## FATAL COLLISION ON THE W. N. C.

Negro Fireman Killed and Several Men Injured in a Wreck Near Marion.

Marion, May 28.—A head-on collision between two freight trains occurred one mile east of the station here this morning. Fireman Williams, colored, on the west-bound train, was caught between the tender and boiler, crushed and horribly burned to death. Engineers McSherry and Eagle were painfully but not seriously injured. Brakeman Ballinger had a leg broken. Several other trainmen were slightly injured by jumping. Both engines and several cars were pretty badly torn up.

It is reported here that the wreck was caused by the failure of an operator at Old Fort to give the east-bound train orders to meet the other train here. No blame is attached to either crew. The injured are here and are being taken care of by Dr. G. S. Kirby. The track is now clear and trains are passing on time.—Special to The Charlotte Observer.

## Lightnings Power.

The following from the Davidson Dispatch indicate that some of the bark was knock off at the home of Messrs. Grimes of that county.

"During Sunday evening's storm lightning struck the phone wire running into Messrs. Grimes Bros. farm house occupied by Mr. Bob Conrad's family. The phone in the building was demolished and a fine Shephard dog lying under the house was killed. The room was unoccupied at the time and no one was injured."

The walls to the Cannon & Fetzer Company's new addition are going up at a splendid pace under the guidance of Mr. Robert McAllister and it will not be long till Concord will have in this the largest and probably the most magnificent trade emporium in the State of North Carolina. The front of the whole building will be built new and alike with superb granite block corners and almost a solid plate glass front. It will be a mammoth affair in proportions and type of grandeur in style.

## Three Boys Missing.

A Durham special of the 28th to the Morning Post says:

The disappearance of three boys, two of them aged 12 years and the other 10, from Edgemont, has caused a great deal of uneasiness among the relatives of the boys. Their names are Walter Baker, 12 years old, and Troy Baker, 10 years old, sons of H. M. Baker, and Charlie Pollock, 12 years old, son of John Pollock. On Monday evening they left home saying they were going to catch some young rabbits. Later in the afternoon the three boys were seen by a negro man in the neighborhood of Elerbee creek. The fear of the relatives is that they have been drowned, although this is hardly probable. Many think that the boys are making their way back to their home in Franklin county. Letters and telegrams have been sent trying to locate the runaways.

## Demands a Senatorial Primary.

A Charlotte special of the 28th to the Morning Post says Robert A. Ford (a native of Concord) declares himself a candidate for election to the United States Senate, subject to the State primary. He demands a primary and by this announcement he hopes to cut the knot that will secure the primary rather than any hope he has of being elected.

## Jess Faggart Returns to the Gang.

Jess Faggart, who escaped from the chain gang on the first Monday in March, came in Wednesday night to Chairman Gillon's and asked to be returned to the gang to serve out the remainder of his time. When asked why he came back he said he knew he would be caught any how and he preferred to come in by himself. He asked Chairman Gillon to not have him whipped. Being assured that he would not be he accompanied Mr. Gillon to the gang and is happily installed in the service today.

## Sam Jones Not Learned on Printed Page.

EDITOR STANDARD:—I saw an article in The Standard of the 22nd inst. on Sam Jones' style of preaching, and truly said that he surely never speaks to the eye on printed papers as he does to the ear and face to face. This is strictly true. Your correspondent heard him preach every day or night for twenty-one successive days, to very large congregations, and interest seemed to increase at each service as time rolled on to the end of his engagement. His catchy way of interesting his audience is not so much in what he says as it is in the way he says it. He does not believe that diplomacy ever conquered deviltry, and he brings every one's sins and wrong doings vividly before him in plain and scathing terms. He has a very earnest way of making his audience see their sinful habits that makes a profound impression. It is not at all uncommon to hear people say after hearing him preach that they intended to live a better life. This was not said from excitement but from cool conviction of duty. His pert sayings that seemed so amusing were always an earnest and scorching rebuke to some sinful practice. "OBSERVER."

## Four legged Chicken.

Fletcher Church, of Lewis, Fork, has a big chicken with four well developed legs and it uses them all in walking, too. It ought to make a good hand at scratching in the garden.—Wilkesboro Chronicle.

## An Object Lesson.

The entire South owes a debt of gratitude to Representative Thompson, who has just returned to Washington with a party of Northern and Western congressmen, whom he took on a tour through the South at his own expense in order that they might better understand the relations existing between the whites and blacks. The impressions produced on these gentlemen is voiced by Representative Darrough, of Michigan, who stated to a Sun reporter that he sees no reason for interference on the part of congress in Southern affairs.

These gentlemen return to their congressional duties with a broader vision and a clearer knowledge in regard to actual conditions. Such information as they possess will clear away many a fog and erroneous idea that they have heretofore had. They will be better able to handle problems affecting the South in an impartial, passionless manner. We are glad that the trip of these gentlemen proved so pleasant and that they saw something of genuine Southern hospitality.—Salisbury Sun.

FLORENCE, S. C., Nov. 26, 1900.—I was first advised by our family physician in Charleston to use TEETHINA with our baby when he was but a very young infant, as a preventive of colic and to warm and sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from danger that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their baby quiet.

We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve."
