LIQUID AIR.

A Demonstration May be Given in Charlotte of This Wonderful Agency - What It is and What It Will Do.

A good deal of interest is being shown by many citizens in the announcement of a possible appearance in Charlotte of an expert demonstrator with liquid air and apparatus, the latter part of this month. The entertainment will be engaged only in case a sufficient number of tickets are promptly secured to warrant the expense of bringing a supply of liquid air from New York with which to perform the many experiments that have attracted so much attention. Subscribers will be entitled to first selection of seats, and orders may be telephoned to the Y. M. C. A. office until tonight, when the list will be closed.

Liquid air is ordinary air in a very extraordinary condition, looking and flowing like water, 312 degrees below zero. It boils fiercely when placed on ice, but freezes the flame of an oil stove when placed thereover. It melts steel, but freezes alcohol; it will burn an electric light carbon at a temperature of about 3,500 degrees above zero in the same tumbler in which strawberries are being frozen as hard as bullets. Rubber, tin and iron are made as brittle as glass, while mercury is made so hard that nails are driven with a mercury hammer.

Mr. H M Hanaford, representing the Liquid Air Lectures and Experiments Company, of Chicago, is here working up the show.—Charlotte Observer.

Cut by a Grass Scythe.

Master Gowan Dusenberry received a painful, though we hope, not a serious cut on the arm Wednesday. There was a grass scythe hanging on the fence about the lot and, not noticing it, he struck his arm into it while crossing the fence. Dr. Archey dressed the wound, sewing three stitches. The little fellow is doing very well.

Easter at Grace Church, Lexington.

The Davidson Dispatch writing of the Easter services in Lexington says:

At Grace Episcopal church Dr. J C Davis, of Concord, filled the pulpit in the beautiful new structure which his congregation has just completed. The building is located on South Main street and the pattern is the old Grecian art. The building was filled to overflowing Sunday morning. The interior of the church was beautifully decorated with Easter lilies, carnation, etc., and the words "Christ is Risen" appeared in ferns over the pulpit. The choir, assisted by Mesbames Allen and Gibson and Mr. R P Benson, of Concord, rendered excellent music. Dr. Davis preached at 11 o'clock, a. m. and 4 o'clock, p. m. His sermons were logical and forcible and were attentively listened to by the large congregations present.

Widows and Orphans of the Mine Disaster.

Fourteen wives were made widows and 58 children were made fatherless by the explosion in the Nelson mine in Tennessee. No satisfactory cause has been found for the disaster though some of the miners claim that it came from neglect to sprinkle properly. Sixteen men in all were killed.

Seyffert-Sloop Wedding.

Mr. George Seyffert and Miss Carrie Sloop were married in Salisbury at 8:25 Tuesday night. It was a quiet home wedding. The ceremony was performed by Rev. H L Atkins. The popular and happy couple left at once for the Charleston Exposition for a week on a bridal tour.

Wants to Help Others.

"I had stomach trouble all my life," says Edw. Mehler, proprietor of the Union Bottling Works, Erie, Pa., "and tried all kinds of remedies, went to several doctors and spent considerable money trying to get a moment's peace. Finally I read of Kodol Dyspepsia Cure and have been taking it to my great satisfaction. I never found its equal for stomach trouble and gladly recommend it to hope that I may help other sufferers."
