PLEASED WITH TEXAS.

Mr. A. A. Harvell Returns With Texas Soil and Other Mementoes of His Trip to the Lone Star State.

Mr. A. A. Harvell, of Locust, has just returned from Texas after attending the reunion.

He rambled over a number of places and is quite interesting to converse with. He gathered up some things as souvenirs of his visit. He can stand upon the Texas black lands whenever he chooses or sleep on them either. This is the first we have seen of this remarkable soil. He also has a fine collection of sea shells that were sifted out of these lands, showing that the Texans are now raising their finest crops in what was at one time Neptune's patch. He has a specimen of a white chalky, gritless stone that lies beneath this soil, showing that the sea furnished the foundation and then laid the rich alluvium upon it so that those Texans can beat us farming. Even up in the "pan handle" Mr. Harvell gathered up soil that is alluvial and almost black.

He seemed delighted with the Pecan groves with their trees three feet thick. He has some as fine specimens as you ever cracked your enamel on.

He has some specimens of corn, one of which seems just the thing on which to feed little chicks. It makes from 50 to 75 bushels per acre. He says as a corn growing country it is better than North Carolina as to quantity but inferior as to quality.

Farming is comparatively easy there. One man with his machinery cultivates 50 to 75 acres of land and makes a bale of cotton to the acre.

Mr. Harvell met a number of Tar Heels and is delighted to find nearly all of them doing well. They are independent and happy.

Mother Dies to Save Son.

Pittsburg, Pa., May 19.—A trolley car crushed out the life of Mary Hafner, of Allegheny, aged 30, today. She had crossed the street and was followed by her 4-year-old son, Haymond. A Troy Hill car dashed down the grade and had nearly struck the boy when the mother saw it. She ran in front of the car, threw her son off the track, but was herself caught beneath the front trucks.

Every Healthy Boy

likes to get himself into places of danger. Hence bruises, strains and sprains. Mother scolds and brings out the bottle of Perry Davis' Painkiller and rubs it on the injured spots with an energy and frequency depending on the seriousness of the case. There is nothing like Painkiller to take out the soreness. There is but one Painkiller, Perry Davis'. Price 25c. and 50c.

NEW ENTERPRISE

Plant for Delinting Cotton Seeds to be Established at Rockingham—Charlotte People Interested.

The Observer is informed that there is a movement on foot to establish a plant for delinting cotton seed at Rockingham. This enterprise is based upon patents procured by Mr. W. A. Ragsdale for taking all the lint off of cotton seed, leaving the black seed looking like Sea Island cotton seed. It is stated that for the exportation of cotton seed it is necessary to take all the lint off of them, leaving them hard and black. In this shape they stand the ocean voyage, which the ordinary upland cotton seed will not do because the lint that is on them absorbs moisture and this in turn spoils the seed. Mr. Ragsdale states that delinted cotton seed will sell in Europe at about \$5 a ton. This is a ton of 2,240 pounds. His figures go to show that there is better profit in delinting all seed and shipping them to Europe than there is in work them in this country. It is said that some of the continental countries have a high tariff on cotton seed oil and practically no tariff at all on cotton seed. This condition would contribute much to make the exportation of seed profitable as compared with the exportation of oil. The principal markets for the seed are in England and France.

Mr. Ragsdale stated that if his negotiations went through in good shape at Rockingham the parties interested there would probably build a plant in Charlotte. Several local people are to be interested with Mr. Ragsdale.—Charlotte Observer of 20th.

A Big Turtle.

Last week while Master Frank Crowell was visiting his cousin, Boone Crowell, in No. 6 township they caught a turtle in Dutch Buffalo creek that weighed 15 pounds and while Boone was getting him out of the creek the line tore and Frank said "God Nose" he is gone but the line happened to get fastened to a root and we got him at last and over Sunday we feasted on turtle.

ACCORDING TO FRANK.

The Swiss Bell Ringers.

The Swiss Bell Ringers will be at the court house tomorrow night under the auspices of the Alkest Lyceum. A charming chine is in store. Tickets on sale at Gibson's Drug store. Admission 50 cents.

Mr. C. C. Hopkins left today for Charlotte to enter St. Peter's hospital for treatment.

TOWN FATHERS MEET.

The Board Asked to Construct Sewerage System for the Gibson Mill.

At the request of Mr. J. W. Cannon there was a called meeting of the town commissioners Tuesday night. Mr. Cannon presented to the body the necessity for a system of sewerage at the Gibson mill. He said that there is now a good large community there and as they are doubling the size of the mill the inhabitants will be doubled and sewerage is a necessity. Complaints have been lodged against the present arrangement, and he thought a sewerage system should be secured at once. He asked the board to construct a line tapping the main system that would supply the need there and would embrace many more along the line. He said the taxes from that source had now become a considerable item and that the next legislature would be asked to extend the corporate limits so as to embrace all the property there, or if it were so desired the lines might be contracted so as to leave out the entire plant and community, though he preferred to have it taken in as a whole and pay the taxes to the town and enjoy police protection and other benefits.

Mr. R. E. Gibson presented the claims from the growing taxable wealth of the community and hoped the commissioners would see the force of the claim.

On motion the matter was referred to the sewerage committee to be reported at the earliest practical time.

Two of a Kind.

Goldsboro, N. C., May 19.—A shooting scrape is reported from Mt. Olive, where on Saturday night a negro whose name could not be learned shot a white man named Bill Miller. The negro emptied his pistol, which was a six shooter, into the white man at close range and the later, with six balls in his body, is still living, but is said to be in a serious condition. The controversy arose over some money which the white man claimed that the negro owed him. It seems that Miller is in bad repute in the community from his association with the negroes, and the public generally are not disposed to make much effort to condemn or to apprehend the negro, and the occurrence is not much regretted. The point at dispute between the two men was of a trivial nature and is not thought fit for publication.

"On her wedding day the happy bride can see no good reason why the honeymoon should not last forever."

Extra Value in Made to Measure Suits.

For the next thirty days the large tailoring concern of Ed. V. Price and Co. have made a deep reduction in a number of Suits where there is only cloth enough left to make 4 or 6 suits. These are the best patterns, the lots being small. Now is an opportunity to get a made to measure suit at a store bought price. The 19.00 to 21.00 Suits are now 16.00. The 16.00 to 18.00 Suits are now 13.50. The workmanship is of the very best and a perfect fit is guaranteed. We are pleased to have you drop in and look over the samples.

Call and See Them.

DR. MOFFETT'S **TEETHINA** (TEETHING POWDERS) Cures Cholera Infantum, Diarrhoea, Dysentery, and the Bowel Troubles of Children of Any Age. Aids Digestion, Regulates the Bowels, Strengthens the Child and Makes TEETHING EASY. Costs Only 25 cents at Druggists. For mail 25 cents to C. J. MOFFETT, M. D., ST. LOUIS, MO.

PROBATION, N. C., Nov. 26, 1900.—I was first advised by our family physician in Charlotte to use TEETHINA with our baby when he was but a very young infant, as a preventive of colic and to warm and sweeten his stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from dangers that are consequent upon the use of drugs and soothing syrups, that we have ever since resorted to it for our children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends. HARTWELL M. A. Daily Times and Weekly Times-Messenger.

Fetzer's Drug Store.

FOR OVER SIXTY YEARS Dr. W. H. Wakefield,

Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

CHARLOTTE, N. C., limits his practice to diseases of Eye, Ear, Nose and Throat. The doctor will be in Mt. Pleasant at Mrs. Welsh's Hotel on Wednesday, May 28th, for one day only.
