MAMMOTH FOUND IN SIBERIA.

Dr. Herz Tells of His Discovery—Huge Animal Perfectly Preserved in the Ice. Cable dispatches from this city have already told of Dr. Herz's discovery of a mammoth preserved in the ice in eastern Siberia.

Dr. Herz now says he discovered it on September 22 near the river Ebrosowka at the foot of a declivity just over 100 feet above the water. It was lying down with its feet curiously bent under its body. Dr. Herz concluded that it had fallen down from high ground and had been instantly killed, as its neck was broken. There was grass in its mouth and food in its mouth and food in its stomach. The fall must have happened more than 2,000 years ago.

When Dr. Herz's party began the work of excavation the cold was so severe that a shed had to be erected. A fortnight was occupied in thawing out the monster. Meanwhile the stench was so bad that the stomach had to be cut out and refrozen elsewhere.

Eventually the huge animal was found complete save a small piece of the back and half of the trunk, which had been eaten by wolves. The mammoth was covered with a coat of rather thick red-brown hair.

The return journey, 3,000 miles, to Irkutsk began on October 23. The distance was covered on skates, the mammoth having been dissected for convenience in transportation.

London March 10.—The St. Petersburg correspondent of the Daily Mail says that he has seen the tongue of the mammoth, which is nineteen inches long, and the tail, which, with the hair on it, is more than fourteen inches long.—St. Petersburg Dispatch, 6th.

Captain Hobson's Lecture.

Capt. Richmond P. Hobson, the hero of the Merrimac, lectured in the court room last evening on the "Navy and the Nation under the auspices of the Daughters of the Confederacy, who are trying to add to the Confederate monument fund.

Captain Hobson is a man of striking personality, a pleasant and entertaining speaker. His address last evening was on a topic that he was thoroughly familiar with, and it is sure that the large audience, who heard him gladly, went away much more in touch with those who fight their country's battles on the sea than ever before. Captain Hobson, while a man of action, is an easy, fluent talker, and Statesville folks were rejoiced to have the pleasure of hearing him. They owe this privilege, by the way, to his cousin, Mis. J. L. Boyden, at whose solicitation he came.—Statesville Mascot.

The Winston-Salem Charleston Railroad

Friday, April 11th, will be Winston-Salem day at the Charleston exposition. On that day there will be a conference between the Chambers of Commerce of Winston-Salem and Charleston, the principal matter to be discussed being the advantage that would accrue to the two cities, as well as the intervening country, by the construction of the Winston & Wadesboro railroad. Messrs. E. B. Jones and W. A. Blair, of Winston, and a citizen of Wadesboro, to be selected, will speak in the interest of the road. It is hoped that something definite may result from the conference. Certainly Wadesboro would be greatly benefitted should the road be built, and Winston-Salem will find our citizens ready to co-operate in any movement having this end in view.—Wadesboro Messenger and Intelligencer.
