he found he could overcome hemorrhage and that the liver would heal from the surgeon's knife.

Surgeons have learned that deaths from wounds are often due to the presence of germs of disease so these children were put through a course of disinfecting baths and every possible precaution was taken.

The operation was entirely successful.

The one, Rosalina, gave fair promise at first but the other, Maria, alternated, growing better and worse in turns. The sixth day showed Maria so much improved as to be considered out of danger but she soon took fits of vomiting which, though checked, too much depressed her and she died early on the 7th day. Some inflammation was found to have set in.

This operation makes it more than probable that the Siamese twins might have been separated, though the doctors then considered it impossible.

The Best Prescription for Chills

And here is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure-no pay. Price 50c.

The president's Cabinet does not want so much as \$40,000,000 of the revenue cut off as the Ways and Means Committee have reported. Anyhow everybody wants the stamps removed if it does require a little governmental economy.

Lynching in Virginia.

Richmond, December 7.—In the lower part of the county yesterday afternoon a young white woman, Mrs. Robert Fisher, was criminally assaulted by Daniel Long, a negro, aged 23 years. The outrage was committed after the victim had been choked into insensibility. The negro escaped. Last night Long was arrested by officers at his home, three miles from the scene of the outrage. Another negro, named Lewis Hall, who was with him, was also arrested. The two were taken before Mrs. Fisher, who immediately identified Long, and the officers started with him for the jail.

Almost immediately, however, they were confronted by an undisguised crowd of about 100 men, who took Long from them and after allowing him time to pray, attempted to hang him to the limb of a tree. The rope broke twice and then the negro was tied to a tree and shot to death.

Long implicated Hall, declaring that Hall was watching for him and the latter would also have been lynched, but for the earnest pleading of Mr. Thomas Blair, a prominent farmer. A compromise verdict was reached in the case of Hall, the crowd tearing his clothing from his body and whipping him unmercifully.

Paid Dear For His Leg.

B D Blanton, of Thackerville, Tex., in two years paid over \$300 to doctors to cure a running sore on his leg. Then they wanted to cut it off, but he cured it with one box of Bucklen's Arnica Salve. Guaranteed cure for Piles. 25c a box. Sold at Fetzer's drug store.

Elmwood Depot Robbed.

Says the Elmwood correspondent of the Statesville Landmark:

"Last Monday night some unknown party or parties entered the railroad depot at this place. They forced an entrance at the side window and took W S Rickert, the agent's, overcoat, a pair of kid gloves and his revolver—all told \$15 or \$20 worth. They also tried to force the lock on the ticket case but did not succeed. As yet there is no clue to the robbery. Mr. Rickert's coat can easily be detected by two red stripes on the collar—one on each side."

Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and la grippe during the past few years, to our knowledge, not a single case has resulted in pneumonia. Thos. Whitfield & Co., 240 Wabash avenue, Chicago, one of the most prominent retail druggists in that city, in speaking of this, says: "We recommend Chamberlain's Cough Remedy for la grippe in many cases, as it not only gives prompt and complete recovery, but also counteracts any tendency of la grippe to result in pneumonia." For sale by M. L. Marsh.

NEWS CULLINGS.

Now there is an alienation between Portugal and Holland not very well defined in the dispatches which intimate the possibility of war growing out of it. The seriousness of the aspect seems to lie in the fact that ministers to courts have withdrawn and relations are severed.

The Mooresville Enterprise says: "Jackson Sechler, of China Grove, left last Monday for the Philippine Islands, having enlisted in the United States Army. Mr. Sechler served with the First N. C. Regiment in Cuba, having been a private in Company L, of Concord. He will endeavor to be assigned to the 29th Regiment under his former Captain, Ed. Hill, of Concord."

A Goldsboro special of the 7th to the Charlotte Observer says: "Parties in the city from Canton report the sad death of a young man by the name of Robinson at that point on Tuesday night. The circumstances as told were as follows: Mr. Robinson, who is a son of the Widow Jas. Robinson, was a salesman in the store of Bernice Herring. He was endeavoring to make a sale of some cloth to a Mr. Coleman, who, lifting the bolt about his head, struck a swinging lamp. The lamp was knocked from its resting place, exploding, the oil falling on Mr. Robinson, who was a burning flame instantly. He, in his excitement, rushed out into the street and it was fully five minutes before his clothes were stripped from him and the fire extinguished. He was badly charred. My first information was written on the night of the accident, and stated that young Robinson could not live. Today I am advised that he died later. The store also caught fire but the flames were soon extinguished by parties who were in the store."

She—I see they've invented another labor-saving machine that works automatically and takes the place of man. They'll never invent anything, though, to take woman's place in this world. He—Oh; I don't know. There's the phonograph.

Nasal CATARRH

In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail. Trial Size, 10 cents by mail. ELY BROTHERS, 50 Warren Street, New York.

Sanitary Notice!

All persons are notified to clean up their premises at once, those keeping hogs are especially warned.

The commissioners have taken strong action in the matter and the mayor has given strict orders. A word to the wise is sufficient. Clean up and stay clean and save yourself of fine and cost. JAS. F. HARRIS, Chief of Police.
